

PRELIMINARY OFFICIAL STATEMENT DATED SEPTEMBER 3, 2019

Ratings: Moody's: "____"
S&P: "____"
Fitch: "____"

(See "OTHER RELEVANT INFORMATION – Ratings" in this document)

NEW ISSUES – Book-Entry-Only

In the opinion of Bond Counsel to the City, interest on the Bonds, the Certificates, and the Contractual Obligations (each as defined below) will be excludable from gross income for federal income tax purposes under statutes, regulations, published rulings and court decisions existing on the date thereof, subject to the matters described under "TAX MATTERS" in this document. The Taxable Bonds and the Taxable Certificates (each as defined below) are not obligations described in Section 103(a) of the Internal Revenue Code of 1986. Interest on the Taxable Bonds and the Taxable Certificates (defined below) is not excludable from gross income for federal income tax purposes under existing law. See "TAX MATTERS" in this document.

CITY OF AUSTIN, TEXAS

Certificates of Obligation,
Series 2019

\$25,865,000*
Public Property Finance Contractual
Obligations, Series 2019

\$40,550,000*
Public Improvement Bonds,
Taxable Series 2019

\$14,900,000*
Certificates of Obligation,
Taxable Series 2019

Dated Date: October __, 2019

Due: As shown on the inside cover page

Interest on the \$146,915,000* City of Austin, Texas Public Improvement and Refunding Bonds, Series 2019 (the "Bonds"), the \$5,120,000* City of Austin, Texas Certificates of Obligation, Series 2019 (the "Certificates"), the \$25,865,000* City of Austin, Texas Public Property Finance Contractual Obligations, Series 2019 (the "Contractual Obligations"), the \$40,550,000* City of Austin, Texas Public Improvement Bonds, Taxable Series 2019 (the "Taxable Bonds") and the \$14,900,000* City of Austin, Texas Certificates of Obligation, Taxable Series 2019 (the "Taxable Certificates") will accrue from the dated date shown above, and in the case of the Bonds, the Certificates, the Taxable Bonds and the Taxable Certificates, will be payable March 1, 2020 and each September 1 and March 1 thereafter until maturity or redemption prior to maturity, and in the case of the Contractual Obligations will be payable May 1, 2020, and each November 1 and May 1 thereafter until maturity, and will be calculated on the basis of a 360-day year consisting of twelve 30-day months. The Bonds, the Certificates and the Contractual Obligations are collectively referred to in this document as the "Tax-Exempt Obligations". The Taxable Bonds and the Taxable Certificates are collectively referred to in this document as the "Taxable Obligations". **The Tax-Exempt Obligations and the Taxable Obligations are collectively referred to in this document as the "Obligations."**

The initial Paying Agent/Registrar for the Obligations is U.S. Bank National Association, Dallas, Texas. See "OBLIGATION INFORMATION – Paying Agent/Registrar" in this document. The Bonds, the Certificates, the Contractual Obligations, the Taxable Bonds and the Taxable Certificates will be offered separately by the City of Austin, Texas (the "City"), and delivery of any one issue is not contingent upon the delivery of the any other issue. The City intends to utilize the book-entry-only system of The Depository Trust Company, New York, New York ("DTC"), but reserves the right on its behalf or on behalf of DTC to discontinue such system. The book-entry-only system will affect the method and timing of payment and the method of transfer of the Obligations. See "OBLIGATION INFORMATION – Book-Entry-Only System" in this document.

In each Ordinance (as defined in this document), the City Council delegated to a "Pricing Officer" the authority to effect the sale of the series of the Obligations authorized therein, subject to the terms of each Ordinance. The Bonds, the Taxable Bonds and the Contractual Obligations are direct obligations of the City, payable from a continuing, direct annual ad valorem tax levied, within the limits prescribed by law, on all taxable property located within the City, as provided in the respective ordinances authorizing the issuance of the Bonds, the Taxable Bonds and the Contractual Obligations. The Certificates and the Taxable Certificates are direct obligations of the City, payable from a continuing, direct annual ad valorem tax levied, within the limits prescribed by law, on all taxable property located within the City and are additionally payable from and secured by a limited pledge of the surplus revenues (not to exceed \$1,000) of the City's solid waste disposal system, as provided in the ordinance authorizing the issuance of the Certificates. The Contractual Obligations are direct obligations of the City, payable from a continuing, direct annual ad valorem tax levied, within the limits prescribed by law, on all taxable property located within the City, as provided in the ordinance authorizing the issuance of the Contractual Obligations. See "OBLIGATION INFORMATION – Security" in this document.

Proceeds from the sale of the Bonds and the Taxable Bonds will be used to finance various capital improvements (see "DEBT INFORMATION – Authorized General Obligation Bonds" in this document) and to pay costs of issuing the Bonds and the Taxable Bonds. Proceeds from the sale of the Bonds will additionally be used to refund for savings portions of the City's outstanding general obligation debt shown in APPENDIX D of this document (the "Refunded Obligations") and to pay the costs of refunding the Refunded Obligations. Proceeds from the sale of the Certificates and the Taxable Certificates will be used to finance various capital improvements and to pay the costs of issuing the Certificates and the Taxable Certificates. Proceeds from the sale of the Contractual Obligations will be used to purchase certain equipment and other personal property for use by various City departments and to pay the costs of issuing the Contractual Obligations. See "OBLIGATION INFORMATION – Authority and Purpose for Issuance" in this document.

See "MATURITY SCHEDULES" on pages ii and iii

The Bonds, the Certificates, the Taxable Bonds and the Taxable Certificates are subject to redemption prior to their stated maturities as described in "OBLIGATION INFORMATION – Optional Redemption of the Bonds, the Certificates, the Taxable Bonds and the Taxable Certificates" and "OBLIGATION INFORMATION – Mandatory Sinking Fund Redemption of the Bonds, the Certificates, the Taxable Bonds and the Taxable Certificates" in this document. The Contractual Obligations are not subject to redemption prior to their stated maturity. (See "OBLIGATION INFORMATION – No Redemption of the Contractual Obligations Prior to Maturity" in this document).

The Obligations are offered for delivery when, as and if issued, subject to the approving opinions of the Attorney General of the State of Texas and of McCall, Parkhurst & Horton L.L.P., Bond Counsel. See "APPENDIX C – FORMS OF BOND COUNSEL'S OPINIONS" in this document. Certain legal matters will be passed upon for the City by Bracewell LLP, as disclosure counsel to the City, and for the underwriters listed below (the "Underwriters") by their counsel, Haynes and Boone, LLP.

It is expected that the Obligations will be delivered through the facilities of DTC on or about October 2, 2019.

For purposes of compliance with Rule 15c2-12 of the U.S. Securities and Exchange Commission (the “Rule”), this document constitutes an Official Statement of the City with respect to the Obligations (as defined below) that has been deemed “final” by the City as of its date except for the omission of no more than the information permitted by the Rule.

The Obligations are offered by the City under a common Official Statement. The Bonds, the Certificates, the Contractual Obligations, the Taxable Bonds and the Taxable Certificates (collectively, the “Obligations”) are separate and distinct securities offerings being issued and sold independently, except for the common Official Statement. While the Obligations share certain common attributes, each issue is separate from the others and should be reviewed and analyzed independently, including the type of obligation being offered, its terms for payment, the security for its payment, the rights of the holders, the federal, state or local tax consequences of the purchase, ownership or disposition of the respective Obligations and other features.

No dealer, broker, salesman or other person has been authorized by the City or by the Underwriters to give any information or to make any representations, other than as contained in this document, and if given or made such other information or representations must not be relied upon as having been authorized by the City or the Underwriters. This Official Statement does not constitute an offer to sell or the solicitation of an offer to buy, nor shall there be any sale of, the Obligations, by any person in any jurisdiction in which it is unlawful for such person to make such offer, solicitation or sale.

This Official Statement is submitted in connection with the sale of securities referred to in this document and may not be reproduced or used for any other purpose. In no instance may this Official Statement be reproduced or used in part.

THE OBLIGATIONS HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED, NOR HAVE THE ORDINANCES BEEN QUALIFIED UNDER THE TRUST INDENTURE ACT OF 1939 IN RELIANCE ON EXEMPTIONS CONTAINED IN SUCH ACTS.

The information set forth in this document has been furnished by the City and includes information obtained from other sources which are believed to be reliable, but is not guaranteed as to accuracy or completeness by, and is not to be construed as a representation by, the Underwriters. The information and expressions of the opinions in this Official Statement are subject to change without notice and neither the delivery of this Official Statement nor any sale made under the Official Statement shall, under any circumstances, create any implication that there has been no change in the affairs of the City or the other matters described since the date of this Official Statement. CUSIP numbers have been assigned to each series of Obligations for the convenience of the owners of the Obligations.

This Official Statement includes descriptions and summaries of certain events, matters, and documents. The descriptions and summaries do not purport to be complete and all such descriptions, summaries and references are qualified in their entirety by reference to this Official Statement in its entirety and to each document referred to in this Official Statement, copies of which may be obtained from the City or from PFM Financial Advisors LLC, the Financial Advisor to the City. Any statements made in this Official Statement, which includes the Appendices to this document, involving matters of opinion or estimates, whether or not so expressly stated, are set forth as such and not as representations of fact, and no representation is made that any of such opinions or estimates will be realized.

This Official Statement contains “forward-looking” statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. Such statements may involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance and achievements to be different from the future results, performance and achievements expressed or implied by such forward-looking statements. Investors are cautioned that the actual results could differ materially from those set forth in the forward-looking statements. See “OTHER RELEVANT INFORMATION – Forward-Looking Statements” in this document.

IN CONNECTION WITH THE OFFERING OF THE OBLIGATIONS, THE UNDERWRITERS MAY OVER-ALLOT OR EFFECT TRANSACTIONS THAT STABILIZE OR MAINTAIN THE MARKET PRICE OF THE OBLIGATIONS AT A LEVEL ABOVE THAT WHICH MIGHT OTHERWISE PREVAIL IN THE OPEN MARKET. SUCH STABILIZING, IF COMMENCED, MAY BE DISCONTINUED AT ANY TIME.

NEITHER THE UNITED STATES SECURITIES AND EXCHANGE COMMISSION NOR ANY STATE SECURITIES COMMISSION HAS APPROVED OR DISAPPROVED OF THE OBLIGATIONS OR PASSED UPON THE ADEQUACY OR ACCURACY OF THIS DOCUMENT. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

SELECTED DATA FROM THE OFFICIAL STATEMENT

The selected data on this page is subject in all respects to the more complete information and definitions contained or incorporated in this document. The offering of the Obligations to potential investors is made only by means of this entire Official Statement. No person is authorized to detach this summary from this Official Statement or to otherwise use it without the entire Official Statement.

The Issuer	<p>The City of Austin, Texas (the “City”), is a political subdivision located in Travis, Williamson and Hays Counties, operating as a home–rule city under the laws of the State of Texas and a charter approved by the voters in 1953, as amended. The City operates under the Council/Manager form of government in which the mayor (elected at-large) and ten councilmembers (elected from ten single-member districts) are elected for staggered four-year terms. The City Council formulates operating policy for the City and the City Manager is the chief administrative officer.</p> <p>For further information about the City, see “APPENDIX A – GENERAL INFORMATION REGARDING THE CITY” in this document.</p>
The Bonds	<p>The Bonds are issued in the principal amount of \$146,915,000* pursuant to the general laws of the State of Texas, particularly Chapter 1207, Texas Government Code, Chapter 1331, Texas Government Code, Chapter 1371, Texas Government Code (“Chapter 1371”), elections held within the City (see “DEBT INFORMATION – Authorized General Obligation Bonds” in this document), and an ordinance passed by the City Council of the City (see “OBLIGATION INFORMATION – Authority and Purpose for Issuance” in this document).</p>
The Certificates	<p>The Certificates are issued in the principal amount of \$5,120,000* pursuant to the general laws of the State of Texas, particularly Subchapter C, Chapter 271, Texas Local Government Code, Chapter 1371, and an ordinance passed by the City Council of the City (see “OBLIGATION INFORMATION – Authority and Purpose for Issuance” in this document).</p>
The Contractual Obligations	<p>The Contractual Obligations are issued in the principal amount of \$25,865,000* pursuant to the general laws of the State of Texas, particularly Subchapter A, Chapter 271, Texas Local Government Code (the “Public Property Finance Act”), Chapter 1371, and an ordinance passed by the City Council of the City (see “OBLIGATION INFORMATION – Authority and Purpose for Issuance” in this document).</p>
The Taxable Bonds	<p>The Taxable Bonds are issued in the principal amount of \$40,550,000* pursuant to the general laws of the State of Texas, particularly Chapter 1331, Texas Government Code, Chapter 1371, elections held within the City (see “DEBT INFORMATION – Authorized General Obligation Bonds” in this document) and an ordinance passed by the City Council of the City evidencing the final terms of sale of the Taxable Bonds (see “OBLIGATION INFORMATION – Authority and Purpose for Issuance” in this document).</p>
The Taxable Certificates	<p>The Taxable Certificates are issued in the principal amount of \$14,900,000* pursuant to the general laws of the State of Texas, particularly Subchapter C, Chapter 271, Texas Local Government Code, Chapter 1371, and an ordinance passed by the City Council of the City (see “OBLIGATION INFORMATION – Authority and Purpose for Issuance” in this document).</p>
Paying Agent/Registrar	<p>The initial Paying Agent/Registrar for each series of the Obligations is U.S. Bank National Association, Dallas, Texas.</p>
Security	<p>Each series of the Obligations constitutes a direct obligation of the City, payable from a continuing, direct annual ad valorem tax levied, within the limits prescribed by law, on all taxable property located within the City in an amount sufficient to provide for payment of principal of and interest on all ad valorem tax debt. The Certificates and the Taxable Certificates are additionally secured by and payable from a limited pledge of the surplus revenues (not to exceed \$1,000) of the City’s solid waste disposal system (see “OBLIGATION INFORMATION – Security” in this document).</p>

*Preliminary, subject to change.

**Redemption of.....
Obligations**

The City reserves the right, at its option, to redeem the Bonds, the Certificates, the Taxable Bonds and the Taxable Certificates having stated maturities on and after September 1, 20__, in whole or in part in principal amounts of \$5,000 or any integral multiple thereof, on September 1, 20__, or any date thereafter, at the par value thereof, without premium, plus accrued interest to the date fixed for redemption (see “OBLIGATION INFORMATION – Optional Redemption of the Bonds, the Certificates, the Taxable Bonds and the Taxable Certificates” in this document). The Bonds, the Certificates, the Taxable Bonds and the Taxable Certificates will also be subject to mandatory sinking fund redemption as described in “OBLIGATION INFORMATION – Mandatory Sinking Fund Redemption of the Bonds, the Certificates, the Taxable Bonds and the Taxable Certificates.”

The Contractual Obligations are not subject to redemption prior to their stated maturities (see “OBLIGATION INFORMATION – No Redemption of the Contractual Obligations Prior to Maturity” in this document).

**Tax Matters – The Tax-Exempt
Obligations**

In the opinion of Bond Counsel, interest on the Bonds, the Certificates, and the Contractual Obligations will be excludable from gross income for federal income tax purposes under existing law, subject to the matters described under the caption “TAX MATTERS” in this document.

**Tax Matters – The Taxable
Obligations**

Interest on the Taxable Bonds and the Taxable Certificates shall be included in the gross income of the holders of the Taxable Obligations.

Payment Record

The City has not defaulted in payment since 1900 when all bonds were refunded at par with a voluntary reduction in interest rates.

*Preliminary, subject to change.

\$14,900,000*

Certificates of Obligation, Taxable Series 2019

INTRODUCTION

This Official Statement, which includes the cover page, the summary statement and the appendices to this document, provides certain information regarding the issuance by the City of Austin, Texas (the “City”) of its \$146,915,000* Public Improvement and Refunding Bonds, Series 2019 (the “Bonds”), its \$5,120,000 Certificates of Obligation, Series 2019 (the “Certificates”), its \$25,865,000 Public Property Finance Contractual Obligations, Series 2019 (the “Contractual Obligations”), its \$40,550,000* Public Improvement Bonds, Taxable Series 2019 (the “Taxable Bonds”) and its \$14,900,000* Certificates of Obligation, Taxable Series 2019 (the “Taxable Certificates”). The Bonds, the Certificates, and the Contractual Obligations are collectively referred to in this document as the “Tax-Exempt Obligations”. The Taxable Bonds and the Taxable Certificates are collectively referred to in this document as the “Taxable Obligations”. The Tax-Exempt Obligations and the Taxable Obligations are collectively referred to in this document as the “Obligations”. The Bonds, the Certificates, the Contractual Obligations, the Taxable Bonds and the Taxable Certificates will be offered separately by the City, and delivery of any one issue is not contingent upon the delivery of any other issue. Capitalized terms used in this Official Statement have the same meanings assigned to such terms in the ordinance authorizing the issuance of the Bonds (the “Bond Ordinance”), the ordinance authorizing the issuance of the Certificates (the “Certificate Ordinance”), the ordinance authorizing the issuance of the Contractual Obligations (the “Contractual Obligation Ordinance”), the ordinance authorizing the issuance of the Taxable Bonds (the “Taxable Bond Ordinance”), and the ordinance authorizing the issuance of the Taxable Certificates (the “Taxable Certificate Ordinance”), except as otherwise indicated. The Bond Ordinance, the Certificate Ordinance, the Contractual Obligation Ordinance, the Taxable Bond Ordinance and the Taxable Certificate Ordinance are collectively referred to in this document as the “Ordinances”.

References to website addresses presented in this document are for informational purposes only and may be in the form of a hyperlink solely for the reader’s convenience. Unless otherwise specified, references to websites and the information or links contained therein are not incorporated into, and are not part of, this document.

There follows in this Official Statement descriptions of the Obligations and certain information regarding the City and its finances. All descriptions of documents contained in this Official Statement are only summaries and are qualified in their entirety by reference to each such document.

*Preliminary, subject to change.

OBLIGATION INFORMATION

Authority and Purpose for Issuance

The capital improvements to be financed with the proceeds of the Bonds and the Taxable Bonds were authorized at elections held on various dates, and passed by a majority of the participating voters in the City (the “Elections”); see “DEBT INFORMATION- Authorized General Obligation Bonds” in this document. The City is authorized to issue the Bonds pursuant to Chapter 1331, Texas Government Code, Chapter 1371, Texas Government Code (“Chapter 1371”), the Elections, the Bond Ordinance, and the Taxable Bond Ordinance. The Bonds are also issued pursuant to Chapter 1207, Texas Government Code (“Chapter 1207”). Proceeds from the sale of the Bonds and the Taxable Bonds will be used to finance various capital improvements and to pay costs of issuing the Bonds and the Taxable Bonds. Proceeds from the sale of the Bonds will also be used to refund for savings portions of the City’s outstanding general obligation debt as shown in APPENDIX D of this document (the “Refunded Obligations”) and pay costs of refunding the Refunded Obligations. See “DEBT INFORMATION – Authorized General Obligation Bonds” in this document.

The Certificates and the Taxable Certificates are being issued pursuant to the general laws of the State of Texas, particularly Subchapter C of Chapter 271, Texas Local Government Code (the “Certificate of Obligation Act”), Chapter 1371, the Certificate Ordinance, and the Taxable Certificate Ordinance. Proceeds from the sale of the Certificates and the Taxable Certificates will be used to finance various capital improvements and to pay costs of issuing the Certificates and the Taxable Certificates.

The Contractual Obligations are being issued pursuant to the general laws of the State of Texas, particularly Subchapter A of Chapter 271, Texas Local Government Code (the “Public Property Finance Act”), Chapter 1371, and the Contractual Obligation Ordinance. Proceeds from the sale of the Contractual Obligations will be used to purchase certain equipment and other personal property for use by various City departments and to pay costs of issuing the Contractual Obligations.

As permitted by Chapter 1371 and, with respect to the Bonds, Chapter 1207, in each ordinance the City has delegated to certain authorized officials of the City (each a “Pricing Officer”) the authority to establish final terms of sale of the Obligations of each series, to be contained in one or more purchase agreements executed and delivered by the City and the underwriters named in this document e.

Refunded Obligations

The Refunded Obligations, and interest due thereon, will be paid on the scheduled redemption date of the Refunded Obligations from funds to be deposited pursuant to an Escrow Agreement (the “Escrow Agreement”), between the City and U.S. Bank National Association, (the “Escrow Agent”). The Bond Ordinance provides that a portion of the proceeds of the sale of the Bonds, together with other lawfully available funds of the City, if any, will be deposited with the Escrow Agent in an amount necessary to accomplish the discharge and final payment of the Refunded Obligations. These amounts will be used to purchase direct obligations of the United States of America (the “Escrowed Securities”) to be held by the Escrow Agent in a special escrow account (the “Escrow Fund”). Escrowed Securities acquired and held by the Escrow Agent shall not mature after the scheduled date of redemption of the Refunded Obligations. Pursuant to the Escrow Agreement, the Escrow Fund is irrevocably pledged to the payment of the principal of and interest on the Refunded Obligations from amounts held in the Escrow Fund. Robert Thomas CPA, LLC, will verify at the time of delivery of the Bonds to the Underwriters the mathematical accuracy of the schedules that demonstrate that the Escrowed Securities will mature and pay interest in such amounts and at such times which, together with any uninvested funds, in the Escrow Fund, will be sufficient to pay, when due, the principal of and interest on the Refunded Obligations. The amounts held in the Escrow Fund will not be available to pay the debt service on the Bonds.

By deposit of cash and Escrowed Securities with the Escrow Agent pursuant to the Escrow Agreement, the City will have entered into a firm banking and financial arrangement for the discharge and final payment of the Refunded Obligations, in accordance with applicable law. As a result of such firm banking and financial arrangements, the Refunded Obligations will be outstanding only for the purpose of receiving payments from the principal of and interest on the Escrowed Securities and the cash held for such purpose by the Escrow Agent, and the Refunded Obligations will not be included in or considered to be an obligation of the City for the purpose of any limitation on the issuance of ad valorem tax debt obligations by the City.

Sources and Uses of Funds

The proceeds of the Obligations will be applied substantially as follows:

	<u>The Bonds</u>	<u>The Certificates</u>	<u>The Contractual Obligations</u>	<u>The Taxable Bonds</u>	<u>The Taxable Certificates</u>
Sources of Funds:					
Principal Amount					
Net Original Issue Premium					
City Contribution					
Total					
Uses of Funds:					
Deposit to Project Fund					
Deposit to Escrow Fund					
Costs of Issuance					
Underwriters' Discount					
Total					

General

Each series of Obligations is expected to be dated as of October __, 2019 (the "Dated Date") and shall bear interest on the unpaid principal amounts from such date, at the per annum rates shown on pages ii and iii of this document for each series of Obligations. Interest on the Obligations will be calculated on the basis of a 360-day year consisting of twelve 30-day months. Interest on the Bonds, the Certificates, the Taxable Bonds and the Taxable Certificates will be payable on March 1, 2020, and on each September 1 and March 1 thereafter until maturity or prior redemption. Interest on the Contractual Obligations will be payable on May 1, 2020, and on each November 1 and May 1 thereafter until maturity. Principal is payable, upon presentation, at the Designated Payment/Transfer Office of the Paying Agent/Registrar (see "OBLIGATION INFORMATION – Paying Agent/Registrar" in this document). Interest is payable by the Paying Agent/Registrar to the registered owner appearing on the registration books of the Paying Agent/Registrar at the close of business on the Record Date (defined below) and shall be paid by the Paying Agent/Registrar by check mailed by United States mail, first class postage prepaid, to the address of such person as it appears on the registration books of the Paying Agent/Registrar on or before each interest payment date or by such other method, acceptable to the Paying Agent/Registrar, requested by, and at the risk and expense of, the registered owner. The Obligations are issued only as fully registered obligations in denominations of \$5,000 or any integral multiple thereof within a maturity of a series.

Notwithstanding the foregoing, so long as records of ownership of the Obligations are maintained through the book-entry-only system described under "OBLIGATION INFORMATION – Book-Entry-Only System" in this document, all payments of principal of, redemption premium, if any, and interest on the Obligations will be made in accordance with the procedures described in "OBLIGATION INFORMATION – Book-Entry-Only System" in this document.

The record date for the interest payable on any interest payment date is the 15th day of the month next preceding each interest payment date, as specified in the Ordinances (the "Record Date"). In the event of a nonpayment of interest on a scheduled interest payment date, and for 30 days thereafter, a new record date for such interest payment (the "Special Record Date") will be established by the Paying Agent/Registrar, in accordance with the provisions of the Ordinances, if and when funds for the payment of interest have been received from the City. Notice of the Special Record Date and of the scheduled payment date of the past due interest, which shall be at least 15 days after the Special Record Date, shall be sent at least 5 business days prior to the Special Record Date by United States mail, first class postage prepaid, to the address of each registered owner of Obligations appearing on the registration books of the Paying Agent/Registrar at the close of business on the last business day next preceding the date of mailing of the notice.

Security

The Obligations constitute direct obligations of the City, payable from a continuing, direct annual ad valorem tax levied, within the limits prescribed by law, on all taxable property located within the City in an amount sufficient to pay the principal of and interest on all ad valorem tax debt. The Certificates and the Taxable Certificates are additionally secured by and payable from a limited pledge of the surplus revenue (not to exceed \$1,000) of the City's solid waste disposal system.

All taxable property within the City is subject to the assessment, levy and collection by the City of a continuing, direct annual ad valorem tax sufficient to provide for the payment of principal of and interest on all ad valorem tax debt within the limits prescribed by law. Article XI, Section 5, of the Texas Constitution limits the City's maximum ad valorem tax rate to \$2.50 per \$100 assessed valuation for all City purposes. The City operates under a Home Rule Charter, referred to

as the “Charter”, which also limits the City’s ad valorem tax rate to \$2.50 per \$100 assessed valuation for all City purposes. See “TAX INFORMATION – Tax Rate Limitation” in this document.

Remedies

Each Ordinance establishes specific events of default with respect to the related series of Obligations. If the City defaults in the payment of the principal of or interest on the Obligations when due, or the City defaults in the observance or performance of any of the covenants, conditions, or obligations of the City set forth in an Ordinance, the failure to perform, which materially, adversely affects the rights of the registered owners, including but not limited to, their prospect or ability to be repaid in accordance with such Ordinance, and such default continues for a period of 60 days after notice of such default is given by any registered owner to the City, each Ordinance provides that any registered owner of an Obligation affected thereby is entitled to seek a writ of mandamus from a court of proper jurisdiction requiring the City to make such payment or observe and perform such covenants, obligations, or conditions. The issuance of a writ of mandamus may be sought if there is no other available remedy at law to compel performance of the Obligations or each Ordinance and the City’s obligations are not uncertain or disputed. The remedy of mandamus is controlled by equitable principles, so rests with the discretion of the court, but may not be arbitrarily refused. There is no acceleration of maturity of the Obligations in the event of default and, consequently, the remedy of mandamus may have to be relied upon from year to year.

The Ordinances do not provide for the appointment of a trustee to represent the interests of the registered owners upon any failure of the City to perform in accordance with the terms of each Ordinance, or upon any other condition and accordingly all legal actions to enforce such remedies would have to be undertaken at the initiative of, and be financed by, the registered owners.

On June 30, 2006, the Texas Supreme Court ruled in *Tooke v. City of Mexia*, 197 S.W.3d 325 (Tex. 2006) that a waiver of sovereign immunity in a contractual dispute must be provided for by statute in “clear and unambiguous” language. Because it is unclear whether the State legislature has effectively waived the City’s sovereign immunity from a suit for money damages outside of Chapter 1371, holders of the Obligations may not be able to bring such a suit against the City for breach of the Obligations or covenants contained in the Ordinances. Even if a judgment against the City could be obtained, it could not be enforced by direct levy and execution against the City’s property.

On April 1, 2016, the Texas Supreme Court ruled in *Wasson Interests, Ltd. v. City of Jacksonville*, 489 S.W.3d 427 (Tex. 2016) (“Wasson I”), that governmental immunity does not imbue a city with derivative immunity when it performs a proprietary, as opposed to a governmental, function in respect to contracts executed by a city. On October 5, 2018, the Texas Supreme Court issued a second opinion to clarify *Wasson I*, *Wasson Interests, Ltd. v. City of Jacksonville*, 559 S.W.3d 142 (Tex. 2018) (“Wasson II”), and together with *Wasson I*, “Wasson”), ruling that to determine whether governmental immunity applies to a breach of contract claim, the proper inquiry is whether the municipality was engaged in a governmental or proprietary function at the time it entered into the contract, not at the time of the alleged breach. In *Wasson*, the Court recognized that the distinction between governmental and proprietary functions is not clear. Therefore, in regard to municipal contract cases (as opposed to tort claim cases), it is incumbent on the courts to determine whether a function was governmental or proprietary based upon the statutory guidance at the time of the contractual relationship. Texas jurisprudence has generally held that proprietary functions are those conducted by a city in its private capacity, for the benefit only of those within its corporate limits, and not as an arm of the government or under authority or for the benefit of the State; these are usually activities that can be, and often are, provided by private persons, and therefore are not done as a branch of the State, and do not implicate the State’s immunity since they are not performed under the authority, or for the benefit, of the State as sovereign. Issues related to the applicability of a governmental immunity as they relate to the issuance of municipal debt have not been adjudicated. Each situation will be evaluated based on the facts and circumstances surrounding the contract in question.

Chapter 1371, which pertains to the issuance of public securities by issuers such as the City, permits the City to waive sovereign immunity in the proceedings authorizing its debt, but the City has not waived sovereign immunity pursuant to Chapter 1371 in connection with the issuance of the Obligations.

As noted above, each Ordinance provides that registered owners may exercise the remedy of mandamus to enforce the obligations of the City under each Ordinance. Neither the remedy of mandamus nor any other type of injunctive relief was at issue in *Tooke*, and it is unclear whether *Tooke* will be construed to have any effect with respect to the exercise of mandamus, as such remedy has been interpreted by Texas courts. In general, Texas courts have held that a writ of mandamus may be issued to require public officials to perform ministerial acts that clearly pertain to their duties. Texas courts have held that a ministerial act is defined as a legal duty that is prescribed and defined with a precision and certainty

that leaves nothing to the exercise of discretion or judgment, though mandamus is not available to enforce purely contractual duties. However, mandamus may be used to require a public officer to perform legally imposed ministerial duties necessary for the performance of a valid contract to which the State or a political subdivision of the State is a party (including the payment of monies due under a contract).

The registered owners cannot themselves foreclose on property within the City or sell property within the City to enforce the tax lien on taxable property to pay the principal of and interest on the Obligations. Furthermore, the City is eligible to seek relief from its creditors under Chapter 9 of the U.S. Bankruptcy Code ("Chapter 9"). Although Chapter 9 provides for the recognition of a security interest represented by a specifically pledged source of revenues, the pledge of ad valorem taxes in support of a general obligation of a bankrupt entity is not specifically recognized as a security interest under Chapter 9. Chapter 9 also includes an automatic stay provision that would prohibit, without Bankruptcy Court approval, the prosecution of any other legal action by creditors or registered owners of an entity which has sought protection under Chapter 9. Therefore, should the City avail itself of Chapter 9 protection from creditors, the ability to enforce would be subject to the approval of the Bankruptcy Court (which could require that the action be heard in Bankruptcy Court instead of other federal or state courts); and the Bankruptcy Code provides for broad discretionary powers of a Bankruptcy Court in administering any proceeding brought before it. The opinions of Bond Counsel will note that all opinions relative to the enforceability of the Obligations are qualified with respect to the customary rights of debtors relative to their creditors.

Defeasance of Obligations

Each of the Ordinances provides for the defeasance of each of the respective Obligations when the payment of the principal of the Obligations of a series, plus interest to the due date (whether such due date be by reason of maturity, redemption, or otherwise), is provided by irrevocably depositing with a paying agency, in trust (1) money sufficient to make such payment or (2) Defeasance Securities, to mature as to principal and interest in such amounts and at such times to ensure the availability, without reinvestment, of sufficient money to make such payment, and all necessary and proper fees, compensation and expenses of the paying agent for the Obligations; and thereafter the City will have no further responsibility with respect to amounts available to the paying agent (or other financial institution permitted by applicable law) for the payment of such defeased Obligations, including any insufficiency caused by the failure of the paying agent (or other financial institution permitted by applicable law) to receive payment when due on the Defeasance Securities. Each of the Ordinances provides that "Defeasance Securities" means (a) direct, noncallable obligations of the United States of America, including obligations that are unconditionally guaranteed by the United States of America, and (b) noncallable obligations of an agency or instrumentality of the United States of America, including obligations that are unconditionally guaranteed or insured by the agency or instrumentality and that, on the date of approval of the proceedings authorizing the issuance of the refunding bonds, are rated as to investment quality by a nationally recognized investment rating firm not less than "AAA" or its equivalent.

Book-Entry-Only System

The City has elected to utilize the book-entry-only system of The Depository Trust Company, New York, New York ("DTC"), as described under this heading. The City is obligated to timely pay the Paying Agent/Registrar the amount due under the Ordinances. See "OBLIGATION INFORMATION - Paying Agent/Registrar" in this document. The responsibilities of DTC, the Direct Participants and the Indirect Participants to the Beneficial Owner of the Obligations are described in this document.

The information in this section concerning DTC and the Book-Entry-Only System has been provided by DTC for use in disclosure documents such as this Official Statement. The City believes this information to be reliable, but takes no responsibility for the accuracy or completeness thereof.

The City cannot and does not give any assurance that (1) DTC will distribute payment of debt service on the Obligations, or redemption or other notices to DTC Participants, (2) DTC Participants or others will distribute debt service payments paid to DTC or its nominee (as the registered owner of the Obligations), or redemption or other notices, to the beneficial owners, or that they will do so on a timely basis, or (3) DTC will serve and act in the manner described in this document. The current rules applicable to DTC are on file with the United States Securities and Exchange Commission, and the current procedures of DTC to be followed in dealing with DTC Participants are on file with DTC.

DTC will act as securities depository for the Obligations. The Obligations will be issued as fully-registered Obligations registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered certificate will be issued for each maturity of the Obligations, each in the aggregate principal amount of such maturity, and will be deposited with DTC.

DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). Direct Participants and Indirect Participants are referred to in this document as "Participants". DTC has a S&P Global Ratings rating of AA+. The DTC Rules applicable to its Participants are on file with the United States Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

Purchases of Obligations under the DTC system must be made by or through Direct Participants, which will receive a credit for the Obligations on DTC's records. The ownership interest of each actual purchaser of each Obligation ("Beneficial Owner") is in turn to be recorded on the Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Obligations are to be accomplished by entries made on the books of Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Obligations, except in the event that use of the book-entry system for the Obligations is discontinued.

To facilitate subsequent transfers, all Obligations deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Obligations with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Obligations; DTC's records reflect only the identity of the Direct Participants to whose accounts such Obligations are credited, which may or may not be the Beneficial Owners. The Participants will remain responsible for keeping account of their holdings on behalf of their customers. Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Obligations may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Obligations, such as redemptions, tenders, defaults, and proposed amendments to the Obligation documents. For example, Beneficial Owners of Obligations may wish to ascertain that the nominee holding the Obligations for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of notices be provided directly to them.

Redemption notices shall be sent to DTC. If less than all of the Obligations within a maturity are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such maturity to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to Obligations unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the City as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts Obligations are credited on the record date (identified in a listing attached to the Omnibus Proxy).

All payments on the Obligations will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the City or the Paying Agent/Registrar, on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with Obligations held for the accounts of customers in bearer form or

registered in “street name,” and will be the responsibility of such Participant and not of DTC, the Paying Agent/Registrar, or the City, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, distributions, and dividend payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the City or the Paying Agent/Registrar, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Participants.

DTC may discontinue providing its services as depository with respect to the Obligations at any time by giving reasonable notice to the City or the Paying Agent/Registrar. Under such circumstances, in the event that a successor depository is not obtained, Obligation certificates are required to be printed and delivered.

The City may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, certificates for each series of the Obligations will be printed and delivered to DTC.

Paying Agent/Registrar

The initial Paying Agent/Registrar for each series of the Obligations is U.S. Bank National Association, Dallas, Texas. Interest on, and principal of, the Obligations will be payable, and transfer functions will be performed at, the corporate trust office designated to the City by the Paying Agent/Registrar (the “Designated Payment/Transfer Office”). In the Ordinances, the City retains the right to replace the Paying Agent/Registrar. The City covenants to maintain and provide a Paying Agent/Registrar at all times while the Obligations are outstanding. Any successor Paying Agent/Registrar shall be a commercial bank, trust company or other entity duly qualified and legally authorized to serve as and perform the duties and services of Paying Agent/Registrar. Upon any change in the Paying Agent/Registrar for any series of the Obligations, the City agrees to promptly cause a written notice to be sent to each registered owner of Obligations of such series by United States mail, first class postage prepaid. This notice shall also give the address of the new Paying Agent/Registrar. The initial Designated Payment/Transfer Office of the Paying Agent/Registrar is its Dallas, Texas office.

Transfer, Exchange and Registration

In the event the book-entry-only system should be discontinued, the Obligations may be transferred and exchanged on the registration books of the Paying Agent/Registrar only upon presentation and surrender thereof to the Paying Agent/Registrar at the Designated Payment/Transfer Office and such transfer or exchange shall be without expense or service charge to the registered owner, except for any tax or other governmental charges required to be paid with respect to such registration, exchange and transfer. An Obligation may be assigned by the execution of an assignment form thereon or by other instrument of transfer and assignment acceptable to the Paying Agent/Registrar. A new Obligation will be delivered by the Paying Agent/Registrar, in lieu of the Obligations being transferred or exchanged, at the Designated Payment/Transfer Office, or sent by United States mail, first class postage prepaid, to the new registered owner or his designee. New Obligations registered and delivered in an exchange or transfer shall be in any integral multiple of \$5,000 for any one maturity and for a like aggregate principal amount and series as the Obligations surrendered for exchange or transfer. See “OBLIGATION INFORMATION - Book-Entry-Only System” in this document for a description of the system to be utilized initially in regard to ownership and transferability of the Obligations.

Limitation on Transfer of Obligations Called for Redemption

Neither the City nor the Paying Agent/Registrar shall be required to transfer or exchange any Obligation called for redemption, in whole or in part, within 45 days of the date fixed for redemption; provided, however, such limitation of transfer shall not be applicable to an exchange by the registered owner of the uncalled principal of an Obligation. The Contractual Obligations are not subject to redemption prior to their schedule maturities.

Optional Redemption of the Bonds, the Certificates, the Taxable Bonds and the Taxable Certificates

The City reserves the right, at its option, to redeem the Bonds, the Certificates, the Taxable Bonds and the Taxable Certificates having stated maturities on and after September 1, 20__, in whole or in part in principal amounts of \$5,000 or any integral multiple thereof, on September 1, 20__, or any date thereafter, at the price of par, without premium, plus accrued interest to the date fixed for redemption. If less than all of the respective series of Obligations are to be redeemed, the City shall determine the respective maturities and amounts to be redeemed and, if less than all of a maturity is to be

redeemed, the Paying Agent/Registrar (or DTC while such Obligations are in book-entry-only form) shall determine by lot or other customary random selection method the Obligations, or portions thereof, within such maturity to be redeemed.

Mandatory Sinking Fund Redemption of the Bonds

The Bonds maturing on September 1, 20__ (the “Term Bonds”), are subject to mandatory redemption in part prior to maturity at the redemption price of par plus accrued interest to the date of redemption on September 1 in each of the years and in principal amounts as follows:

Term Bonds due September 1, 20__	
<u>Year</u>	<u>Principal Amount</u>

*Stated maturity.

Mandatory Sinking Fund Redemption of the Certificates

The Certificates maturing on September 1, 20__ (the “Term Certificates”), are subject to mandatory redemption in part prior to maturity at the redemption price of par plus accrued interest to the date of redemption on September 1 in each of the years and in principal amounts as follows:

Term Certificates due September 1, 20__	
<u>Year</u>	<u>Principal Amount</u>

*Stated maturity.

Mandatory Sinking Fund Redemption of the Taxable Bonds

The Bonds maturing on September 1, 20__ (the “Taxable Term Bonds”), are subject to mandatory redemption in part prior to maturity at the redemption price of par plus accrued interest to the date of redemption on September 1 in each of the years and in principal amounts as follows:

Taxable Term Bonds due September 1, 20__	
<u>Year</u>	<u>Principal Amount</u>

*Stated maturity.

Mandatory Sinking Fund Redemption of the Taxable Certificates

The Taxable Certificates maturing on September 1, 20__ (the “Taxable Term Certificates”), are subject to mandatory redemption in part prior to maturity at the redemption price of par plus accrued interest to the date of redemption on September 1 in each of the years and in principal amounts as follows:

Taxable Term Certificates due	
-------------------------------	--

September 1, 20__	
<u>Year</u>	<u>Principal Amount</u>

*Stated maturity.

The principal amount of Term Bonds, Term Certificates, Taxable Term Bonds or Taxable Term Certificates (the “Term Obligations”), as the case may be, of a stated maturity required to be redeemed on any mandatory redemption date pursuant to the operation of the mandatory sinking fund redemption provisions shall be reduced, at the option of the City, by the principal amount of any Term Obligation of the same maturity which, at least 45 days prior to a mandatory redemption date (1) shall have been acquired by the City at a price not exceeding the principal amount of such Term Obligation plus accrued interest to the date of purchase thereof, and delivered to the Paying Agent/Registrar for cancellation, (2) shall have been purchased and canceled by the Paying Agent/Registrar at the request of City not exceeding the principal amount of such Term Obligations plus accrued interest to the date of purchase, or (3) shall have been redeemed pursuant to the optional redemption provisions and not theretofore credited against a mandatory redemption requirement.

No Redemption of the Contractual Obligations Prior to Maturity

The Contractual Obligations are **not** subject to redemption prior to their scheduled maturities.

Notice of Redemption

At least 30 days prior to a redemption date, the City shall cause a written notice of such redemption to be sent by United States mail, first class postage prepaid, to the registered owners of each Bond, Certificate, Taxable Bond or Taxable Certificate to be redeemed at the address shown on the registration books maintained by the Paying Agent/Registrar and subject to the terms, conditions and provisions relating thereto contained in the respective Ordinances governing their issuance. Such notice shall state that the redemption is conditioned upon receipt of sufficient funds for the payment of the redemption price for the applicable Obligation which are to be redeemed. If a Bond, Certificate, Taxable Bond or Taxable Certificate (or a portion of its principal sum) shall have been duly called for redemption and notice of such redemption duly given, then upon such redemption date such Bond, Certificate, Taxable Bond or Taxable Certificate (or the portion of its principal sum to be redeemed) shall become due and payable, and interest on the Bond, Certificate, Taxable Bond or Taxable Certificate shall cease to accrue from and after the redemption date; provided moneys for the payment of the redemption price and the interest on the principal amount to be redeemed to the date of redemption are held for the purpose of such payment by the Paying Agent/Registrar.

Redemption of Bonds, Certificates, Taxable Bonds or Taxable Certificates may be made conditional upon the occurrence of certain events. If a notice of redemption is given and sufficient funds are not received for the payment of the required redemption price for the Bonds, Certificates, Taxable Bonds or Taxable Certificates which are to be redeemed, the notice shall be of no force and effect, the City shall not redeem the Bonds, Certificates, Taxable Bonds or Taxable Certificates, and the Paying Agent/Registrar shall give notice, in the manner in which the notice of redemption was given, that the Bonds, Certificates, Taxable Bonds or Taxable Certificates, as applicable, shall not be redeemed.

TAX INFORMATION

Ad Valorem Tax Law

The appraisal of property within the City is the responsibility of the Travis Central Appraisal District, Williamson Central Appraisal District and Hays Central Appraisal District (collectively, the “Appraisal Districts”). Excluding agricultural and

open-space land, which may be taxed on the basis of productive capacity, the Appraisal Districts are required under Title 1, Texas Tax Code (commonly known as the "Property Tax Code") to appraise all property within the Appraisal Districts on the basis of 100% of the property's market value and are prohibited from applying any assessment ratios. State law further limits the appraised value of a residence homestead for a tax year (the "Homestead 10% Increase Cap") to an amount not to exceed the lesser of (1) the property's market value in the most recent tax year in which the market value was determined by an Appraisal District or (2) the sum of (a) 10% of the property's appraised value in the preceding tax year, plus (b) the property's appraised value the preceding tax year, plus (c) the market value of all new improvements to the property. State law requires the appraised value of a residence homestead to be based solely on the property's value as a residence homestead, regardless of whether residential use is considered to be the highest and best use of the property. The value placed upon property within the Appraisal Districts is subject to review by an Appraisal Review Board, consisting of three members appointed by the board of directors of each Appraisal District. The Appraisal Districts are required to review the value of property within the Appraisal Districts at least every three (3) years.

Reference is made to the Property Tax Code for identification of property subject to taxation; property exempt or which may be exempted from taxation, if claimed; the appraisal of property for ad valorem taxation purposes; and the procedures and limitations applicable to the levy and collection of ad valorem taxes.

Article VIII of the Constitution of the State of Texas ("Article VIII") and State law provide for certain exemptions from property taxes, the valuation of agricultural and open-space lands at productivity value, and the exemption of certain personal property from ad valorem taxation.

Under Section 1-b, Article VIII, and State law, the governing body of a political subdivision, at its option, may grant:

- (1) An exemption of not less than \$3,000 of the market value of the residence homestead of persons 65 years of age or older and the disabled from all ad valorem taxes thereafter levied by the political subdivision;
- (2) An exemption of up to 20% of the market value of residence homesteads; minimum exemption \$5,000.

The surviving spouse of an individual who qualifies for the exemption described under (2) above for the residence homestead of a person 65 years of age or older (but not the disabled) is entitled to an exemption for the same property in an amount equal to that of the exemption for which the deceased spouse qualified if (i) the deceased spouse died in a year in which the deceased spouse qualified for the exemption, (ii) the surviving spouse was at least 55 years of age at the time of the death of the individual's spouse and (iii) the property was the residence homestead of the surviving spouse when the deceased spouse died and remains the residence homestead of the surviving spouse.

Once authorized, the exemption described under (1) above may be repealed, or decreased or increased in amount, (i) by the governing body of the political subdivision or (ii) by a favorable vote of a majority of the qualified voters at an election called by the governing body of the political subdivision, which election must be called upon receipt of a petition signed by at least 20% of the number of qualified voters who voted in the preceding election of the political subdivision. In the case of a decrease, the amount of the exemption may not be reduced to less than \$3,000 of the market value.

Section 1-b, Article VIII, and State law also authorize a county, city, town or junior college district to establish an ad valorem tax freeze on residence homesteads of persons who are disabled or 65 years of age or older. If the City Council does not take action to establish the tax freeze, voters within the City may submit a petition signed by five percent (5%) of the registered voters of the City requiring the City Council to call an election to determine by majority vote whether to establish the tax limitation.

If this tax freeze is established, the total amount of ad valorem taxes imposed by the City on a homestead that receives the residence homestead exemption for persons who are disabled or 65 years of age or older may not be increased, except to the extent the value of the homestead is increased by improvements other than repairs. If a disabled or elderly person dies in a year in which the person received a residence homestead exemption, the total amount of ad valorem taxes imposed on the homestead by the taxing unit may not be increased while it remains the residence homestead of that person's surviving spouse if the spouse is 55 years of age or older at the time of the person's death. In addition, the tax limitation applicable to a person's homestead may be transferred to the new homestead of such person if the person moves to a different residence within the taxing unit. Once established, the governing body of the taxing unit may not repeal or rescind the tax limitation.

State law and Article VIII, section 2 of the Texas Constitution, mandate an additional property tax exemption for disabled veterans or the surviving spouse or children of a deceased veteran who died while on active duty in the armed forces; the

exemption applies to either real or personal property with the amount of assessed valuation exempted ranging from \$5,000 to a maximum of \$12,000 depending upon the degree of disability or whether the exemption is applicable to a surviving spouse or children. Notwithstanding the foregoing, a disabled veteran who receives from the United States Department of Veterans Affairs or its successor 100% disability compensation due to a service-connected disability and a rating of 100% disabled or of individual unemployability is entitled to an exemption from taxation of the total appraised value of the veteran's residence homestead. Effective January 1, 2018, a disabled veteran who has a disability rating of less than 100% is entitled to an exemption equal to the percentage of the veteran's disability rating for a residence homestead that was donated by a charitable organization to such veteran (i) at no cost to such veteran or (ii) at some cost to such veteran in the form of a cash payment, a mortgage, or both in an aggregate amount that is not more than 50 percent of the good faith estimate of the market value of the residence homestead made by the charitable organization as of the date the donation is made.

Following approval by the voters at a November 5, 2013 statewide election, the surviving spouse of a member of the armed forces who is killed in action is entitled to a property tax exemption for all or part of the market value of such surviving spouse's residence homestead, if the surviving spouse has not remarried since the service member's death and said property was the service member's residence homestead at the time of death. Such exemption is transferable to a different residence homestead of the surviving spouse, if the surviving spouse has not remarried, in an amount equal to the exemption received on the prior residence in the last year in which such exemption was received. Effective January 1, 2018, the surviving spouse of a first responder who is killed or fatally injured in the line of duty is entitled to an exemption of the total appraised value of the surviving spouse's residence homestead if the surviving spouse has not remarried since the first responder's death, and said property was the first responder's residence homestead at the time of death. Such exemption would be transferred to a subsequent residence homestead of the surviving spouse, if the surviving spouse has not remarried, in an amount equal to the exemption received on the prior residence in the last year in which such exemption was received. In addition to any other exemptions provided by the Property Tax Code, the governing body of a political subdivision, at its option, may grant an exemption of up to 20% of the market value of residence homesteads, with a minimum exemption of \$5,000.

Article VIII provides that eligible owners of both agricultural land (Section 1-d) and open-space land (Section 1-d-1), including open-space land devoted to farm or ranch purposes or open-space land devoted to timber production, may elect to have such property appraised for property taxation on the basis of its productive capacity. The same land may not be qualified under both Section 1-d and 1-d-1.

Section 1-j, Article VIII, provides for "freeport property" to be exempted from ad valorem taxation. Freeport property is defined as goods detained in Texas for 175 days or less for the purpose of assembly, storage, manufacturing, processing or fabrication.

Section 1-n, Article VIII, provides for an exemption from taxation for "goods-in-transit." "Goods-in-transit" are defined as (i) personal property acquired or imported into Texas and transported to another location in the State, (ii) stored under a contract for bailment in public warehouses not in any way owned or controlled by the owner of the stored goods, and (iii) transported to another location in the State or outside of the State within 175 days of the date the property was acquired or imported into Texas. The exemption excludes oil, natural gas, petroleum products, aircraft and special inventory, including motor vehicle, vessel and out-board motor, heavy equipment and manufactured housing inventory. Pursuant to changes enacted during the 2011 Texas Legislative Special Session, all taxing units, including those that have previously taken official action to tax goods-in-transit, may not tax goods-in-transit in the 2012 tax year or thereafter, unless the governing body of the taxing unit holds a public hearing and takes action on or after October 1, 2011, to provide for the taxation of the goods-in-transit. After holding the public hearing, a taxing unit may take official action prior to January 1 of the first tax year in which the governing body proposes to tax goods-in-transit. After taking official action, the goods-in-transit remain subject to taxation by the taxing unit until the governing body rescinds or repeals its previous action to tax goods-in-transit. If, however, a taxing unit took official action prior to October 1, 2011 to tax goods-in-transit and pledged the taxes imposed on the goods-in-transit for the payment of a debt of the taxing unit, the tax officials of the taxing unit may continue to impose the taxes on the goods-in-transit until the debt is discharged, if cessation of the imposition of the tax would impair the obligation of the contract by which the debt was created. Freeport property is exempt from taxation by the City, and, on October 20, 2011, the City took action to tax goods-in-transit.

Personal property not used in the business of a taxpayer, such as automobiles or light trucks, has a limited exemption from ad valorem taxation unless the governing body of a political subdivision elects to tax this property.

The City grants various exemptions to the appraised value of the residence homesteads within the City, as described in footnote 2 to “TABLE ONE – Tax Valuation” in this document.

The City may create one or more tax increment financing districts (“TIF”) within the City and freeze the taxable values of real property in the TIF at the value at the time of its creation. Other overlapping taxing units levying taxes in the TIF may agree to contribute all or part of future ad valorem taxes levied and collected against the value of property in the TIF in excess of the “frozen values” to pay or finance the costs of certain public improvements in the TIF. Taxes levied by the City against the values of real property in the TIF in excess of the “frozen” value are not available for general city use but are restricted to paying or financing “project costs” within the TIF. The City may also enter into tax abatement agreements to encourage economic development. Under the agreements, a property owner agrees to construct certain improvements on its property. The City in turn agrees not to levy a tax on all or part of the increased value attributable to the improvements until the expiration of the agreement. The abatement agreement may last for a period of up to ten (10) years. The City has adopted policies for granting tax abatements, which establish guidelines regarding the number of jobs to be created and the amount of new property value to be added by the taxpayer in return for the abatement. The City has entered into several such abatement agreements in recent years.

Cities are also authorized, pursuant to Chapter 380 of the Texas Local Government Code (“Chapter 380”), to establish programs to promote state or local economic development and to stimulate business and commercial activity in the City. In accordance with a program established pursuant to Chapter 380, the City may make loans or grant public funds for economic development purposes; however, no obligations secured by ad valorem taxes may be issued for such purposes unless approved by the voters of the City. The City has entered into several such Chapter 380 agreements in recent years.

Tax Rate Limitation

All taxable property within the City is subject to the assessment, levy and collection by the City of a continuing, direct annual ad valorem tax sufficient to provide for the payment of principal of and interest on all ad valorem tax debt within the limits prescribed by law. Article XI, Section 5, of the Texas Constitution, limits the City’s maximum ad valorem tax rate to \$2.50 per \$100 assessed valuation for all City purposes. The City operates under a Home Rule Charter, which also limits the City’s ad valorem tax rate to \$2.50 per \$100 assessed valuation for all City purposes.

Administratively, pursuant to Title 1, Section 53.5 of the Texas Administrative Code, the Texas Attorney General prohibits the issuance of debt by a municipality, such as the City, if its issuance produces debt service requirements exceeding that which can be paid from \$1.50 of such \$2.50 maximum tax rate, as calculated at the time of issuance at a 90% collection rate. The issuance of the Obligations will not exceed the above-described limits or violate the Texas Attorney General’s administrative rule.

Tax Procedures

The following terms as used in this section have the meanings provided below:

“adjusted” means lost values are not included in the calculation of the prior year’s taxes and new values are not included in the current year’s taxable values.

“de minimis rate” means the maintenance and operations tax rate that will produce the prior year’s total maintenance and operations tax levy (adjusted) from the current year’s values (adjusted), plus the rate that produces an additional \$500,000 in tax revenue when applied to the current year’s taxable value, plus the debt service tax rate.

“effective tax rate” means the combined maintenance and operations tax rate and debt service tax rate that will produce the prior year’s total tax levy (adjusted) from the current year’s total taxable values (adjusted).

“no-new-revenue tax rate” means the combined maintenance and operations tax rate and debt service tax rate that will produce the prior year’s total tax levy (adjusted) from the current year’s total taxable values (adjusted).

“rollback tax rate” means the maintenance and operations tax rate that will produce the prior year’s total maintenance and operations tax levy (adjusted) from the current year’s values (adjusted) multiplied by 1.08, plus the debt service tax rate.

“special taxing unit” means a city for which the maintenance and operations tax rate proposed for the current tax year is 2.5 cents or less per \$100 of taxable value.

“unused increment rate” means the cumulative difference between a city’s voter-approval tax rate and its actual tax rate for each of the tax years 2020 through 2022, which may be applied to a city’s tax rate in tax years 2021 through 2023 without impacting the voter-approval tax rate.

“voter-approval tax rate” means the maintenance and operations tax rate that will produce the prior year’s total maintenance and operations tax levy (adjusted) from the current year’s values (adjusted) multiplied by 1.035, plus the debt service tax rate, plus the “unused increment rate”.

The City’s tax rate consists of two components: (1) a rate for funding of maintenance and operations expenditures in the current year (the “maintenance and operations tax rate”), and (2) a rate for funding debt service in the current year (the “debt service tax rate”). Under State law, the assessor for the City must submit an appraisal roll showing the total appraised, assessed, and taxable values of all property in the City to the City Council by August 1 or as soon as practicable thereafter.

For the 2019 tax year, the procedures in this paragraph apply. After the assessor submits the appraisal roll, a designated officer or employee of the City is required to calculate its “rollback tax rate” and “effective tax rate”. A city must adopt a tax rate before the later of September 30 or the 60th day after receipt of the certified appraisal roll, and may not adopt a tax rate that exceeds the lower of its “rollback tax rate” or “effective tax rate” (as such terms are defined below) until it has held two public hearings on the proposed increase following notice to the taxpayers and otherwise complied with the Property Tax Code. The Property Tax Code provides that if the adopted tax rate exceeds the rollback tax rate, qualified voters of the city, by petition, may require that an election be held to determine whether or not to reduce the adopted tax rate to the rollback tax rate. If a city fails to timely adopt a tax rate, the tax rate is statutorily set as the lower of the no-effective tax rate for the current tax year or the tax rate adopted by the city for the preceding tax year.

Effective January 1, 2020, the terms rollback tax rate and effective tax rate will be replaced, respectively, with the terms “voter-approval tax rate” and “no-new-revenue tax rate”. Beginning with the 2020 tax year, the procedures in this paragraph and the following paragraphs apply. A city must annually calculate its “voter-approval tax rate” and “no-new-revenue tax rate” (as such terms are defined above) in accordance with forms prescribed by the State Comptroller and provide notice of such rates to each owner of taxable property within the city and the county tax assessor-collector for each county in which all or part of the city is located. A city must adopt a tax rate before the later of September 30 or the 60th day after receipt of the certified appraisal roll, except that a tax rate that exceeds the voter-approval tax rate must be adopted not later than the 71st day before the next occurring November uniform election date. If a city fails to timely adopt a tax rate, the tax rate is statutorily set as the lower of the no-new-revenue tax rate for the current tax year or the tax rate adopted by the city for the preceding tax year.

As described below, the Property Tax Code provides that if a city adopts a tax rate that exceeds its voter-approval tax rate or, in certain cases, its “de minimis rate”, an election must be held to determine whether or not to reduce the adopted tax rate to the voter-approval tax rate.

A city may not adopt a tax rate that exceeds the lower of the voter-approval tax rate or the no-new-revenue tax rate until each appraisal district in which such city participates has delivered notice to each taxpayer of the estimated total amount of property taxes owed and the city has held a public hearing on the proposed tax increase.

For cities with a population of 30,000 or more as of the most recent federal decennial census, if the adopted tax rate for any tax year exceeds the voter-approval tax rate, that city must conduct an election on the next occurring November uniform election date to determine whether or not to reduce the adopted tax rate to the voter-approval tax rate.

For cities with a population less than 30,000 as of the most recent federal decennial census, if the adopted tax rate for any tax year exceeds the greater of (i) the voter-approval tax rate or (ii) the de minimis rate, the city must conduct an election on the next occurring November uniform election date to determine whether or not to reduce the adopted tax rate to the voter-approval tax rate. However, for any tax year during which a city has a population of less than 30,000 as of the most recent federal decennial census and does not qualify as a special taxing unit, if a city’s adopted tax rate is equal to or less than the de minimis rate but greater than both (a) the no-new-revenue tax rate, multiplied by 1.08, plus the debt service tax rate or (b) the city’s voter-approval tax rate, then a valid petition signed by at least three percent of the registered voters in the city would require that an election be held to determine whether or not to reduce the adopted tax rate to the voter-approval tax rate.

Any city located at least partly within an area declared a disaster area by the Governor of the State or the President of the United States during the current year may calculate its “voter-approval tax rate” using a 1.08 multiplier, instead of 1.035,

until the earlier of (i) the second tax year in which such city's total taxable appraised value exceeds the taxable appraised value on January 1 of the year the disaster occurred, or (ii) the third tax year after the tax year in which the disaster occurred.

State law provides cities and counties in the State the option of assessing a maximum one-half percent (1/2%) sales and use tax on retail sales of taxable items for the purpose of reducing its ad valorem taxes, if approved by a majority of the voters in a local option election. If the additional sales and use tax for ad valorem tax reduction is approved and levied, the no-new-revenue tax rate and voter-approval tax rate must be reduced by the amount of the estimated sales tax revenues to be generated in the current tax year.

The calculations of the no-new-revenue tax rate and voter-approval tax rate do not limit or impact the City's ability to set a debt service tax rate in each year sufficient to pay debt service on all of the City's tax-supported debt obligations, including the Obligations.

Reference is made to the Property Tax Code for definitive requirements for the levy and collection of ad valorem taxes and the calculation of the various defined tax rates.

Tax Valuation – TABLE ONE

Ratio of Total Debt to Fiscal Year 2019 Net Taxable Assessed Valuation		1.06%
Ratio of Net Debt to Fiscal Year 2019 Net Taxable Assessed Valuation		0.87%

2019 Population (Estimate) – 985,504 (7)
Per Capita Net Taxable Assessed Valuation – 154,007
Per Capita Net Debt Outstanding – \$1,339

- (1) Excludes the Obligations.
- (2) Excludes the Refunded Obligations.
- (3) Preliminary, subject to change.
- (4) Represents bonds of the Northwest Austin MUD#1 annexed by the City.
- (5) Certain enterprises of the City, including Austin Airport, Austin Energy, Austin Resource Recovery, Austin Water, Building Services, City Hall, Code Compliance, Convention Center, Financial Services, Fleet Management, Golf, One Texas Center, Transportation, Waller Creek, and Watershed Protection currently repay a portion of the debt service on outstanding Public Improvement Bonds, Certificates of Obligation and/or Contractual Obligations from the revenue of the respective enterprises. The City intends to continue to pay these obligations from each respective enterprise; however, there is no guarantee that this practice will continue in future years. Fleet Management and One Texas Center are internal service funds that generate revenue through charges to user departments.
- (6) Represents the estimated value of cash and investments as of September 30, 2019.
- (7) Various general fund departments have issued debt supported by a transfer into the debt service fund from the issuing department. Each department currently budgets the required debt service, which reduces the debt service tax requirement.
- (8) Source: City of Austin Department of Planning and Development based on full purpose area as of November 2018.

Valuation and Funded Debt History – TABLE TWO

Fiscal Year Ended 9-30	Estimated City Population (1)	Taxable Assessed Valuation (1)	Per Capita Taxable Assessed Valuation	(000's) Net Funded Tax Debt (2)	Per Capita Net Funded Tax Debt	Ratio of Net Funded Tax Debt to Taxable Valuation	% of Total Tax Collections

(1) Estimated collections through _____, 2019 based on the July 2018 Certified Tax Roll tax levy.

Revenue Debt (As of August 31, 2019)

In addition to the above, the City had outstanding \$90,967,962 Combined Utility Systems Revenue Bonds payable from combined net revenue of the Electric System and the Water and Wastewater System; \$1,804,675,000 Electric Utility Obligations payable from a separate lien on the net revenues of the Electric Utility System; \$2,134,405,000 Water and Wastewater Obligations payable from a separate lien on the net revenue of the Water and Wastewater System, and \$82,260,000 Combined Utility Systems Commercial Paper payable from a subordinate lien on the combined net revenue of the Electric System and the Water and Wastewater System.

The City additionally has outstanding \$1,024,365,000 Airport System Revenue Bonds payable from net revenues of the City's Airport System; \$141,060,000 Rental Car Special Facility Revenue Bonds payable from revenues derived from rental car facilities currently operating at the airport; \$91,650,000 Hotel Occupancy Tax Subordinate Lien Revenue Bonds payable from the City's 2% and 4.5% Hotel Occupancy Tax; \$4,940,000 Hotel Occupancy Tax Revenue Bonds payable from the City's 4.5% Hotel Occupancy Tax; and \$25,025,000 Town Lake Park Community Events Center Venue Bonds payable from revenues received from the Special Motor Vehicle Rental Tax and Venue generated revenue.

Public Improvement District Debt (As of August 31, 2019)

The City previously authorized and issued special assessment revenue debt for public improvement districts ("PIDs") located within the City's boundaries: Estancia Hill Country PID (\$22.465 million of special assessment revenue bonds outstanding), Indian Hills PID (\$2.5 million of special assessment revenue bonds outstanding), and Whisper Valley PID (\$17.81 million of special assessment revenue bonds outstanding). The City may issue additional special assessment revenue debt for the purposes of additional development within the existing PIDs described above. Any additional special assessment revenue debt would be secured by and payable from only the special assessments levied on properties within the respective PID boundaries and would not represent an obligation of the City's revenue or taxes.

Obligations Subject to Annual Appropriation (As of August 31, 2019)

With respect to the redevelopment of the property formerly known as Robert Mueller Municipal Airport ("Mueller"), the City entered into a Master Development Agreement with Catellus Austin, LLC, effective as of December 2, 2004 (the "Development Agreement"), and in the Development Agreement, the City agreed to issue debt to finance certain "Public Finance Reimbursable Project Costs" either directly or through the auspices of a local government corporation created by the City. The City has entered into an economic development grant agreement (the "Grant Agreement") with Mueller Local Government Corporation ("MLGC"), a non-profit local government corporation created by the City to act on its behalf with respect to the redevelopment of Mueller. MLGC was created in response to the provisions of the Development Agreement. Under the terms of the Grant Agreement, the City will make grant payments to MLGC from the General Fund, subject to annual appropriation by the City, in amounts sufficient to pay debt service on bonds issued by MLGC to fund Public Finance Reimbursable Project Costs and pay administrative costs associated with such bonds. It is anticipated that sales tax revenues generated by properties developed at Mueller will be sufficient to fund the grants throughout the

term of the Grant Agreement. \$12,000,000 in Contract Revenue Bonds were issued in 2006 by MLGC to finance Public Finance Reimbursable Project Costs, and as of the date of this Official Statement, \$6,520,000 in principal amount of these Contract Revenue Bonds is outstanding.

The City has also created a tax increment reinvestment zone for the Mueller project to include Reinvestment Zone Number Sixteen (the “Zone”) and neighboring areas for the promotion, development, encouragement and maintenance of employment, commerce, economic development and public facility development in the Zone which consists of approximately 700 acres. Currently, only the City participates in the Zone by contributing its tax increment revenues to the Zone, and it is not expected that any other taxing unit will participate in the Zone. The tax increment revenues of the City will be contributed by the City to the MLGC pursuant to the terms of a Tri-Party Agreement among the City, the MLGC and the Zone (the “Tri-Party Agreement”). In addition, the City has agreed to consider making payments to the MLGC under a grant agreement between the City and the MLGC, pursuant to which the City may make available to the MLGC grant funds in amounts sufficient to pay debt service on the Tax Increment Contract Revenue Bonds, should Pledged Revenues be insufficient to allow the MLGC to meet its debt service payment obligations. The grant payments are to be funded from available moneys in the City’s general fund, subject to annual appropriation. The City is under no obligation to make grant payments. The MLGC has issued three series of Tax Increment Contract Revenue Bonds, aggregating \$47,580,000 in principal amount, backed by tax increment revenues generated from taxation of real property within the boundaries of the Zone from taxing units participating in the Zone, and as of the date of this Official Statement, \$38,475,000 in principal amount of these Tax Increment Contract Revenue Bonds is outstanding.

(a) Preliminary, subject to change. As of the date of this document.

(b) Includes principal and interest on self-supporting debt repaid from certain enterprise revenue of the City (see "Statement of Debt" in this document).

(c) Includes debt service for Northwest Austin MUD #1 and River Place MUD

Estimated Direct and Overlapping Funded Debt Payable from Ad Valorem Taxes (in 000's)

Expenditures of various taxing bodies with taxing jurisdictions that overlap all or a portion of the City's taxing boundaries are paid from ad valorem taxes levied by these taxing bodies on properties within the City. These political taxing bodies are independent of the City and may incur tax-supported debt obligations to finance their expenditures. Except for the amounts relating to the City, the City has not independently verified the accuracy or completeness of such information, and no person should rely upon such information as being accurate or complete. Furthermore, certain of the entities listed below may have issued additional tax-supported debt obligations since the date of this table, and such entities may have programs requiring the issuance of substantial amounts of additional bonds the amount of which cannot be determined. The following table reflects the estimated share of overlapping tax-supported debt obligations of the major taxing bodies in the area.

<u>Taxing Jurisdiction</u>	<u>Total Debt Funded from Ad Valorem Taxes (1)</u>	<u>Estimated % Applicable</u>	<u>Overlapping Funded Debt</u>

Per Capita Overlapping Funded Debt (4)			\$4,826

(1) Source: Overlapping debt amounts as of July 31, 2019 obtained from the Municipal Advisory Council of Texas.

(2) Outstanding tax-supported debt of the City shown as of September 30, 2019. Includes the Obligations (aggregate issuance of \$233,350,000 par amount) and excludes \$21,265,000 of Refunded Obligations.

(3) Based on the City's tax year 2018 (fiscal year 2019) net taxable assessed valuation of \$151,774,900,816.

(4) Based on the City's 2019 estimated population of 985,504.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimated the portion of the outstanding debt of those overlapping governments that is borne by the City's residents and businesses. This process recognized that, when considering the City's ability to issue and repay long-term debt, the entire debt borne by its residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

(1) Includes premium applied against voted authorization.

(2) Includes the Obligations.

The City may also incur non-voted debt payable from or secured by its collection of ad valorem taxes and other sources of revenue, including certificates of obligation, tax notes, public property finance contractual obligations and leases for various purposes. The Certificates, the Taxable Certificates and the Contractual Obligations being issued represent non-voted debt of the City.

Funded Debt Limitation

There is no direct debt limit on bonded indebtedness in the City Charter. State law authorizes the City to incur total bond indebtedness through the issuance of bonds payable from taxes in an amount not to exceed 10% of the total assessed valuation of property in the City. Revenue bonds, tax and revenue anticipation notes, and other obligations and contracts are not included in the bonded debt total to which the statutory limitation of 10% applies. See "TAX INFORMATION - Tax Rate Limitation" and "TAX INFORMATION - Statement of Debt."

Short-Term Borrowing

Pursuant to Section 1431, Texas Government Code, the City has the authority to conduct short-term borrowings to provide for the payment of current expenses through the issuance of anticipation notes. Anticipation notes issued for this purpose must mature before the first anniversary of the date the Attorney General approves the anticipation notes.

*Preliminary, subject to change.

FISCAL MANAGEMENT

The City engages in a formal, structured process for preparing both the annual operating budget of the City and a five-year capital improvements budget for the City. For additional information relating to the financial planning and budget policies and controls of the City, see “APPENDIX A – GENERAL INFORMATION REGARDING THE CITY – Financial Information” in this document.

INVESTMENTS

The City invests its available funds in investments authorized by State law, particularly the Texas Public Funds Investment Act, Chapter 2256, Texas Government Code (the “PFIA”), in accordance with investment policies approved by the City Council. Both State law and the City’s investment policies are subject to change.

Legal Investments

Under State law, the City is authorized to invest in:

- (1) obligations of the United States or its agencies and instrumentalities, including letters of credit;
- (2) direct obligations of the State of Texas or its agencies and instrumentalities;
- (3) collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by an agency or instrumentality of the United States;
- (4) other obligations, the principal and interest of which are guaranteed or insured by or backed by the full faith and credit of, the State of Texas or the United States or their respective agencies and instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation (“FDIC”) or by explicit full faith and credit of the United States;
- (5) obligations of states, agencies, counties, cities, and other political subdivisions of any state rated as to investment quality by a nationally recognized investment rating firm not less than “A” or its equivalent;
- (6) bonds issued, assumed or guaranteed by the State of Israel;
- (7) interest-bearing banking deposits that are guaranteed insured by the FDIC or the National Credit Union Share Insurance Fund (“NCUSIF”) or their respective successors;
- (8) interest-bearing banking deposits other than those described by subdivision (7) if the funds invested in the banking deposits are invested through (a) a broker with a main office or branch office in this state that the investing entity selects from a list the governing body or designated investment committee of the entity adopts as required by Section 2256.025; or (b) a depository institution with a main office or branch office in this state that the investing entity selects; (ii) the broker or depository institution selected as described above arranges for the deposit of the funds in the banking deposits in one or more federally insured depository institutions, regardless of where located, for the investing entity's account; (iii) the full amount of the principal and accrued interest of the banking deposits is insured by the United States or an instrumentality of the United States; and (iv) the investing entity appoints as the entity's custodian of the banking deposits issued for the entity's account (a) the depository institution selected as described above; (b) an entity described by Section 2257.041(d); or (c) a clearing broker dealer registered with the Securities and Exchange Commission and operating under Securities and Exchange Commission Rule 15c3-3 (17 C.F.R. Section 240.15c3-3);
- (9) certificates of deposit meeting the requirements of the PFIA that are issued by an institution that has its main office or a branch office in the State of Texas and are guaranteed or insured by a combination of cash and the FDIC or the NCUSIF, or are secured as to principal by obligations described in clauses (1) through (8) or in any other manner and amount provided by law for City deposits;
- (10) fully collateralized repurchase agreements that have a defined termination date, are fully secured by a combination of cash and obligations described in clause (1) which are pledged to the City, held in the City’s name, and deposited at the time the investment is made with the City or with a third party selected and approved by the City and are placed through a primary government securities dealer, as defined by the Federal Reserve, or a financial institution doing business in the State of Texas;
- (11) certain bankers’ acceptances with the remaining term of 270 days or less, if the short-term obligations of the accepting bank or its parent are rated not less than “A-1” or “P-1” or the equivalent by at least one nationally recognized credit rating agency;
- (12) commercial paper with a stated maturity of 270 days or less that is rated not less than “A-1” or “P-1” or the equivalent by either (a) two nationally recognized credit rating agencies or (b) one nationally recognized

- credit rating agency if the commercial paper is fully secured by an irrevocable letter of credit issued by a U.S. or state bank;
- (13) no-load money market mutual funds registered with and regulated by the United States Securities and Exchange Commission that comply with the United States Securities and Exchange Commission Rule 2a-7;
 - (14) no-load mutual funds registered with the United States Securities and Exchange Commission that have an average weighted maturity of less than two years, and either has a duration of one year or more and is invested exclusively in obligations described in this paragraph, or has a duration of less than one year and the investment portfolio is limited to investment grade securities, excluding asset-backed securities; and,
 - (15) local government investment pools organized in accordance with the Interlocal Cooperation Act (Chapter 791, Texas Government Code) as amended, whose assets consist exclusively of the obligations that are described above. A public funds investment pool must be continuously ranked no lower than “AAA”, “AAA-m” or at an equivalent rating by at least one nationally recognized rating service.

The City may also invest bond proceeds in guaranteed investment contracts that have a defined termination date and are secured by obligations of the United States or its agencies and instrumentalities in an amount at least equal to the amount of bond proceeds invested under such contract, other than the prohibited obligations described below.

A political subdivision such as the City may enter into securities lending programs if:

- (i) the value of securities loaned under the program are not collateralized at less than 100%, including accrued income, a loan made under the program allows for termination at any time and a loan made under the program is either secured by (a) obligations that are described in clauses (1) through (6) above, (b) irrevocable letters of credit issued by a state or national bank that is continuously rated by a nationally recognized investment rating firm at not less than A or its equivalent or (c) cash invested in obligations described in clauses (1) through (6) above, clauses (11) through (13) above, or an authorized investment pool;
- (ii) securities held as collateral under a loan are pledged to the City, held in the City's name and deposited at the time the investment is made with the City or a third party designated by the City;
- (iii) a loan made under the program is placed through either a primary government securities dealer or a financial institution doing business in the State of Texas; and
- (iv) the agreement to lend securities has a term of one year or less.

The City may also contract with an investment management firm registered under the Investment Advisor Act of 1940 (15 U.S.C. Section 80b.1 et seq.) or with the State Securities Board to provide for the investment and management of its public funds or other funds under its control for a term of up to two years, but the City retains ultimate responsibility as fiduciary of its assets.

The City, as the owner of a municipal electric utility that is engaged in the sale of electric energy to the public, may invest funds held in a “decommissioning trust” (a trust created to provide the Nuclear Regulatory Commission assurance that funds will be available for decommissioning purposes as required under 10 C.F.R. Part 50 or other similar regulation) in any investment authorized by Subtitle B, Title 9, Texas Property Code (“Texas Trust Code”). The Texas Trust Code provides that a trustee shall invest and manage trust assets as a prudent investor would, by considering the purposes, terms, distribution requirements, and other circumstances of the trust. In satisfying this standard, the trustee shall exercise reasonable care, skill, and caution. The City established an external irrevocable trust for decommissioning with JPMorgan Chase Bank, N.A., and, as of October 2016, transferred the trust to Wilmington Trust, National Association. The decommissioning trust market value, as of June 30, 2019, was \$229,279,531.

The City is specifically prohibited from investing in:

- (1) obligations whose payment represents the coupon payments on the outstanding principal balance of the underlying mortgage-backed security collateral and pays no principal;
- (2) obligations whose payment represents the principal stream of cash flow from the underlying mortgage-backed security and bears no interest;
- (3) collateralized mortgage obligations that have a stated final maturity of greater than 10 years; and
- (4) collateralized mortgage obligations the interest rate of which is determined by an index that adjusts opposite to the changes in a market index.

Investment Policies

Under State law, the City is required to invest its funds under written investment policies that primarily emphasize safety of principal and liquidity; that address investment diversification, yield and maturity; and also that address the quality and capability of investment personnel. The policy includes a list of the type of authorized investments for City funds, the maximum allowable stated maturity of any individual investment owned by the City, the maximum average dollar-weighted maturity allowed for pooled fund groups, methods to monitor the market price of investments acquired with public funds, a requirement for settlement of all transactions, except investment pool funds and mutual funds, on a delivery versus payment basis, and procedures to monitor rating changes in investments acquired with public funds and the liquidation of such investments consistent with the PFIA. All City funds must be invested consistent with a formally adopted "Investment Strategy Statement" that specifically addresses each funds' investment. Each Investment Strategy Statement must describe the investment objectives for the particular fund using the following priorities:

- (1) understanding of the suitability of the investment to the financial requirements of the City;
- (2) preservation and safety of principal;
- (3) liquidity;
- (4) marketability of each investment;
- (5) diversification of the portfolio; and
- (6) yield.

The City's investment policy authorizes the City to invest its funds and funds under its control in all of the eligible investments described above under "Legal Investments", except those investments described in clauses (3) and (6).

Under State law, City investments must be made "with judgment and care, under prevailing circumstances, that a person of prudence, discretion and intelligence would exercise in the management of the person's own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived." At least quarterly, the investment officers of the City shall submit an investment report detailing:

- (1) the investment position of the City;
- (2) that all investment officers jointly prepared and signed the report;
- (3) the beginning market value and the ending value of each pooled fund group;
- (4) the book value and market value of each separately listed asset at the end of the reporting period;
- (5) the maturity date of each separately invested asset;
- (6) the account or fund or pooled fund group for which each individual investment was acquired; and
- (7) the compliance of the investment portfolio as it relates to (a) adopted investment strategy statements and (b) State law.

No person may invest City funds without express written authority of the City Council or the Chief Financial Officer of the City.

Additional Provisions

Under Texas law, the City is additionally required to:

- (1) annually review its adopted policies and strategies,
- (2) require any investment officers with personal business relationships or relatives with firms seeking to sell securities to the City to disclose the relationship and file a statement with the Texas Ethics Commission and the City Council,
- (3) require a registered representative of business organizations offering to engage in an investment transaction with the City to (a) receive and review the City's investment policy, (b) acknowledge that reasonable controls and procedures have been implemented to preclude imprudent investment activities, and (c) deliver a written statement attesting to these requirements;
- (4) perform an annual audit of the management controls on investments and adherence to the City's investment policy; and
- (5) provide specific investment training for the Chief Financial Officer of the City, Treasurer and Investment Officers.

2019 Changes to the PFIA

In the 86th Regular Session of the Texas Legislature, legislation was enacted making changes to the PFIA. Effective September 1, 2019, the following changes to the PFIA will go into effect. For a fully collateralized repurchase agreement to be an authorized investment for governmental entities, the repurchase agreement must, among other requirements, be secured by a combination of cash and obligations described by Section 2256.009(a)(1), Government Code (to include obligations, including letters of credit, of the United States or its agencies and instrumentalities, including the Federal Home Loan Bank), or commercial paper as described in Section 2256.013, Government Code, or, for certain independent school districts, corporate bonds as described in Section 2256.0204, Government Code. In addition, effective September 1, 2019, Section 2256.0208 is added to Subchapter A, Chapter 2256, Government Code, requiring the investment officer of a local government to invest bond proceeds or pledged revenue only to the extent permitted by the PFIA and in accordance with (i) statutory provisions governing the debt issuance (or lease, installment sale, or other agreement) and (ii) the local government's investment policy regarding the debt issuance or the agreement. The maximum maturity date of commercial paper defined in the PFIA was extended to 365 days from 270 days.

Current Investments – TABLE EIGHT

As of June 30, 2019, the City's investable funds were invested in the following categories.

<u>Type of Investment</u>	<u>Percentage</u>
U. S. Treasuries	20%
U. S. Agencies	39%
Money Market Funds	2%
Local Government Investment Pools	39%

The dollar weighted average maturity for the combined City investment portfolios is 219 days. The City prices the portfolios weekly utilizing a market pricing service.

CERTAIN GENERAL FUND RECEIPTS OTHER THAN AD VALOREM TAXES

Municipal Sales Tax– TABLE TEN

At an election held on September 30, 1967, the citizens of Austin voted a 1% retail sales and use tax to become effective on January 1, 1968. This tax provides an additional revenue source to the General Fund of the City. Collections and enforcements are effected through the offices of the Comptroller of Public Accounts of the State of Texas, who currently remits the proceeds of the tax to the City monthly. Revenue from this source has been:

<u>Fiscal Year Ended 9-30</u>	<u>Per Capita Sales and Use Tax</u>	<u>(in 000's) Sales and Use Tax</u>	<u>% of Ad Valorem Tax Levy</u>
2011	187.58	151,125	42.59%
2012	199.99	164,193	43.08%
2013	209.35	176,198	42.06%
2014	215.79	189,464	42.46%
2015	222.86	204,029	42.24%
2016	230.58	212,634	42.07%

2018	241.05	232,319	37.73%
2019	246.88	243,300	36.41%
2020 (1)	251.14	251,823	35.06%

(1) 2020 figures from the City's approved budget.

Transfers from Utility Funds – TABLE ELEVEN

The City owns and operates a Water and Wastewater System and an Electric Light and Power System, the financial operations of which are accounted for in the Utility Funds. Transfers from the Utility Funds to the General Fund have historically provided a significant percentage of the receipts for operation of the General Fund. The following sets forth the amount of such transfers.

<u>Fiscal Year Ended 9-30</u>	<u>(in 000's) Transfers</u>	<u>% of General Fund Requirements</u>
2011	134,263	20.8%
2012	136,919	19.8%
2013	139,548	18.5%
2014	142,909	18.0%
2015	143,755	16.9%
2016	145,793	15.9%
2017	150,877	15.6%
2018	154,914	15.1%
2019	157,586	15.2%
2020 (1)	158,486	14.5%

(1) 2020 figures from the City's approved budget.

[The remainder of this page is intentionally left blank.]

THE CITY

Administration

Incorporated in 1839, the City operates under a Council-Manager form of government under its home rule charter. The City Council is comprised of an eleven-member council, with the Mayor elected at-large, and the remaining members elected from ten single-member districts. Councilmembers, including the Mayor, serve a four-year term, with the terms staggered so that every two years five of the councilmembers and the Mayor stand for election, and five councilmembers stand for election two years later. See “APPENDIX A – GENERAL INFORMATION REGARDING THE CITY – General Information” in this document.

By charter, the City Council appoints a City Manager for an indefinite term who acts as the chief administrative and executive officer of the City. The duties include, among others, the supervision of all City departments, the preparation and administration of an annual budget and the preparation of a report on the finances and administrative activities of the City.

City Manager – Spencer Cronk

Mr. Spencer Cronk joined the City as City Manager on February 12, 2018. Before joining the City, Mr. Cronk was Minneapolis City Coordinator (City Administrator). He directed the management of Minneapolis city government by assisting the Mayor and City Council in defining city policy and establishing priorities, mobilizing department heads and staff to implement the Mayor and Council’s priorities, and working to strengthen the management and administrative systems of the city. Mr. Cronk previously served as Commissioner of the Minnesota Department of Administration, a role he was appointed to by Governor Mark Dayton in 2011. As Commissioner, Mr. Cronk led the state’s real property, purchasing, fleet, demographic analysis and risk management divisions responsible for more than \$2 billion in state purchasing and the historic renovation of the Minnesota State Capitol. Additionally, Mr. Cronk served as chair of the Minnesota Public Data Governance Advisory Committee, and as a member of the Environmental Quality Board and the Minnesota Indian Affairs Council. Before joining the State of Minnesota, Mr. Cronk served as executive director of organizational development and senior advisor for the Department of Small Business Services for the City of New York, under former Mayor Michael Bloomberg. His accomplishments there included the design and implementation of a comprehensive performance-management system and the development of a program for integrating new employees, which was used citywide as a best practice template for the City of New York’s 300,000 employees. Mr. Cronk has served a number of community organizations and agencies, including as an Advisory Council member for Northern Spark, a member of the Minnesota Advisory Board of the Trust for Public Land, and a member of the Itasca Project Task Force on Socioeconomic Disparities in the Twin Cities. He was a recipient of the Minneapolis/St. Paul Business Journal’s “40 Under 40” Award in 2013. Mr. Cronk received his bachelor’s degree with honors from the University of Wisconsin–Madison. He is a graduate of Harvard University’s Senior Executives in State and Local Government Program and was a Public Affairs Fellow with the Coro New York Leadership Center.

Deputy City Manager⁽¹⁾ / Chief Financial Officer – Elaine Hart, CPA

Ms. Elaine Hart currently serves as Deputy City Manager and Chief Financial Officer overseeing departments and projects that support the *Government That Works for All* Outcome of the City’s Strategic Plan 2023. Ms. Hart became Deputy City Manager effective upon the adoption of the City’s fiscal year 2019 budget. In this role, she provides oversight to City departments including Financial Services, Human Resources, Communications and Technology Management, Communications and Public Information, Building Services, Intergovernmental Relations, Labor Relations, and the Innovation Office. Her career with the City spans more than 30 years, including 14 years in public power. Ms. Hart was appointed to the position of Chief Financial Officer in April 2012 after serving as Interim Chief Financial Officer for two months. Prior to her appointment as Chief Financial Officer, she served as Senior Vice President of Finance and Corporate Services for Austin Energy, the municipally-owned electric utility. During her tenure at the City (service not continuous), she has also served in other financial capacities, including the City’s Chief Financial Officer in the late 1980s, Assistant Finance Director, City Controller, and Deputy City Auditor. She also has private sector auditing, accounting and consulting experience. Ms. Hart received her B.B.A. in Accounting from The University of Texas at Arlington and is a licensed Certified Public Accountant (CPA) in the State of Texas.

(1) Ms. Nuria Rivera-Vandermyde has been appointed to serve as the City’s Deputy City Manager. Ms. Rivera-Vandermyde is expected to join the City in this role on October 1, 2019, and at such time, Ms. Elaine Hart will no longer serve as Deputy City Manager and will continue as the City’s Chief Financial Officer.

Deputy Chief Financial Officer – Greg Canally

Mr. Greg Canally is the Deputy Chief Financial Officer for the City of Austin with responsibility for the Treasury Office, Purchasing Office & Capital Contract Office, and works as the finance lead on economic development, transportation initiatives, facility master planning, and a variety of information technology issues for the City. Mr. Canally has been with the City for 18 years, entirely in the Finance Department. From 2004 through 2008, he was the City's Budget Officer. He is a past member of the Government Finance Officers Association's Committee on Economic Development and Capital Planning. Prior to his work in municipal government, Mr. Canally worked as a project manager/economist for HDR Engineering, working with all levels of government to implement water planning solutions in Texas. Mr. Canally holds a Bachelor of Science degree in Economics from Villanova University and a Master of Science degree in Economics from the University of Texas at Austin.

Deputy Chief Financial Officer – Ed VanEenoo

Mr. Ed Van Eenoo currently serves as Deputy Chief Financial Officer overseeing the Budget Office and the Office of Performance Management within the Financial Services Department. Mr. Van Eenoo was appointed to the position of Deputy Chief Financial Officer in 2013 after serving four years as the Budget Officer for the City. Prior to joining the City of Austin, he spent nine years with the City of Chula Vista including time as a Fiscal and Management Analyst, Assistant Director of Budget and Analysis, and four years as the Director of Budget and Analysis. Mr. Van Eenoo received his B.S. in Economics from The University of Eastern Michigan and M.S. in Applied Economics from Virginia Tech University.

Services Provided by the City

The City's major activities include police and fire protection, emergency medical services, parks and libraries, public health and social services, planning and zoning, general administrative services, solid waste disposal, maintenance of bridges, streets and storm drains. The City owns and operates several major enterprises including electricity (Austin Energy), water and wastewater (Austin Water), airport (Austin-Bergstrom International Airport) and two public event facilities.

Employees

Municipal employees are prohibited from engaging in strikes and collective bargaining under State law. An exception allows fire and police employees to engage in collective bargaining (but not the right to strike) after a favorable vote of the electorate. The voters have approved collective bargaining for fire fighters but not for police officers. Approximately 15% of the City's employees are members of the American Federation of State, County and Municipal Employees, 8% are members of the American Police Association and 7% are members of the International Association of Fire Fighters.

The City does not have automatic escalators in payroll or in its retirement systems. The retirement systems may grant cost-of-living increases up to 6% for municipal employees and 6% for police officers and a percentage based on the amount of increase in the Consumer Price Index for the firefighters, but only if recommended by an independent actuary and approved by the retirement boards.

Annexation Program

The City annexes territory on a regular basis. Chapter 43 of the Texas Local Government Code regulates annexation of property by Texas municipalities. Under current state law, landowner and/or voter approval is required as part of the process for the annexation of territory into a city. The process varies depending on the characteristics of the area being considered for annexation, generally involving a petition from each landowner, a petition signed by registered voters and owners of land in the area, or an election at which qualified voters approve the proposed annexation. Additionally, the process involves staff review, development of a written service agreement (or regulatory plan for a limited purpose annexation), notification, publication of a newspaper notice, public hearings, and ordinance approval.

Upon approval, the City provides a wide range of services to the annexed area – police and fire protection, emergency medical services, solid waste collection, and maintenance of public facilities such as water and wastewater, roads, streets, and parks. Failure to provide municipal services in accordance with the service plan may provide grounds for a petition and court action to compel compliance with the service plan or to disannex of the area, and may also result in a refund of taxes and fees collected for services not provided, however, the City has never been forced to disannex due to such failure.

Some of the areas which may be considered for annexation include developed areas for which water, sewer, and drainage services are being provided by utility districts created for such purposes. Existing utility districts, as well as new districts that may be created from time to time, may issue bonds for their own improvements. Such bonds are generally payable from the receipts of ad valorem taxes imposed by the district and, in some cases, are further payable from any net revenues derived from the operation of its water and sanitary sewer systems. State law generally requires that if a city annex a district, then the district must be annexed in its entirety. Upon annexation by a city, a district is dissolved and the city assumes the district's outstanding bonds and other obligations. The City then levies and collects ad valorem taxes on taxable property within the corporate limits of the city sufficient to pay the principal of and interest on such assumed bonds.

The City also assumes liabilities when it annexes land in an Emergency Services District ("ESD") and that land is disannexed from the ESD. This liability, however, is limited to assumption of a pro-rata share of debt and assumption of those facilities directly used to provide service to the area.

The City Charter and the State's annexation laws provide the City with the ability to undertake two types of annexation. "Full purpose" annexation discussed above, annexes territory into the City for all purposes, including the assessment and collection of ad valorem taxes on taxable property. The second type of annexation is known as "limited purpose" annexation by which territory may be annexed for the limited purposes of "Planning and Zoning" and "Health and Safety." Territory so annexed is subject to ordinances relating to these purposes: chiefly, the City's zoning ordinance, building code, and related ordinances regulating land development. Taxes may not be imposed on property annexed for limited purpose because municipal services are not provided and residents of the area are restricted to voting only in City elections for City Council and Charter amendments.

Annexations – TABLE TWELVE

The following table sets forth (in acres) the City's annual annexations since 2010.

<u>Calendar Year</u>	<u>Full Purpose Acres (1)</u>	<u>Limited Purpose Acres</u>
2010	1,129	2,495
2011	726	0
2012	3,387	3,818
2013	3,484	594
2014	897	136
2015	1,911	3
2016	311	0
2017	1,283	0
2018	136	0
2019	126	166

(1) Includes acres converted from limited purpose to full purpose status.

Recent Annexation

In 2019, the City annexed for limited purposes several recently acquired and vacant outparcels located in the Pilot Knob MUD development project. Additionally, at the landowner's request, the City annexed for full purposes a 126 acre undeveloped parcel which the landowner plans to develop into a corporate campus.

In 2018, the City annexed and dissolved the Cascades MUD No. 1 at the request of the property owner. At the time of annexation the area was undeveloped and the MUD had not issued any debt. The property owner determined that the proposed Cascades at Onion Creek subdivision could be developed as originally planned without the need for a MUD and the City agreed to annex and dissolve the MUD. The taxable assessed value at the time of annexation was \$584,827.

The largest of the 2017 annexations was the River Place MUD area which converted approximately 1,040 acres from the City's limited purpose jurisdiction to full purpose. This area included an estimated population of approximately 3,125 persons. In addition, the City annexed several commercial properties in south Austin. The total taxable assessed value ("TAV") for these areas at the time of annexation was \$697.2 million.

The City's 2016 annexation program included the full purpose annexation of five areas containing approximately 311 acres. With the exception of a small amount of office/warehouse/commercial uses, these areas were largely undeveloped at the time of annexation. Approved development plans include an additional 651 single-family homes and 97 multi-family units. The TAV for these areas at the time of annexation was approximately \$19.3 million.

In 2015 the City annexed eleven areas for full purposes and one area for limited purposes. These areas included an estimated total population of approximately 3,912 persons, mainly within the Lost Creek subdivision. Approved development plans for the remaining areas include an additional 1,944 single-family homes. The taxable assessed value for these areas at the time of annexation was approximately \$25.4 million.

The City annexed seven areas for full purposes in 2014, including approximately 900 acres of undeveloped land. If developed as anticipated, these areas would include an estimated 1,498 dwelling units and a projected population of 3,747 persons at build-out. The TAV for these areas as of January 1, 2017 was approximately \$12.6 million.

In 2013, the Wildhorse Ranch and the remainder of the Goodnight Ranch proposed developments were converted from limited to full purpose annexation status. In addition, the City annexed one commercial area and several undeveloped areas for full purposes for a total of 3,484 acres for the year. The TAV for these areas was approximately \$17 million at the time of annexation. The City Council also approved the creation and limited purpose annexation of a new Public Improvement District, Estancia, which is located on the southern edge of the City along Interstate Highway 35 South. Future full purpose annexation of this area will occur in accordance with the terms of the development agreement.

Future Annexation

Shady Hollow MUD is scheduled for full purpose annexation in December 2020 in accordance with the terms of its strategic partnership agreement with the City.

Pension Plans

The City has three contributory defined benefit retirement plans for its general municipal, fire, and police employees. These three plans include the City of Austin Employees' Retirement System ("COAERS"), the City of Austin Police Retirement System (the "Police Retirement System") and the City of Austin Fire Fighters Relief and Retirement Fund (the "Fire Fighters Retirement Fund"). These plans are single employer funded plans each with a fiscal year end of December 31. The three retirement plans cover substantially all full-time employees. State law requires the City to make contributions to the plans in an amount at least equal to the contribution of the employee group. The contributions made by the City to the COAERS include amounts allocable to the City employees within Austin Energy, Austin Water and the City's Aviation Department ("Aviation"); the contributions allocable to such employees are paid from gross revenues of the respective systems and constitute operating expenses of Austin Energy, Austin Water, and Aviation, respectively.

As of October 1, 2018, municipal employees contribute 8.0% and the City contributes 18.0% of payroll to the COAERS. Fire fighters (who are not members of the Social Security System) contribute 18.7% of payroll, and the City contributes 22.05% to the Fire Fighters Retirement Fund. Police officers contribute 13.0% and the City contributes 21.313% of payroll to the Police Retirement System. The contributions to the pension plans are designed to fund current service costs and to amortize the unfunded actuarial accrued liability. As of December 31, 2018, the amortization period of the unfunded actuarial accrued liability was 32 years for the COAERS, open or indefinite for the Police Retirement System, and 17.9 years for the Fire Fighters Retirement Fund.

The City's net pension liability was measured as of December 31, 2017 for all three systems and as of December 31, 2018 for the COAERS and the Fire Fighters Retirement Fund. Net pension liability information as of December 31, 2018 for the Police Retirement System is not yet available. Information on the liabilities and funding measurements of each plan is discussed below.

City of Austin Employees' Retirement System (COAERS) - As of December 31, 2018, the COAERS reported a net pension liability of \$1.53 billion with a plan fiduciary net position as a percentage of the total pension liability of 61.7%. The actuarial accrued liability for the COAERS was \$3,989,560,137 and the funded ratio was 67.6%. As of December 31, 2017, the COAERS reported a net pension liability of \$1.15 billion with a plan fiduciary net position as a percentage of the total pension liability of 69.8%. The actuarial accrued liability for the COAERS was \$3,797,823,303 and the funded ratio was 68.3%. The COAERS had no changes of assumptions or benefit terms that affected the total pension liability for the measurement period.

The COAERS funding policy is to maintain contribution rates sufficient to cover the normal cost of the plan and to amortize any unfunded actuarial accrued liabilities over a period not to exceed 25 years. Currently, the total contribution rate is sufficient to amortize the System's unfunded liabilities in approximately 32 years, a slight increase from the 30-year amortization period in the previous year. In 2005, a Supplemental Funding Plan ("SFP") was approved that increased the City's annual contribution rate to a maximum of 12%, but this additional funding was not sufficient to restore the long-term financial health of the COAERS. In FY 2011, City Council approved an amendment to the SFP that increased the City contribution rate to a maximum rate of 18% of payroll to be contributed by 2013. The City contributed an additional 6% in FY 2011, an additional 8% in FY 2012 and an additional 10% in FY 2013 pursuant to the terms of the SFP, which brought the City's contribution rate to the maximum of 18%. In addition, a new benefit tier for new employees hired on or after January 1, 2012 was approved by the COAERS Board of Trustees, the City Council and the Texas Legislature. The new benefit tier increased the age and service criteria necessary to reach retirement eligibility. It also decreased the pension multiplier, which is used to determine the final pension amount paid to future retirees. These two actions are expected to substantially improve the long-term financial health of the COAERS over time.

Police Retirement System - The Police Retirement System has not received its net pension liability information as of December 31, 2018. The actuarial accrued liability for the Police Retirement System as of December 31, 2018 was \$1,389,660,616 and the funded ratio was 58.1%. The Police Retirement System, as of December 31, 2017, reported a net pension liability of \$420.1 million with a plan fiduciary net position as a percentage of the total pension liability of 64.7%. The actuarial accrued liability for the Police Retirement System as of December 31, 2017 was \$1,185,017,294 and the funded ratio was 65.8%.

The Police Retirement System adopted changes of assumptions in May 2019, including a reduction to the investment return assumption, a reduction of payroll growth assumption and adoption of a new mortality table. The assumption changes, among other contributing factors, has resulted in a decrease in the funded ratio and an increase in the amortization period from 35 years to indefinite.

Fire Fighters Retirement Fund - The Fire Fighters Retirement Fund, as of December 31, 2018, reported a net pension liability of \$198.1 million with a plan fiduciary net position as a percentage of the total pension liability of 82.1%. The actuarial accrued liability for the Fire Fighters Retirement Fund was \$1,084,533,608 and the funded ratio was 88.0%. As of December 31, 2017, the Fire Fighters Retirement Fund reported a net pension liability of \$85.0 million and plan fiduciary net position as a percentage of the total pension liability of 91.8%. The actuarial accrued liability for the Fire Fighters Retirement Fund as of December 31, 2017 was \$1,038,118,085 and the funded ratio was 88.3%.

The Fire Fighters Retirement Fund had no significant changes of assumptions during the measurement period but did have a change in benefit term that affected the total pension liability. Effective January 1, 2019, a cost-of-living adjustment increase of 2.30% went into effect.

The financial statements for each plan are accessible on their respective websites. See "APPENDIX B – AUDITED FINANCIAL STATEMENTS – Note 7" in this document for additional information on the City's Pension Plans. Also, see Note 7 of the City's Comprehensive Annual Financial Report ("CAFR") for their web addresses.

Other Post-Employment Benefits ("OPEB")

In addition to the contributions made to the three pension systems, the City provides certain other post-employment benefits ("OPEB") to its retirees. The City's OPEB plan is a defined-benefit single-employer plan. Allocation of City funds to pay OPEB other than pensions is determined on an annual basis by the City Council as part of the budget approval process on a pay-as-you-go basis. The City is under no obligation to pay any portion of the cost of OPEB for retirees or their dependents.

OPEB include access to medical, dental, and vision insurance for the retiree and the retiree's family and \$1,000 of life insurance on the retiree only. All retirees who are eligible to receive pension benefits under any of the City's three pension systems are eligible for OPEB. Retirees may also enroll eligible dependents under the medical, dental, and vision plan(s) in which they participate.

In fiscal year 2018, the City implemented Governmental Accounting Standards Board ("GASB") Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions (OPEB)*, which increased the City's total OPEB

liability by \$1.51 billion over the previously reported net OPEB obligation. The City does not accumulate assets in a trust that meets the criteria in paragraph 4 of GASB Statement 75.

GASB Statement No. 75 requires governments offering OPEB to record a liability in the current period for total future OPEB obligations for existing employees and retirees in excess of plan assets. In addition, it identifies accepted actuarial methods and assumptions, allows deferral of certain OPEB expense items, expands financial statement note disclosures, and changes disclosure of required supplementary information.

Day-to-day accounting and administration of OPEB activities are provided by the City and recorded in the Employee Benefits Fund. However, at year end an adjustment is made to recognize OPEB expenses in the operating funds that provide funding to the Employee Benefits Fund to pay for the City's portion of these benefits. No separate plan report is available.

The City subsidizes between 20% and 80% of the projected medical premium for retirees and a lesser portion for dependents and surviving spouses depending on years of service at retirement. The retiree must pay the unsubsidized portion of the premium. Both the City and retirees' estimated premiums are deposited in the Employee Benefits Fund, which pays actual claims for medical and prescription drugs and 100% of the retiree's basic life insurance premium. The cost of coverage above the \$1,000 level for life insurance premium is paid by the retiree. Group dental and vision coverage is available to retirees and their eligible dependents. The retiree pays the full cost of the dental and vision premium. The estimated pay-as-you-go cost of providing medical and life benefits was \$43.14 million in 2018 and \$43.05 million in 2017. As of September 30, 2018, the total OPEB liability is \$2.52 billion.

See "APPENDIX B – AUDITED FINANCIAL STATEMENTS – Note 8 and Note 18" in this document for additional information on the City's OPEB.

Insurance

The Liability Reserve Fund is the insurance fund of the City for settled claims, expenses, and reserves relating to third party liability claims for injury and property damage, including professional liability. The Liability Reserve Fund is used to pay for actual claims incurred and related expenses for settling these claims, for budgeted administrative costs for the fund's operations, and to estimate incurred, but not reported claims. The Liability Reserve Fund had accrued liabilities of approximately \$4.44 million for claims and damages at the end of fiscal year 2018. Employee injuries are covered by the City's Workers' Compensation Fund and health claims are covered by the City's Employee Benefits Fund.

ENTERPRISE FUNDS

Statement of Revenues, Expenses and Changes in Fund Net Position

The Enterprise Funds account for the activities of the City that render services on a user charge basis to the general public. Set forth on pages B-32 and B-33 of APPENDIX B in this document is a summary of the revenues, expenses, transfers and net position of the City's enterprise funds for the year ended September 30, 2018.

THE ELECTRIC UTILITY AND WATER AND WASTEWATER SYSTEMS

The City owns and operates an electric utility system (also referred to in this document as the "Electric Utility System" or "Austin Energy") and a water and wastewater system (also referred to in this document as the "Water and Wastewater Utility" or "Austin Water") which provide the City, as well as adjoining areas of Travis County and certain adjacent areas of Williamson County, with electric, water and wastewater services. The City jointly participates with other electric utilities in the ownership of coal-fired electric generation facilities and a nuclear powered electric generation facility. Additionally, City individually-owned gas/oil-fired electric and a biomass generation facilities are available to meet Electric Utility System demand. The City owns all the facilities of the Water and Wastewater System. For the fiscal year commencing October 1, 2018, the Electric Utility System had approximately 1,749 full-time regular employees and the Water and Wastewater Utility had approximately 1,201 full-time regular employees.

Austin Energy and Austin Water each annually transfer revenue to the General Fund; the utility fund transfers have historically provided a significant percentage of the receipts for operation of the General Fund. In fiscal year 2018, the total transfers from the utility systems represented 15.0% of total General Fund revenue, with 10.6% from Austin Energy and 4.4% Austin Water. Austin Energy's annual transfer (the "General Fund Transfer") is especially significant to the

operations of the General Fund. The General Fund Transfer is an annually recurring, formula-based appropriation. Given the significance of the General Fund Transfer to the operations of the City's General Fund, information related to Austin Energy's strategic plans, goals, financial policies, and industry and regulatory is provided below.

STRATEGIC PLANS, GOALS AND POLICIES OF AUSTIN ENERGY

Strategic Plan

Austin Energy's mission is *"To safely deliver clean, affordable, reliable energy and excellent customer service."* To achieve its mission, Austin Energy adopted its 2017-2021 Strategic Plan (the "Strategic Plan") in June 2016. The Strategic Plan identifies adaptive strategies to proactively address customer expectations, deploy innovative technology, provide responsible energy services and ensure Austin Energy is well prepared for the challenges ahead. The Strategic Plan is by from several sources, including Austin Energy's Technology Roadmap, Facilities Masterplan, Austin Energy Resource, Generation and Climate Protection Plan, and the City's strategic planning efforts. The primary focus of the Strategic Plan is to improve Austin Energy's competitive position while realizing its vision *"to drive customer value in energy services with innovative technology and environmental leadership."*

The Strategic Plan addresses six overarching goals that are designed to enable Austin Energy to realize its vision. Three of the goals focus on delivering value to the customer, providing customer choice in the products and services they offer (Customer Collaboration, Environment and Grid Modernization). The other three goals have an internal focus on maintaining and increasing the value provided by the utility to its employees, customers and community (Financial Health, Employee Engagement and Business Excellence). Austin Energy identified thirteen separate new or ongoing initiatives associated with the six strategic goals. In order to measure performance over time, each goal has an assigned Key Performance Indicator ("KPI") as well as a target value for each KPI. Likewise, each initiative has several assigned performance metrics to monitor progress. Austin Energy established five-year goals that it intends to achieve before the completion of FY2021, although Austin Energy may complete some of the strategic initiatives on a shorter timeframe. Austin Energy publicly reports its strategic progress in the Monthly Performance Dashboard that tracks 36 separate KPIs and metrics.

Austin Energy is currently undertaking a review and refresh of the Strategic Plan. The refresh is intended to promote alignment and understanding around key industry trends and risks to Austin Energy and its customers. The outcome will be a prioritization of Austin Energy's initiatives, evaluation of metrics and a work plan for continued improvement in strategic direction for the utility.

Austin Energy Resource, Generation, and Climate Protection Plan to 2027

The Austin Energy Resource, Generation and Climate Protection Plan to 2027 (the "2027 Plan") outlines the City Council's strategic goals for Austin Energy's environmental and economic leadership and represents a combined, extensive effort of the Austin community. The 2027 Plan is flexible and dynamic in order to respond to changing circumstances including economic conditions, customer load, fuel prices, infrastructure build-out, technological development, law and regulations, policy direction, rate structures and customer needs. It involves extensive analysis of risks, costs and opportunities to meet future demand for electricity.

The 2027 Plan is built on the foundation of previous actions and plans including:

- The Austin City Council adopted the Austin Climate Protection Plan in 2007 to build a more sustainable community. Austin Energy developed the Resource, Generation and Climate Protection Plan to meet these objectives. The first plan, approved by City Council in 2010 and further refined in 2010 by adding affordability metrics, addressed resource plan options through 2020. Austin Energy is committed to updating its integrated resource plan every two years.
- In April 2014, the City Council passed Resolution No. 20140410-024 which recognized the need to further accelerate the reduction of greenhouse gas emissions and set a goal of reaching net zero community-wide greenhouse gas emissions by 2050 or earlier if feasible. The City Council then approved an updated Resource, Generation and Climate Protection Plan in December 2014, addressing resource options through 2025.

In November 2016, the City of Austin's Electric Utility Commission formed a working group to make recommendations on the most recent update to the 2027 Plan, which addresses resource plan options through 2027. In addition to reaffirming

the affordability goals approved in 2010, the working group made recommendations in the areas of generation, local solar, energy efficiency and demand response, electric vehicles and process.

The 2027 Plan: Goals and Directives

On August 17, 2017, the City Council approved Resolution No. 20170817-061, adopting the Working Group recommendations and providing additional direction to Austin Energy. The recommendations and the City Council directives are detailed in this 2027 Plan.

Vision – The City Council affirmed its continued interest in achieving the City’s climate protection goal of reducing emissions as quickly as possible.

Affordability – Affordability is an overarching goal. The affordability goal acknowledges that Austin Energy must be financially sound; that the cost of electric service must be affordable for all classes of customers and that rates must be competitive to ensure the retention and attraction of businesses for a strong local economy. The affordability goal approved by City Council is comprised of two metrics that seek to: (1) maintain system average rates at or below 2% annual compound growth rate that began October 2012; and (2) maintain an average annual system rate in the lower 50% of all Texas utilities serving residential, commercial and industrial customers, as measured by published data from the Energy Information Administration Form 861.

Resource and Technology Objectives – The following goals are inclusive of the goals in the 2027 Plan. Where a study or modeling effort is indicated, such items will be reported to the Electric Utility and Resource Management Commissions as well as the Austin Energy Utility Oversight Committee no later than September 30, 2019 unless a different date is indicated.

Renewable Energy

- Achieve at least 55% renewable energy by 2025, and commit to 65% renewable energy by the end of 2027 as a share of customer consumption. Under the 2027 Plan, installed solar capacity would increase to at least 950 MW by 2025, including 200 MW of local solar.

Decker Creek Power Station and Fayette Power Project

- Target ceasing operations and beginning retirement of Decker Steam units, assuming approval by the Electric Reliability Council of Texas (“ERCOT”), with Steam Unit 1 ceasing operations after summer peak of 2020 and Steam Unit 2 ceasing operations after summer peak of 2021.
- The City reaffirmed its previous goal, established in 2014, to exit Austin Energy’s participation in the Fayette Power Plant (“FPP”), beginning by the end of 2022.

Local Solar

- Achieve 110 MW of local solar by the end of 2020, including at least 70 MW of customer-sited solar and commit to a local solar budget of \$7.5 million per year for FY 2018 and FY 2019 followed by \$5 million per year for each of the fiscal years FY 2020 through FY 2027. As of April 2019, there were 101 MW local solar, including the 30 MW Webberville solar farm, the 2.6 MW La Loma Community Solar project, and 68 MW of customer-sited solar photovoltaics. Austin Energy expects to achieve the 70 MW customer-sited solar goal in 2019, and the 110 MW local solar goal in 2020, through continued rooftop solar market growth, aided by Austin Energy incentives, and additional community solar project development.

Energy Efficiency and Demand Response

- Achieve 800 MWs of energy efficiency and demand response by 2020 with an incremental 100 MW of demand response to achieve a total of at least 900 MW of demand side management (“DSM”) by 2025. From 2007 through March 2019, Austin Energy DSM customer programs have reduced demand by 754 MW. Program offerings are provided in all sectors and include community focus such as school based education, in-store point of sale discounts, low income and rebates for energy efficiency and demand response engagement.
- Budget at least 2.5% gross revenues to DSM (recovered in the Community Benefit Charge and base rates) – Austin Energy will work with stakeholders to make future goals ‘budget-based,’ rather than MW-based, as has been done in the past.

Emerging Technology and Energy Storage

- Commit to achieving 30 MW of local thermal storage by 2027 and a minimum of 10 MW of electric storage by 2025. Austin Energy is currently developing 3 MW of electrical storage with the help of a grant from the DOE SHINES program. Using the lessons learned following completion and implementation of the SHINES project, develop a roadmap for implementation of electrical storage to achieve the goal of 10 MW of electrical storage by 2025.

Electric Vehicles

- Initiate private public partnerships that promote, market, and provide electric vehicle support that will increase utility revenue while reducing air pollution and greenhouse gases. Expand current efforts and, as possible, utilize these vehicles as a valid distributed storage technology.

Financial Policies

The objective of Austin Energy's financial policies is to maintain financial integrity while allowing for flexibility. Some of the more significant financial policies reviewed and approved annually by the City Council during the budget process are:

- Current revenue, which does not include the beginning fund balance, will be sufficient to support current expenditures (defined as "structural balance"). However, if projected revenue in future years is not sufficient to support projected requirements, the ending balance may be budgeted to achieve structural balance.
- Net revenues generated by Austin Energy shall be used for a transfer to the City's General Fund (the "General Fund Transfer," which is a formula-based appropriation), capital investment, repair and replacement, debt management, competitive strategies, and other Austin Energy funding requirements. Once these obligations have been met, any remaining net revenues of the Electric Utility System will be deposited into Austin Energy's reserve funds in the following order until each reserve reaches its minimum funding level: Working Capital Reserve, Contingency Reserve, Power Supply Stabilization Reserve, and then Capital Reserve. The sum of the four reserves shall be the cash equivalent of no less than 150 days of operating and maintenance expense.
- Austin Energy shall maintain an operating cash equivalent (also known as working capital) of 60 days of budgeted operations and maintenance expense, less power supply costs, plus the amount of additional monies required to bring the sum of all Austin Energy's reserves to no less than 150 days of operating and maintenance expense. As of September 30, 2018, Austin Energy's operating cash balance was \$454 million and Days Cash on Hand ("DCOH") was 224 days.
- Austin Energy shall maintain a minimum quick ratio of 1.50 (current assets less inventory divided by current liabilities). The source of this information shall be the City's Comprehensive Annual Financial Report ("CAFR").
- Austin Energy shall maintain either bond insurance policies or surety bonds issued by highly rated ("AAA") bond insurance companies, or a cash-funded debt service reserve, or a combination of bond insurance policies, surety bonds, or cash for its existing revenue bond issues, in accordance with the bond covenants of the Combined Utility Systems revenue bonds.
- Debt service coverage of a minimum of 2.0x shall be targeted for the Electric Utility System's revenue bonds, and a coverage minimum of 1.0x coverage shall be targeted when additionally including all short-term debt, including commercial paper obligations and non-revenue obligations.
- The Contingency Reserve shall be created and established for unanticipated or unforeseen events that reduce revenue or increase obligations, such as costs related to a natural disaster, extended unplanned plant outages, insurance deductibles, or unexpected costs created by Federal or State legislation. The Contingency Reserve may be used to fund unanticipated power supply expenses only after the Power Supply Stabilization Reserve has been fully depleted. The Contingency Reserve shall maintain an operating cash equivalent of 60 days of budgeted operations and maintenance expense, less power supply costs. In the event any portion of the Contingency Reserve is used, the balance will be replenished to the targeted funding level within two fiscal years.
- The Capital Reserve shall be created and established for providing extensions, additions, replacements and improvements to the Electric Utility System. The Capital Reserve shall maintain a minimum cash equivalent of 50% of the previous year's depreciation expense of the Electric Utility System.
- The Power Supply Stabilization Reserve shall be created and established for mitigating power supply cost

volatility which causes frequent variation in the Power Supply Adjustment. The Power Supply Stabilization Reserve shall maintain a cash equivalent of 90 days of net power supply costs. Net power supply costs shall be defined as costs eligible for inclusion in the Power Supply Adjustment. The Power Supply Stabilization Reserve shall be funded using net revenues after meeting other obligations and consistent with the flow of funds schedule.

- The General Fund Transfer shall not exceed 12% of Austin Energy’s three-year average operating revenues, calculated using the current fiscal year estimate and the previous two fiscal years’ actual revenues less power supply costs and District Cooling Program revenue from the City’s CAFR.
- Electric rates shall be designed to generate sufficient revenue, after consideration of interest income and miscellaneous revenue, to support (1) the full cost (direct and indirect) of operations including depreciation, (2) debt service, (3) the General Fund Transfer, (4) equity funding of capital investments, (5) requisite deposits of all reserve accounts, (6) sufficient annual debt service requirements of the Parity Electric Utility Obligations and other bond covenant requirements, if applicable, and (7) any other current obligations. In addition, Austin Energy may recommend to the City Council in the budget directing excess net revenues for the General Fund Transfer, capital investment, repair and replacement, debt management, competitive strategies and other Austin Energy requirements such as working capital. In addition to these requirements, electric rates shall be designed to generate sufficient revenue, after consideration of interest income and miscellaneous revenue, to ensure a minimum debt service coverage of 2.0x on revenue bonds of the Electric Utility System. A rate adequacy review shall be completed every five years, at a minimum, through performing a cost of service study.
- A decommissioning trust shall be established external to the City to hold the proceeds for monies collected for the purpose of decommissioning the STP. An external investment manager may be hired to administer the trust investments. As of June 30, 2019, the market value of the investments in the trust was \$229.3 million.
- A Non-Nuclear Plant Decommissioning Fund shall be established to fund plant retirement. The amount set aside will be based on a decommissioning study of the plant site. Funding will be set aside over a minimum of four years prior to the expected plant closure.

CERTAIN FACTORS AFFECTING THE ELECTRIC UTILITY INDUSTRY

Rate Regulation

The City Council has original jurisdiction over Austin Energy’s retail electric rates, while the Public Utilities Commission of Texas (“PUC”) sets Austin Energy’s recoverable Transmission Cost of Service. Certain residential ratepayers can appeal retail rate changes to the PUC under section 33.101 of the Public Utilities Regulatory Act (“PURA”) by filing a petition with the PUC containing the requisite number of valid signatures from residential ratepayers who take service outside the City limits. State courts have held that the PUC may apply the same ratemaking standards in such an appeal as are applied to utilities over which the PUC has original jurisdiction.

Section 35.004 of PURA requires the City to provide transmission service at wholesale to another utility, a qualifying facility, an exempt wholesale generator, a power marketer, a power generation company, or a retail electric provider. Section 35.004 of PURA requires the City to provide wholesale services at rates, terms of access, and conditions that are not unreasonably preferential, prejudicial, discriminatory, predatory, or anti-competitive.

An Independent System Operator (“ISO”) was established for ERCOT as a part of the rules that were adopted by the PUC to establish access to the wholesale electric market in the State and was approved by the PUC on August 21, 1996. The ISO received approval on May 5, 2000, of its certification under Senate Bill 7, adopted by the State legislature and signed into law in 1999 (“SB7”). The ISO’s responsibilities as detailed in SB7 are to (1) ensure nondiscriminatory access to the ERCOT transmission system; (2) ensure the reliability and adequacy of the ERCOT network; (3) ensure timely and accurate customer switching; and (4) ensure the accuracy of accounts among wholesale buyers and sellers. Austin Energy is a member of ERCOT, and Austin Energy staff is active in the ERCOT stakeholder process.

SB7 amended PURA to provide for retail deregulation of the electric utility industry in the State. SB7 opened retail competition for Investor Owned Utilities beginning January 1, 2002. SB7 allowed local authorities to choose when to bring retail competition to their Municipally Owned Utilities (“MOU”), and left key municipal utility decisions (like local rate setting and utility policies) in the hands of those who have a stake in the local community. Once a resolution to “opt

in” for retail competition is adopted by the MOU’s governing body, the decision is irrevocable. The City has not opted in to competition. As a result, retail competition is not allowed inside Austin Energy’s service territory. Austin Energy participates in the wholesale power market.

ERCOT Wholesale Market Design

The ERCOT wholesale market has been dispatched and settled on a nodal basis since December 1, 2010. The key components of the nodal market include: establishment of a day-ahead energy market; resource-specific bid curves for energy and ancillary services; congestion pricing incorporating direct assignment of all congestion rents to resources causing the congestion; tradable congestion revenue rights (“CRRs”) made available through auctions; nodal energy prices for resources; energy trading hubs; and zonal energy prices for load settlement. Austin Energy’s service territory is identified as a load zone for settlement purposes.

Austin Energy’s Energy and Market Operations staff offers Austin Energy’s generation resources into the ERCOT markets. All power to serve Austin Energy’s load is procured from the ERCOT market as well. Participation in the centralized ERCOT wholesale market allows Austin Energy to procure the cheapest source of supply possible to service its customers, whether that power is produced from Austin Energy’s own generation resources or procured from the ERCOT market.

The PUCT has considered changes to the ERCOT wholesale market to address some potential resource adequacy challenges. While there is some debate over the existence or severity of a resource adequacy issue, the PUCT has increased the market offer caps and implemented an Operating Reserve Demand Curve to represent the value of operating reserves in the real-time market relative to the probability of loss of load. The PUCT continues to solicit comments on further wholesale market design changes, but there is little expectation any major decisions will be made in the near term.

Federal Rate Regulation

Austin Energy is not subject to the jurisdiction of the Federal Energy Regulatory Commission (“FERC”) under sections 205 and 206 of the Federal Power Act and is not subject to Federal statutes and regulation in the establishment of rates, the issuance of securities or the operation, maintenance or expansion of Austin Energy. Nevertheless, Austin Energy submits various reports to FERC and participates in ERCOT, a stakeholder organization established under State law that is similar to the Regional Transmission Organizations envisioned in FERC Order No. 2000. ERCOT includes stakeholders from all segments of the Texas electric market and is responsible for the management and oversight of the day-to-day operations of the transmission network and wholesale market settlement. Under PURA, the PUCT has specific responsibilities to oversee ERCOT operations and market participant compliance with ERCOT Protocols.

Pursuant to the Energy Policy Act of 2005, municipal entities are subject to certain FERC authority on reliability. On July 20, 2006, FERC certified the North American Electric Reliability Corporation (“NERC”) as the nation’s Electric Reliability Organization responsible for developing and enforcing mandatory electric reliability standards under FERC’s oversight. On April 19, 2007, FERC approved the Delegation Agreement between NERC and the Texas Reliability Entity, Inc. (“TRE”), which governs the responsibilities of TRE as the Regional Entity responsible for overseeing the NERC reliability standards in the ERCOT region. Austin Energy has established compliance programs in its Energy Markets; transmission systems planning, operations and reliability; and Information Technology and Telecommunications units to examine the requirements for compliance with the standards and to evaluate and implement any needed changes to systems and procedures. This process is verified through external audits involving TRE.

Environmental Regulation - General

Austin Energy is subject to environmental regulation by Federal, State and local authorities and has processes in place for assuring compliance with applicable environmental regulations. Austin Energy’s Environmental Services section consists of a staff of educated and trained environmental compliance professionals who are responsible for establishing and maintaining compliance programs throughout the utility. The Environmental Services section interprets existing Federal, State and local regulations and monitors changes to regulations that affect Austin Energy. Austin Energy maintains an Environmental Management Information System (EMIS) which delineates roles and responsibilities, and automatically schedules environmental compliance tasks throughout the organization. The Environmental Services section staff and facility personnel monitor conformance with the environmental requirements, report deficiencies to facility management, and coordinate corrective actions where appropriate. The Environmental Services section is also responsible for conducting environmental training for the organization.

Environmental Regulation Related to Air Emissions

Clean Power Plan

In October 2015, the United States Environmental Protection Agency (“USEPA”) finalized the Clean Power Plan (“CPP”) requiring CO₂ emissions reductions from the electricity sector in most states, and directed each state to develop its own plan to achieve those reductions. Twenty-seven states and numerous industry groups filed a combined 39 lawsuits from a total of 157 petitioners asking the D.C. Circuit to review the rule. Briefings were completed in April 2016 and oral arguments were conducted in September 2016. The Supreme Court stayed the CPP rule on February 9, 2016, pending review in the D.C. Circuit Court. The D.C. Circuit has yet to issue a ruling; however, in 2018, the USEPA proposed revising the rule; that proposal is not yet final. Austin Energy’s fleet is less carbon intense than the state-wide fleet as a whole because of investments already made in zero-and-low-carbon generation sources. Austin Energy is well-positioned to comply with this rule, if it goes into effect.

Mercury and Air Toxics Standards (MATS)

USEPA’s final MATS rule published in February 2012 set new emissions limits for mercury and other toxic air emissions from coal-fired electric utility boilers to be achieved by 2015. For Austin Energy, this rule applies to FPP Units 1 and 2. Numerous states and industry groups continue to legally challenge USEPA’s determination that the rule is needed, and USEPA has proposed changes to the rule.

Austin Energy and its operating partner at FPP have already made the necessary investment to comply with MATS and will continue to comply until further direction is provided from the courts and USEPA.

Cross-State Air Pollution Rule and Clean Air Interstate Rule

Austin Energy’s large facilities have been complying with the Cross-State Air Pollution Rule (“CSAPR”) since 2015. On September 7, 2016, USEPA finalized an update to the CSAPR rule. The final rule lowered the State’s Phase II ozone season budgets by approximately an additional 10%. Austin Energy emission of nitrogen oxide (“NO_x”) exceeded allocations in 2018 and are expected to do so in 2019, resulting in the need to purchase excess allowances on the market.

Environmental Regulation Related to Water Discharges

Cooling water intake structures

Section 316(b) of the Clean Water Act establishes requirements to minimize the impact of cooling water intake structures on aquatic organisms. The USEPA promulgated revised standards in 2014 that require cooling water intake structures to be designed to limit organism impingement and entrainment. All major power plants with once-through cooling will be required to complete studies over the next four years assessing impacts to aquatic organisms and appropriate mitigation measures, and plants with potential impacts could be required to upgrade intake structures to meet the new criteria. The rule applies to the City’s Decker Creek Power Station and FPP. However, both facilities were built on reservoirs specifically made for cooling, which the rule effectively exempts from some of the major requirements. Overall risk associated with this rule is believed to be low at this time.

Effluent Limit Guideline (ELG) regulations

On November 3, 2015, the USEPA finalized technology-based wastewater effluent limitation guidelines and standards for steam electric power generating units, primarily focused on discharges associated with coal generating facilities. The standards provide for a phased-in approach and the use of technologies already installed at many power plants. As a result of conversion to dry ash handling and onsite treatment of scrubber discharge at FPP, Austin Energy does not anticipate any significant compliance requirements for this rule at this time.

Environmental Regulation Related to Hazardous Wastes and Remediation

In January 2015, the USEPA promulgated a rule that sets new requirements for the storage of Coal Combustion Residuals (“CCRs”) and potentially reclassifies those CCRs as a hazardous waste when stored in a landfill. FPP, like all coal burning plants, generates CCRs such as fly ash, bottom ash and gypsum. FPP currently recycles the majority of its CCR for beneficial use, such as for road base or as cement substitutes, with the remaining fractions stored onsite in a landfill for possible future use (recycle rates depend on market demand for the product). In 2011, Austin Energy and the Lower Colorado River Authority (“LCRA”) completed a project to permanently close a “wet” ash pond where ash slurry had previously been sent for dewatering before recycle, and converted ash handling to a dry system. The final rule does not designate CCRs as hazardous and largely minimizes any requirements on existing CCR storage units currently at FPP. FPP is in compliance with existing CCR rule requirements and Austin Energy does not anticipate any significant future costs associated with this rule at this time.

Nuclear Regulation

Nuclear generation facilities are subject to regulation by the Nuclear Regulatory Commission (“NRC”) and are required to obtain liability insurance and a United States Government indemnity agreement in order for the NRC to issue operating licenses. This primary insurance and the retrospective assessment discussed below are to insure against the maximum liability under the Price-Anderson Act (described below) for any public claims arising from a nuclear incident which occurs at any of the licensed nuclear reactors located in the United States.

The South Texas Nuclear Power Plant, in which the City owns a partial interest (“STP”) is protected by provisions of the Price-Anderson Act, a comprehensive statutory arrangement providing limitations on nuclear liability and governmental indemnities even though the statutory protections for many non-commercial reactors are different. The Price-Anderson Act expires on December 31, 2025. As of September 30, 2018, the limit of liability under the Price-Anderson Act for licensees of nuclear power plants remains at \$14.1 billion per unit per incident, and the maximum amount that each licensee may be assessed following a nuclear incident at any insured facility is \$137.609 million per unit, subject to adjustment for inflation, for the number of operating nuclear units and for each licensed reactor, payable at \$20.496 million per year per reactor for each nuclear incident. The City and each of the other participants of STP are subject to such assessments, which will be borne on the basis of their respective ownership interests in STP. For purposes of the assessments, STP has two licensed reactors. The participants (including the City) have purchased the maximum limits of nuclear liability insurance, as required by law, and have executed indemnification agreements with the NRC, in accordance with the financial protection requirements of the Price-Anderson Act.

A Master Worker Nuclear Liability policy, with a maximum limit of \$450 million (as of September 30, 2018) for the nuclear industry as a whole, provides protection from nuclear-related claims of workers employed in the nuclear industry after January 1, 1988 who do not use the workers’ compensation system as sole remedy and bring suit against another party.

NRC regulations require licensees of nuclear power plants to obtain on-site property damage insurance in a minimum amount of \$1.06 billion. NRC regulations also require that the proceeds from this insurance be used first to ensure that the licensed reactor is in a safe and stable condition so as to prevent any significant risk to the public health or safety, and then to complete any decontamination operations that may be ordered by the NRC. Any funds remaining would then be available for covering direct losses to property.

The owners of STP currently maintain \$2.75 billion of nuclear property insurance, which is above the legally required amount of \$1.06 billion for such losses (\$2.75 billion is the maximum amount available for purchase from Nuclear Electric Insurance Limited (“NEIL”). Nuclear property insurance consists of \$1.5 billion in primary property damage insurance and \$1.25 billion of excess property damage insurance, both subject to a retrospective assessment being paid by all members of NEIL. In the event that property losses as a result of an accident at any nuclear plant insured by NEIL exceed the accumulated fund available to NEIL, a retrospective assessment could occur. The maximum aggregate assessment under current policies for accidental outage insurance, primary and excess property damage insurance is \$59.6 million during any one policy year with insurance premiums being prorated per member share. This number changes annually and is calculated as 10 times the current premium for each policy. A small portion of the primary nuclear property damage insurance is provided by European Mutual Association for Nuclear Insurance (“EMANI”) which is also subject to retrospective assessment of up to \$1.864 million, which is six times the current calendar year premium.

The NRC regulations set forth minimum amounts required to demonstrate reasonable financial assurance of funds for decommissioning of nuclear reactors. Beginning in 1990, each holder of an operating license is required to submit to the

NRC a bi-annual report indicating how reasonable assurance would be provided. The City provides the required report on its share of STP to the NRC which is based on the minimum amount for decommissioning, excluding waste disposal, as required by the NRC regulations of \$105 million per unit (January 1986 dollars). This minimum is required to be adjusted annually in accordance with the adjustment factor formula set forth in the regulations. The 2018 report provided by the City based reasonable assurance on the minimum amount (January 1986 dollars) as adjusted by the adjustment factor formula set forth in the regulations. The City established an external irrevocable trust for decommissioning with JPMorgan Chase Bank, N.A, and as of October 2016, transferred the trust to Wilmington Trust, National Association. The City has been collecting for its share of anticipated decommissioning activities, which may begin as early as 2047, through its rates since Fiscal Year 1989. The market value of assets held in the decommissioning trust as of June 30, 2019 was \$229,279,531. For Fiscal Year 2019, Austin Energy estimates that it will continue to collect approximately \$5 million for decommissioning expense. In 2018 dollars, the minimum amount for decommissioning the City's share of STP is \$397 million. See "INVESTMENTS – Legal Investments" in this document.

Events Affecting the Nuclear Industry

On March 11, 2011, a region of Japan sustained significant loss of life and destruction because of a major earthquake and resulting tsunami. Included in the damage areas were the Fukushima nuclear units, which lost power to components of the backup and safety control systems and began emitting radiation into the surrounding environment. Following the incident, the NRC began looking into the safety aspects of nuclear plant operations in the United States with the objective of assuring that events such as those at the Fukushima plant do not occur in this country. On August 31, 2012, the NRC issued Interim Staff Guidance ("ISG") to U.S. nuclear power plants to ensure proper implementation of three orders the agency issued in March 2012, in response to lessons learned from the Fukushima Daiichi nuclear accident. The ISGs represent acceptable approaches to meeting the orders' requirements before their December 31, 2016 compliance deadline.

The ISGs are not mandatory, but U.S. nuclear power plants would have to seek NRC approval in order to follow a different compliance approach. As detailed below, all required actions by STP related to these orders have been completed and accepted by the NRC.

The first NRC order requires all U.S. plants to better protect portable safety equipment put in place after the 9/11 terrorist attacks and to obtain sufficient equipment to support all reactors and spent fuel pools at a given site simultaneously. The ISG for this order endorses the industry's updated guidance for dealing with a scenario that knocks out all of a plant's alternating current electric sources. The updated approach includes the use of backup power supplies for devices that would burn off accident-generated hydrogen before it could accumulate to explosive levels. The staff concludes the updated approach will successfully implement the first NRC order. The ISG is available in the Agencywide Document Access and Management System ("ADAMS") under accession number ML12229A174; the associated industry document is available under accession number ML12242A378. STP has completed engineering design and installation of equipment and modifications to address these requirements, and has had the final closeout inspection by the NRC. The NRC has accepted STP's completion letter and no further action is required for this order.

The second NRC order applies only to U.S. boiling-water ("BWR") reactors that have "Mark I" or "Mark II" containment designs. Mark I reactors must improve installed venting systems that help prevent core damage in the event of an accident; Mark II reactors must install these venting systems. The ISG for this order provides more detailed technical information on the vents, as well as how vent designs and operating procedures should avoid, where possible, relying on plant personnel taking actions under hazardous conditions. The second ISG is available in ADAMS under accession number ML12229A475. Since the STP units are Pressurized Water Reactor's and not BWR's, no changes are required.

The third NRC order requires all plants to install enhanced equipment for monitoring water levels in each plant's spent fuel pool. The ISG for this order largely endorses an industry document that the staff concludes will successfully implement the order. The ISG defines in more detail the water levels the new equipment must accurately report, as well as standards for equipment mounting, powering and testing, personnel training and other criteria. The final ISG notes several areas, including instrument qualifications and instrument protection from falling debris, where the industry revised its initial approach. An exception in the staff's endorsement sets specific seismic criteria to ensure the instruments will survive an earthquake. This ISG is available in ADAMS under accession number ML12221A399; the associated industry document is available under accession number ML12240A304. STP has completed engineering design and installation of equipment and modifications to address these requirements and has had the final closeout inspection by the NRC. The NRC has accepted STP's completion letter and no further action is required for this order.

CONTINUING DISCLOSURE OF INFORMATION

In each Ordinance, the City has made the following agreement for the benefit of the Holders and beneficial owners of the Obligations. The City is required to observe the agreement for so long as it remains obligated to advance funds to pay the Obligations. Under the agreement, the City will be obligated to provide certain updated financial information and operating data annually, and timely notice of certain specified events, to the Municipal Securities Rulemaking Board (the “MSRB”).

Annual Reports

The City will provide certain updated financial information and operating data to the MSRB annually. The information to be updated includes all quantitative financial information and operating data with respect to the City of the general type included in the main text of this Official Statement within the tables numbered one through twelve and in APPENDIX B. The updated information will include audited financial statements, if the City commissions an audit and it is completed by the required time. Any such financial statements will be prepared in accordance with the accounting principles described in APPENDIX B or such other accounting principles as the City may be required to employ from time to time pursuant to State law or regulation. The City will update and provide this financial information and operating data as of the end of each fiscal year within six months after the end of each fiscal year, beginning with the fiscal year ending in 2019 and audited financial statements within 12 months of each fiscal year beginning with the fiscal year ending in 2019. If audited financial statements are not available within 12 months after any such fiscal year end, the City will provide unaudited financial statements within such 12 month period and audited financial statements for such fiscal year when and if the audit report on such statements becomes available. The City will provide the updated information to the MSRB through its Electronic Municipal Market Access (“EMMA”) information system.

The City may provide updated information in full text or may incorporate by reference certain other publicly available documents, as permitted by Rule 15c2-12 (the “Rule”), promulgated by the United States Securities and Exchange Commission (the “SEC”).

The City’s current fiscal year is October 1 to September 30. Accordingly, it must provide updated financial information and operating data by March 31 of each year and audited financial statements for the preceding fiscal year (or unaudited financial statements if the audited financial statements are not yet available as described above) by September 30 in each year, unless the City changes its fiscal year. If the City changes its fiscal year, it will notify the MSRB of the change.

Disclosure Event Notices

The City shall notify the MSRB, in a timely manner not in excess of 10 Business Days after the occurrence of the event, of any of the following events with respect to the Obligations: (1) principal and interest payment delinquencies; (2) non-payment related defaults, if material; (3) unscheduled draws on debt service reserves reflecting financial difficulties; (4) unscheduled draws on credit enhancements reflecting financial difficulties; (5) substitution of credit or liquidity providers, or their failure to perform; (6) adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB) or other material notices or determinations with respect to the tax status of the Obligations, or other material events affecting the tax status of the Obligations; (7) modifications to rights of holders of the Obligations, if material; (8) Obligation calls, if material, and tender offers; (9) defeasances; (10) release, substitution, or sale of property securing repayment of the Obligations, if material; (11) rating changes; (12) bankruptcy, insolvency, receivership or similar event of the City or obligated person; (13) the consummation of a merger, consolidation, or acquisition involving the City or the sale of all or substantially all of the assets of the City, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if material; (14) appointment of a successor Paying Agent/Registrar or change in the name of the Paying Agent/Registrar, if material; (15) incurrence of a Financial Obligation of the City, if material, or agreement to covenants, events of default, remedies, priority rights, or other similar terms of a Financial Obligation of the City, any of which affect Obligation holders, if material; and (16) default, event of acceleration, termination event, modification of terms, or other similar events under the terms of a Financial Obligation of the City, any of which reflect financial difficulties. The City shall notify the MSRB, in a timely manner, of any failure by the City to provide financial information or operating data by the time required by each Ordinance and the related Pricing Certificate, as applicable. The City intends the words used in clauses (15) and (16) above and the definition of Financial Obligations to have the meaning ascribed to them in SEC release No. 34-83885, dated August 20, 2018. Neither the Obligations nor the Ordinances nor the Pricing Certificates make any provision for debt service reserves or liquidity enhancement.

As used in clause (12) above, the phrase “bankruptcy, insolvency, receivership or similar event” means the appointment of a receiver, fiscal agent or similar officer for the City in a proceeding under the U.S. Bankruptcy Code or in any other proceeding under state or federal law in which a court or governmental authority has assumed jurisdiction over substantially all of the assets or business of the City, or if jurisdiction has been assumed by leaving the City Council and officials or officers of the City in possession but subject to the supervision and orders of a court or governmental authority, or the entry of an order confirming a plan of reorganization, arrangement or liquidation by a court or governmental authority having supervision or jurisdiction over substantially all of the assets or business of the City. As used in clause 15 and clause 16, the term “Financial Obligation” means a: (i) debt obligation, (ii) derivative instrument entered into in connection with, or pledged as security or a source of payment for, an existing or planned debt obligation; or (iii) guarantee of (i) or (ii); provided that “Financial Obligation” shall not include municipal securities as to which a final official statement (as defined in the Rule) has been provided to the MSRB consistent with the Rule. The term “Business Day” means a day other than a Saturday, Sunday, a legal holiday, or a day on which banking institutions are authorized by law or executive order to close in the City or the city where the Designated Payment/Transfer Office of the Paying Agent/Registrar is located.

Availability of Information

In connection with its continuing disclosure agreement entered into with respect to the Obligations, the City will file all required information and documentation with the MSRB in electronic format and accompanied by such identifying information as prescribed by and in accordance with MSRB guidelines. Access to such filings will be provided, without charge to the general public, by the MSRB at www.emma.msrb.org.

Limitations and Amendments

The City has agreed to update information and to provide notices of certain events only as described above. The City has not agreed to provide other information that may be relevant or material to a complete presentation of its financial results of operations, condition, or prospects or agreed to update any information that is provided, except as described above. The City makes no representation or warranty concerning such information or concerning its usefulness to a decision to invest in or sell Obligations at any future date. The City disclaims any contractual or tort liability for damages resulting in whole or in part from any breach of its continuing disclosure agreement or from any statement made pursuant to its agreement, although holders of Obligations may seek a writ of mandamus to compel the City to comply with its agreement. No default by the City in observing or performing its obligations under its continuing disclosure undertaking for the Obligations shall constitute a breach of or default under the applicable Ordinance or the applicable Pricing Certificate for purposes of any other provision of the applicable Ordinance or the applicable Pricing Certificate.

The City may amend its continuing disclosure agreement for any series of Obligations from time to time to adapt to changed circumstances that arise from a change in legal requirements, a change in law, or a change in the identity, nature, status, or type of operations of the City, if (i) the agreement, as amended, would have permitted an underwriter to purchase or sell such Obligations in the offering described in this document in compliance with the Rule, taking into account any amendments or interpretations of the Rule to the date of such amendment, as well as such changed circumstances, and (ii) either (a) the holders of a majority in aggregate principal amount of the respective series of outstanding Obligations consent to the amendment or (b) any person unaffiliated with the City (such as nationally recognized bond counsel) determines that the amendment will not materially impair the interests of the holders and beneficial owners of the Obligations. The City may also amend or repeal the provisions of its continuing disclosure agreement for any series of Obligations if the SEC amends or repeals the applicable provisions of the Rule or a court of final jurisdiction enters judgment that such provisions of the Rule are invalid, but only if and to the extent that the provisions of this sentence would not prevent an underwriter from lawfully purchasing or selling such Obligations in the primary offering of the Obligations. If the City so amends the agreement, it has agreed to include with the next financial information and operating data provided in accordance with its agreement described above under “CONTINUING DISCLOSURE OF INFORMATION - Annual Reports” an explanation, in narrative form, of the reasons for the amendment and of the impact of any change in the type of financial information and operating data so provided.

Compliance with Prior Undertakings

With respect to the City’s continuing disclosure agreement regarding the Rental Car Special Facility Revenue Bonds, the City failed to file rating upgrades from Moody’s and Fitch within the ten day window which started on July 10, 2015 and August 17, 2016, respectively. The City filed the event notices with respect to the ratings upgrade on December 14, 2016. The failure to file the ratings upgrade in a timely manner was also filed on the same date. With respect to the continuing

disclosure agreement entered into by Austin-Bergstrom Landhost Enterprise (“ABLE”), with respect to its Series 1999A & 1999B Bonds, ABLE did not file its financial statements by the June 30 deadline for Fiscal Year December 31, 2015. The financial statements were filed on July 19, 2016 and the failure to file notice was posted on September 1, 2017. The referenced ABLE bonds are no longer outstanding. With respect to the City’s continuing disclosure reports regarding its outstanding Airport System Revenue Bonds, the City determined that a table had transposed years in the presentation of data in such report that was filed in 2015, and the City filed corrected information for such table on May 8, 2015. With respect to the City’s continuing disclosure reports regarding its outstanding Combined Utility Revenue Bonds, Water and Wastewater System Revenue Bonds, and Electric Utility System Revenue Bonds, on April 25, 2016, the City filed updated financial information and operating data to reflect audited financial information as well as updated information in the “Comparative Analysis of Electric Utility System and Water and Wastewater System Operations,” “Operating Statement Electric Utility System and Water and Wastewater System” and “The Electric Utility System and Water and Wastewater System (Plant Cost and Equity in Utility Systems)” tables previously filed. On February 3, 2017, the City filed a ratings upgrade notice for the Prior First-Lien Combined Electric, Water and Wastewater Revenue Bonds, which took place on July 1, 2015. The failure to file the ratings upgrade in a timely manner was also filed on the same date. On June 30, 2017, the City filed updated financial information and operating data to reflect Fiscal Year 2016 information on the first page of the “Water Service Rates” table. The City has implemented procedures to ensure timely filing of all future financial information and event notices and will continue to provide updates to the financial information and operating data as changes occur.

[The remainder of this page is intentionally left blank.]

TAX MATTERS

Certain Federal Income Tax Considerations

The following discussion is a summary of certain expected material federal income tax consequences of the purchase, ownership and disposition of the Obligations and is based on the Internal Revenue Code of 1986 (the “Code”), the regulations promulgated thereunder, published rulings and pronouncements of the Internal Revenue Service (“IRS”) and court decisions currently in effect. There can be no assurance that the IRS will not take a contrary view, and no ruling from the IRS, has been, or is expected to be, sought on the issues discussed herein. Any subsequent changes or interpretations may apply retroactively and could affect the opinion and summary of federal income tax consequences discussed herein.

The following discussion is not a complete analysis or description of all potential U.S. federal tax considerations that may be relevant to, or of the actual tax effect that any of the matters described herein will have on, particular holders of the Obligations and does not address U.S. federal gift or estate tax or (as otherwise stated herein) the alternative minimum tax, state, local or other tax consequences. This summary does not address special classes of taxpayers (such as partnerships, or other pass-thru entities treated as a partnerships for U.S. federal income tax purposes, S corporations, mutual funds, insurance companies, financial institutions, small business investment companies, regulated investment companies, real estate investment trusts, grantor trusts, former citizens of the U.S., broker-dealers, traders in securities and tax-exempt organizations, individual recipients of Social Security or Railroad Retirement benefits, taxpayers who may be subject to branch profits tax or personal holding company provisions of the Code or taxpayers qualifying for the health insurance premium assistance credit) that are subject to special treatment under U.S. federal income tax laws, or persons that hold Obligations as a hedge against, or that are hedged against, currency risk or that are part of hedge, straddle, conversion or other integrated transaction, or persons whose functional currency is not the “U.S. dollar”. This summary is further limited to investors who will hold the Obligations as “capital assets” (generally, property held for investment) within the meaning of section 1221 of the Code. This discussion is based on existing statutes, regulations, published rulings and court decisions, all of which are subject to change or modification, retroactively.

As used herein, the term “U.S. Holder” means a beneficial owner of an Obligation who or which is: (i) an individual citizen or resident of the United States, (ii) a corporation or partnership created or organized under the laws of the United States or any political subdivision thereof or therein, (iii) an estate, the income of which is subject to U.S. federal income tax regardless of the source; or (iv) a trust, if (a) a court within the U.S. is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (b) the trust validly elects to be treated as a U.S. person for U.S. federal income tax purposes. As used herein, the term “Non-U.S. Holder” means a beneficial owner of an Obligation that is not a U.S. Holder.

THIS SUMMARY IS INCLUDED HEREIN FOR GENERAL INFORMATION ONLY AND DOES NOT DISCUSS ALL ASPECTS OF THE U.S. FEDERAL INCOME TAXATION THAT MAY BE RELEVANT TO A PARTICULAR HOLDER OF OBLIGATIONS IN LIGHT OF THE HOLDER'S PARTICULAR CIRCUMSTANCES AND INCOME TAX SITUATION. PROSPECTIVE HOLDERS OF THE OBLIGATIONS SHOULD CONSULT THEIR OWN TAX ADVISORS AS TO THE TAX TREATMENT WHICH MAY BE ANTICIPATED TO RESULT FROM THE PURCHASE, OWNERSHIP AND DISPOSITION OF THE OBLIGATIONS BEFORE DETERMINING WHETHER TO PURCHASE OBLIGATIONS. THE FOLLOWING DISCUSSION IS NOT INTENDED OR WRITTEN TO BE USED TO AVOID PENALTIES THAT MIGHT BE IMPOSED ON THE TAXPAYER IN CONNECTION WITH THE MATTERS DISCUSSED THEREIN. INVESTORS SHOULD CONSULT THEIR OWN TAX ADVISORS CONCERNING THE TAX IMPLICATIONS OF RECENTLY ENACTED LEGISLATION OR THE PURCHASE, OWNERSHIP OR DISPOSITION OF THE OBLIGATIONS UNDER APPLICABLE STATE OR LOCAL LAWS, OR ANY OTHER TAX CONSEQUENCE.

FOREIGN INVESTORS SHOULD ALSO CONSULT THEIR OWN TAX ADVISORS REGARDING THE TAX CONSEQUENCES UNIQUE TO NON-U.S. HOLDERS.

Information Reporting and Backup Withholding

Subject to certain exceptions, information reports describing interest income, including original issue discount, with respect to the Obligations will be sent to each registered holder and to the IRS. Payments of interest and principal may be subject

to withholding under sections 1471 through 1474 or backup withholding under section 3406 of the Code if a recipient of the payments fails to furnish to the payor such owner's social security number or other taxpayer identification number ("TIN"), furnishes an incorrect TIN, or otherwise fails to establish an exemption from the withholding or backup withholding tax. Any amounts so withheld would be allowed as a credit against the recipient's federal income tax. Special rules apply to partnerships, estates and trusts, and in certain circumstances, and in respect of Non-U.S. Holders, certifications as to foreign status and other matters may be required to be provided by partners and beneficiaries thereof.

Tax-Exempt Obligations

Opinion

On the date of initial delivery of the Tax-Exempt Obligations, McCall, Parkhurst & Horton L.L.P., Bond Counsel to the City, will render its opinion that, in accordance with statutes, regulations, published rulings and court decisions existing on the date thereof ("Existing Law"), (1) for federal income tax purposes, interest on the Tax-Exempt Obligations of each series will be excludable from the "gross income" of the holders thereof and (2) the Tax-Exempt Obligations of each series will not be treated as "specified private activity bonds" the interest on which would be included as an alternative minimum tax preference item under section 57(a)(5) of the Code. Except as stated above, Bond Counsel to the City will express no opinion as to any other federal, state or local tax consequences of the purchase, ownership or disposition of the Tax-Exempt Obligations. See "APPENDIX C -- FORMS OF BOND COUNSEL'S OPINIONS" in this document.

In rendering its opinion, Bond Counsel to the City will rely upon (a) certain information and representations of the City, including information and representations contained in the City's federal tax certificate related to the Tax-Exempt Obligations, and (b) covenants of the City contained in the Tax-Exempt Obligation documents relating to certain matters, including arbitrage and the use of the proceeds of the Tax-Exempt Obligations and the property financed or refinanced therewith. Failure by the City to observe the aforementioned representations or covenants could cause the interest on the Tax-Exempt Obligations to become taxable retroactively to the date of issuance. In addition, with respect to the Bonds, Bond Counsel to the City will rely upon the report of Robert Thomas CPA, LLC, certified public accountants, reporting calculation of yield on the Bonds and the Refunded Obligations; see "VERIFICATION OF MATHEMATICAL CALCULATIONS" in this document.

The Code and the regulations promulgated thereunder contain a number of requirements that must be satisfied subsequent to the issuance of the Tax-Exempt Obligations in order for interest on the Tax-Exempt Obligations to be, and to remain, excludable from gross income for federal income tax purposes. Failure to comply with such requirements may cause interest on the Tax-Exempt Obligations to be included in gross income retroactively to the date of issuance of the Tax-Exempt Obligations. The opinion of Bond Counsel to the City is conditioned on compliance by the City with such requirements, and Bond Counsel to the Issuer has not been retained to monitor compliance with these requirements subsequent to the issuance of the Tax-Exempt Obligations.

Bond Counsel's opinion regarding the Tax-Exempt Obligations represents its legal judgment based upon its review of Existing Law and the reliance on the aforementioned information, representations and covenants. Bond Counsel's opinion related to the Tax-Exempt Obligations is not a guarantee of a result. Existing Law is subject to change by the Congress and to subsequent judicial and administrative interpretation by the courts and the Department of the Treasury. There can be no assurance that Existing Law or the interpretation thereof will not be changed in a manner which would adversely affect the tax treatment of the purchase, ownership or disposition of the Tax-Exempt Obligations.

A ruling was not sought from the IRS by the Issuer with respect to the Tax-Exempt Obligations or property financed or refinanced with the proceeds of the Tax-Exempt Obligations. No assurances can be given as to whether or not the IRS will commence an audit of the Tax-Exempt Obligations, or as to whether the IRS would agree with the opinion of Bond Counsel. If an audit is commenced, under current procedures the IRS is likely to treat the City as the taxpayer and the holders may have no right to participate in such procedure. No additional interest will be paid upon any determination of taxability.

Federal Income Tax Accounting Treatment of Original Issue Discount

The initial public offering price to be paid for one or more maturities of the Tax-Exempt Obligations may be less than the principal amount thereof or one or more periods for the payment of interest on the Obligations may not be equal to the accrual period or be in excess of one year (the "Original Issue Discount Obligations"). In such event, the difference

between (i) the “stated redemption price at maturity” of each Original Issue Discount Obligation, and (ii) the initial offering price to the public of such Original Issue Discount Obligation would constitute original issue discount. The “stated redemption price at maturity” means the sum of all payments to be made on the bonds less the amount of all periodic interest payments. Periodic interest payments are payments which are made during equal accrual periods (or during any unequal period if it is the initial or final period) and which are made during accrual periods which do not exceed one year.

Under Existing Law, any U.S. Holder who has purchased a Tax-Exempt Obligation as an Original Issue Discount Obligation in the initial public offering is entitled to exclude from gross income (as defined in section 61 of the Code) an amount of income with respect to such Original Issue Discount Obligation equal to that portion of the amount of such original issue discount allocable to the accrual period. For a discussion of certain collateral federal tax consequences, see discussion set forth below. In the event of the redemption, sale or other taxable disposition of such Original Issue Discount Obligation prior to stated maturity, however, the amount realized by such U.S. Holder in excess of the basis of such Original Issue Discount Obligation in the hands of such U.S. Holder (adjusted upward by the portion of the original issue discount allocable to the period for which such Original Issue Discount Obligation was held by such initial owner) is includable in gross income.

Under Existing Law, the original issue discount on each Original Issue Discount Obligation is accrued daily to the stated maturity thereof (in amounts calculated as described below for each accrual period and ratably within each such accrual period) and the accrued amount is added to an initial owner's basis for such Original Issue Discount Obligation for purposes of determining the amount of gain or loss recognized by such owner upon the redemption, sale or other disposition thereof. The amount to be added to basis for each accrual period is equal to (a) the sum of the issue price and the amount of original issue discount accrued in prior periods multiplied by the yield to stated maturity (determined on the basis of compounding at the close of each accrual period and properly adjusted for the length of the accrual period) less (b) the amounts payable as current interest during such accrual period on such Original Issue Discount Obligation.

All U.S. Holders of Original Issue Discount Obligations should consult their own tax advisors with respect to the determination for federal, state and local income tax purposes of the treatment of interest accrued upon redemption, sale or other disposition of such Original Issue Discount Obligations and with respect to the federal, state, local and foreign tax consequences of the purchase, ownership, redemption, sale or other disposition of such Original Issue Discount Obligations.

Collateral Federal Income Tax Consequences

Under section 6012 of the Code, U.S. Holders of tax-exempt obligations, such as the Tax-Exempt Obligations, may be required to disclose interest received or accrued during each taxable year on their returns of federal income taxation.

Section 1276 of the Code provides for ordinary income tax treatment of gain recognized upon the disposition of a tax-exempt obligation, such as the Tax-Exempt Obligations, if such obligation was acquired at a “market discount” and if the fixed maturity of such obligation is equal to, or exceeds, one year from the date of issue. Such treatment applies to “market discount bonds” to the extent such gain does not exceed the accrued market discount of such bonds; although for this purpose, a de minimis amount of market discount is ignored. A “market discount bond” is one which is acquired by the holder at a purchase price which is less than the stated redemption price at maturity or, in the case of a bond issued at an original issue discount, the “revised issue price” (i.e., the issue price plus accrued original issue discount). The “accrued market discount” is the amount which bears the same ratio to the market discount as the number of days during which the holder holds the obligation bears to the number of days between the acquisition date and the final maturity date.

Future and Proposed Legislation

Tax legislation, administrative actions taken by tax authorities, or court decisions, whether at the Federal or state level, may adversely affect the tax-exempt status of interest on the Tax-Exempt Obligations under Federal or state law and could affect the market price or marketability of the Tax-Exempt Obligations. Any such proposal could limit the value of certain deductions and exclusions, including the exclusion for tax-exempt interest. The likelihood of any such proposal being enacted cannot be predicted. Prospective purchasers of the Tax-Exempt Obligations should consult their own tax advisors regarding the foregoing matters.

Taxable Obligations

Certain U.S. Federal Income Tax Consequences to U.S. Holders

Periodic Interest Payments and Original Issue Discount. The Taxable Obligations are not obligations described in section 103(a) of the Code. Accordingly, the stated interest paid on the Taxable Obligations or original issue discount, if any, accruing on the Taxable Obligations will be includable in “gross income” within the meaning of section 61 of the Code of each owner thereof and be subject to federal income taxation when received or accrued, depending upon the tax accounting method applicable to such owner.

Disposition of Taxable Obligations. An owner will recognize gain or loss on the redemption, sale, exchange or other disposition of a Bond equal to the difference between the redemption or sale price (exclusive of any amount paid for accrued interest) and the owner's tax basis in the Taxable Obligations. Generally, a U.S. Holder's tax basis in the Taxable Obligations will be the owner's initial cost, increased by income reported by such U.S. Holder, including original issue discount and market discount income, and reduced, but not below zero, by any amortized premium. Any gain or loss generally will be a capital gain or loss and either will be long-term or short-term depending on whether the Taxable Obligations has been held for more than one year.

Defeasance of the Taxable Obligations. Defeasance of any Taxable Obligation may result in a reissuance thereof, for U.S. federal income tax purposes, in which event a U.S. Holder will recognize taxable gain or loss as described above.

State, Local and Other Tax Consequences. Investors should consult their own tax advisors concerning the tax implications of holding and disposing of the Taxable Obligations under applicable state or local laws, or any other tax consequence, including the application of gift and estate taxes. Certain individuals, estates or trusts may be subject to a 3.8% surtax on all or a portion of the taxable interest that is paid on the Taxable Obligations. PROSPECTIVE PURCHASERS OF THE TAXABLE OBLIGATIONS SHOULD CONSULT THEIR OWN TAX ADVISORS REGARDING THE FOREGOING MATTERS

Certain U.S. Federal Income Tax Consequences to Non-U.S. Holders

A Non-U.S. Holder that is not subject to U.S. federal income tax as a result of any direct or indirect connection to the U.S. in addition to its ownership of a Taxable Obligation, will not be subject to U.S. federal income or withholding tax in respect of such Taxable Obligation, provided that such Non-U.S. Holder complies, to the extent necessary, with identification requirements including delivery of a signed statement under penalties of perjury, certifying that such Non-U.S. Holder is not a U.S. person and providing the name and address of such Non-U.S. Holder. Absent such exemption, payments of interest, including any amounts paid or accrued in respect of accrued original issue discount, may be subject to withholding taxes, subject to reduction under any applicable tax treaty. Non-U.S. Holders are urged to consult their own tax advisors regarding the ownership, sale or other disposition of a Taxable Obligation.

The foregoing rules will not apply to exempt a U.S. shareholder of a controlled foreign corporation from taxation on the U.S. shareholder's allocable portion of the interest income received by the controlled foreign corporation.

VERIFICATION OF MATHEMATICAL CALCULATIONS

Robert Thomas CPA, LLC (the “Verification Agent”), a firm of independent certified public accountants, upon delivery of the Bonds, will deliver to the City its report indicating that it has examined the mathematical accuracy of computations prepared by PFM relating to the sufficiency of the payments on the Escrowed Securities and cash to be deposited in the Escrow Fund.

The report of the Verification Agent will include the statement that the scope of its engagement was limited to verifying the mathematical accuracy of the computations contained in such schedules provided to it and that it has no obligation to update its report because of events occurring, or data or information coming to their attention, subsequent to the date of their report. The report of the Verification Agent will be relied upon by Bond Counsel in rendering its opinions with respect to the exclusion of interest on the Bonds for federal income tax purposes and with respect to the defeasance of the Refunded Obligations.

OTHER RELEVANT INFORMATION

Ratings

Each series of Obligations received ratings of “___” from Moody’s Investors Service, Inc. (“Moody’s”), “___” from S&P Global Ratings, a S&P Global Ratings Financial Services LLC business (“S&P”), and “___” from Fitch Ratings, Inc. (“Fitch”). An explanation of the significance of such ratings may be obtained from the company furnishing the rating. The ratings reflect only the respective views of such organizations and the City makes no representation as to the appropriateness of the ratings. There is no assurance that such ratings will continue for any given period of time or that they will not be revised downward or withdrawn entirely by such rating companies, if in the judgment of one or all such companies, circumstances so warrant. Any such downward revision or withdrawal of such ratings, or by any one of them, may have an adverse effect on the market price and marketability of the Obligations. Except as provided under “CONTINUING DISCLOSURE OF INFORMATION – Disclosure Event Notices” in this document, the City will undertake no responsibility to notify the owners of the Obligations of any such revisions or withdrawal of ratings.

Litigation

A number of claims against the City, as well as certain other matters of litigation, are pending with respect to various matters arising in the normal course of the City’s operations. The City Attorney and the City Management are of the opinion that resolution of the claims pending (including the matter described below) will not have a material effect on the City’s financial condition.

Electric Utility System Litigation

On May 3, 2017, Data Foundry, Inc., filed a lawsuit against the City (Cause No. D-1-GN-17-000937 in the 419th Judicial District Court of Travis County, Texas), alleging that the ERCOT nodal market design disqualifies the City’s electric generation assets from being considered as used and useful for the purpose of establishing rates for electric service to the City’s retail customers, and otherwise challenging the reasonableness of the City’s rate of return and debt service coverage levels. The lawsuit seeks declaratory relief that the City’s current retail electric rates are unlawful due to the inclusion of costs and return related to generation assets, and seeks a permanent injunction against the City’s establishing electric rates that include costs and return related to generation assets and operations. The City filed a motion to dismiss the case under Rule 91(a) of the Texas Rules of Civil Procedure. The case was dismissed by the trial court on November 27, 2017 on the basis that the plaintiff lacked standing to bring a lawsuit challenging the City’s rates. Data Foundry appealed the trial court’s decision to the 14th Court of Appeals in Houston (Cause No. 14-18-00071-CV). On April 23, 2019, the appellate court partially upheld the trial court’s dismissal of the case, holding that the City’s inclusion of generation costs in retail rates was proper and dismissing other claims, but remanded the remainder of the case on the grounds that municipal utility ratepayers have general standing to bring suit alleging the excessiveness of utility rates.

Registration and Qualification

The sale of the Obligations has not been registered under the Federal Securities Act of 1933, as amended, in reliance upon the exemption provided thereunder by Section 3(a)(2); and the Obligations have not been qualified under the Securities Act of Texas in reliance upon various exemptions contained in the Securities Act of Texas; nor have the Obligations been qualified under the securities acts of any jurisdiction. The City assumes no responsibility for qualification of the Obligations under the securities laws of any jurisdiction in which the Obligations may be sold, assigned, pledged, hypothecated or otherwise transferred. This disclaimer of responsibility for qualification for sale or other disposition of the Obligations shall not be construed as an interpretation of any kind with regard to the availability of any exemption from securities registration provisions.

Legal Investments and Eligibility to Secure Public Funds in Texas

Under the Texas Public Security Procedures Act (Texas Government Code, Chapter 1201), the Obligations are (i) negotiable instruments, (ii) investment securities to which Chapter 8 of the Texas Uniform Commercial Code applies, and (iii) legal and authorized investments for (A) an insurance company, (B) a fiduciary or trustee, or (C) a sinking fund of a municipality or other political subdivision or public agency of the State of Texas. The Obligations are eligible to secure deposits of any public funds of the State, its agencies and political subdivisions, and are legal security for those deposits to the extent of their market value. For political subdivisions in Texas which have adopted investment policies and guidelines in accordance with the PFIA, the Obligations may have to be assigned a rating of at least “A” or its equivalent as to

investment quality by a national rating agency before such obligations are eligible investments for sinking funds and other public funds. In addition, various provisions of the Texas Finance Code provide that, subject to a prudent investor standard, the Obligations are legal investments for state banks, savings banks, trust companies with at least \$1 million of capital and savings and loan associations.

The City has made no investigation of other laws, rules, regulations or investment criteria which might apply to such institutions or entities or which might limit the suitability of the Obligations for any of the foregoing purposes or limit the authority of such institutions or entities to purchase or invest in the Obligations for such purposes. The City has made no review of laws in other states to determine whether the Obligations are legal investments for various institutions in those states.

Legal Matters

The delivery of each series of the Obligations is subject to the approval of the Attorney General of Texas to the effect that such Obligations are valid and legally binding obligations of the City payable from the sources and in the manner described in this document and in the respective Ordinances and the approving legal opinions of Bond Counsel. The forms of Bond Counsel's opinions are attached to this document in APPENDIX C. The legal fee to be paid Bond Counsel for services rendered in connection with the issuance of the Obligations is contingent upon the sale and delivery of the Obligations. The legal opinions of Bond Counsel will accompany the Obligations deposited with DTC or will be printed on the definitive Obligations in the event of the discontinuance of the Book-Entry-Only System. In addition, certain legal matters will be passed upon (i) for the City by Bracewell LLP, disclosure counsel for the City, and (ii) for the Underwriters by Haynes and Boone, LLP, counsel to the Underwriters. The legal fees of such firms are contingent upon the sale and delivery of the Obligations.

Bond Counsel was not requested to participate, and did not take part, in the preparation of the Official Statement, and such firm has not assumed any responsibility for this Official Statement or undertaken independently to verify any of the information contained in it, except that, in their capacity as Bond Counsel, such firm has reviewed the information in the Official Statement under the captions, "OBLIGATION INFORMATION" (except for the information under the subheadings "Remedies" and "Book-Entry-Only System"), "TAX MATTERS", "CONTINUING DISCLOSURE OF INFORMATION" (except for the information under the subheading "Compliance with Prior Undertakings"), "OTHER RELEVANT INFORMATION – Registration and Qualification," "OTHER RELEVANT INFORMATION – Legal Investments and Eligibility to Secure Public Funds in Texas" and "OTHER RELEVANT INFORMATION – Legal Opinions," and in APPENDIX C to verify that the information relating to the Obligations and the Ordinances in all respects accurately and fairly reflects the provisions thereof and, insofar as such information relates to matters of law, is true and accurate. The legal fee to be paid Bond Counsel for services rendered in connection with the issuance of the Obligations is contingent on the delivery of the Obligations. The opinion of Bond Counsel will accompany the global certificate deposited with DTC in connection with the use of the Book-Entry-Only System.

The legal opinions to be delivered concurrently with the delivery of the Obligations express the professional judgment of the attorneys rendering the opinions as to the legal issues expressly addressed in those opinions. In rendering a legal opinion, the attorney does not become an insurer or guarantor of the expression of professional judgment, of the transaction opined upon, or of the future performance of the parties to the transaction, nor does the rendering of an opinion guarantee the outcome of any legal dispute that may arise from the transaction.

Financial Advisor

PFM Financial Advisors LLC ("PFM"), Austin, Texas, is employed as Financial Advisor to the City in connection with the issuance, sale and delivery of the Obligations. The payment of the fee for services rendered by PFM with respect to the sale of the Obligations is contingent upon the issuance and delivery of the Obligations. PFM, in its capacity as Financial Advisor, has not verified and does not assume any responsibility for the information, covenants and representations contained in any of the bond documentation with respect to the federal income tax status of the Obligations.

Independent Auditors

The financial data listed as fiscal year 2019 has been derived from the unaudited internal records of the City. The City's independent auditors have not reviewed, examined, or performed any procedures with respect to the unaudited financial information, nor the forward-looking financial information, nor have they expressed any opinion or any other form of assurance on such information, and assume no responsibility for, and disclaim any association with the unaudited financial

information. The unaudited information is preliminary and is subject to change as a result of the audit and may differ from the audited financial statements when they are released.

The financial statements of the City included in APPENDIX B to this Official Statement have been audited by Deloitte & Touche LLP, independent auditors, to the extent and for the period indicated in their report.

Underwriting

The Underwriters have agreed, subject to certain customary conditions to delivery, to purchase the Bonds from the City at a price equal to the initial offering prices shown on page ii of this Official Statement, less an underwriting discount of \$_____. The Underwriters will be obligated to purchase all of the Bonds if any Bonds are purchased. The Bonds may be offered and sold to certain dealers and others at prices lower than such public offering prices, and such public prices may be changed, from time to time, by the Underwriters.

The Underwriters have agreed, subject to certain customary conditions to delivery, to purchase the Certificates from the City at a price equal to the initial offering prices shown on page ii of this Official Statement, less an underwriting discount of \$_____. The Underwriters will be obligated to purchase all of the Certificates if any Certificates are purchased. The Certificates may be offered and sold to certain dealers and others at prices lower than such public offering prices, and such public prices may be changed, from time to time, by the Underwriters.

The Underwriters have agreed, subject to certain customary conditions to delivery, to purchase the Contractual Obligations from the City at a price equal to the initial offering prices shown on page ii of this Official Statement, less an underwriting discount of \$_____. The Underwriters will be obligated to purchase all of the Contractual Obligations if any Contractual Obligations are purchased. The Contractual Obligations may be offered and sold to certain dealers and others at prices lower than such public offering prices, and such public prices may be changed, from time to time, by the Underwriters.

The Underwriters have agreed, subject to certain customary conditions to delivery, to purchase the Taxable Bonds from the City at a price equal to the initial offering prices shown on page iii of this Official Statement, less an underwriting discount of \$_____. The Underwriters will be obligated to purchase all of the Taxable Bonds if any Taxable Bonds are purchased. The Taxable Bonds may be offered and sold to certain dealers and others at prices lower than such public offering prices, and such public prices may be changed, from time to time, by the Underwriters.

The Underwriters have agreed, subject to certain customary conditions to delivery, to purchase the Taxable Certificates from the City at a price equal to the initial offering prices shown on page iii of this Official Statement, less an underwriting discount of \$_____. The Underwriters will be obligated to purchase all of the Taxable Certificates if any Taxable Certificates are purchased. The Taxable Certificates may be offered and sold to certain dealers and others at prices lower than such public offering prices, and such public prices may be changed, from time to time, by the Underwriters.

The Underwriters have provided the following sentence for inclusion in this Official Statement. The Underwriters have reviewed the information in this Official Statement in accordance with, and as part of, their responsibilities to investors under federal securities laws as applied to the facts and circumstances of this transaction, but the Underwriters do not guarantee the accuracy or completeness of such information.

The Underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment management, investment research, principal investment, hedging, market making, brokerage and other financial and non-financial activities and services. Certain of the Underwriters and their respective affiliates have provided, and may in the future provide, a variety of these services to the City and to persons and entities with relationships with the City, for which they received or will receive customary fees and expenses.

In the ordinary course of their various business activities, the Underwriters and their respective affiliates, officers, directors and employees may purchase, sell or hold a broad array of investments and actively trade securities, derivatives, loans, commodities, currencies, credit default swaps and other financial instruments for their own account and for the accounts of their customers, and such investment and trading activities may involve or relate to assets, securities and/or instruments of the City (directly, as collateral securing other obligations or otherwise) and/or persons and entities with relationships with the City. The Underwriters and their respective affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such

assets, securities or instruments and may at any time hold, or recommend to clients that they should acquire, long and/or short positions in such assets, securities and instruments.

Piper Jaffray & Co., one of the underwriters of the Bonds, has entered into a distribution agreement (“Distribution Agreement”) with Charles Schwab & Co., Inc. (“CS&Co”) for the retail distribution of certain securities offerings including the Bonds, at the original issue prices. Pursuant to the Distribution Agreement, CS&Co. will purchase Bonds from Piper at the original issue price less a negotiated portion of the selling concession applicable to any Bonds that CS&Co. sells.

Forward - Looking Statements

The statements contained in this Official Statement and in any other information provided by the City that are not purely historical are forward-looking statements, including statements regarding the City’s expectations, hopes, intentions, or strategies regarding the future. Readers should not place undue reliance on forward-looking statements. All forward-looking statements included in this Official Statement are based on information available to the City on the date hereof, and the City assumes no obligation to update any such forward-looking statements. It is important to note that the City’s actual results could differ materially from those in such forward-looking statements.

The forward-looking statements included in this document are necessarily based on various assumptions and estimates and are inherently subject to various risks and uncertainties, including risks and uncertainties relating to the possible invalidity of the underlying assumptions and estimates and possible changes or developments in social, economic, business, industry, market, legal, and regulatory circumstances and conditions and actions taken or omitted to be taken by third parties, including customers, suppliers, business partners, and competitors, and legislative, judicial, and other governmental authorities and officials.

Assumptions related to the foregoing involve judgments with respect to, among other things, future economic, competitive, and market conditions and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond the control of the City. Any of such assumptions could be inaccurate and, therefore, there can be no assurance that the forward-looking statements included in this Official Statement will prove to be accurate.

Authenticity of Financial Data and Other Information

The financial data and other information contained in this document have been obtained from the City’s records, audited financial statements and other sources which are believed to be reliable. There is no guarantee that any of the assumptions or estimates will be realized. All of the summaries of the statutes, documents and resolutions contained in this document are made subject to all of the provisions of such statutes, documents and resolutions. These summaries do not purport to be complete statements of such provisions and reference is made to such documents for further information. Reference is made to original documents in all respects.

Approval of the Official Statement

This Official Statement, and the execution and delivery of this Official Statement, was approved and authorized by each of the Ordinances adopted by the City Council on _____, 2019.

Mayor
City of Austin, Texas

ATTEST:

City Clerk
City of Austin, Texas

[The remainder of this page is purposefully left blank.]

APPENDIX A

GENERAL INFORMATION REGARDING THE CITY

GENERAL INFORMATION

The City of Austin (the “City”), chartered in 1839, has a Council-Manager form of government with a Mayor who is elected at large and ten Councilmembers who are elected by geographic district. The City Manager, appointed by the City Council, is responsible to the City Council for the management of all City employees and administration of all City affairs.

The City, which is the capital of Texas, is the fourth largest city in the state—behind Houston, Dallas, and San Antonio—and the eleventh largest in the nation, with, according to the City’s estimates, a September 2018 population of 963,797. Over the past ten years, Austin’s population has increased by approximately 25.1%, or 193,501 residents. Geographically, the City consists of approximately 326 square miles. The current estimated median household income for residents of the City is \$63,191 according to Nielsen SiteReports. The City’s per capita income is estimated to be \$57,600.

The City offers several broad-ranged educational opportunities for those individuals with a desire to learn. Austin is a highly educated city, with 49% of adults twenty-five years or older holding a bachelor’s or advanced degree, compared to 29% for Texas and 31% for the U.S. as a whole. Higher education is a significant aspect of life in the Austin area, which is host to six universities, a robust community college system, and numerous other institutions of higher learning. The University of Texas at Austin (UT), the seventh largest public university in the nation, is known as a world-class center of education and research and was ranked 15th among public universities in the 2018 U.S. News and World Report Best Colleges survey of undergraduate programs.

The City is nationally recognized as a great place to live due in part to its diverse, educated and eclectic population, as well as its promotion of a year-round outdoor active lifestyle. The City draws its special character from its physical setting along the Balcones Escarpment, wedged between coastal plains and dramatic cliffs, canyons, and juniper-carpeted rolling hills. Austin’s quality of life has become a critical economic development engine, and the City’s diverse demographic structure serves to support and enrich its quality of life.

Major Initiatives

The City has a long-term vision of Austin being the most livable community in the country. The City has a highly dedicated and exceptional workforce to support City Council’s policies and initiatives. City staff are committed to creating a work environment that fosters creative thinking and innovation throughout the organization, thereby better positioning the workforce to more effectively respond to new challenges as well as new opportunities. City employees take enormous pride in their work.

Imagine Austin – Austin residents share a sense of community pride and a determination that the City’s vision is not just a slogan, but a reality for everyone who lives here. *Imagine Austin*, a comprehensive plan for the City’s future, sets a context to guide decision-makers for the next 30 years. The plan adheres to 6 core principles established in collaboration with Austin citizens:

- Grow as a compact, connected city
- Integrate nature into the city
- Provide paths to prosperity for all
- Develop as an affordable and healthy community
- Sustainably manage water, energy, and other environmental resources
- Think creatively and work together

The plan’s success is monitored annually with performance metrics and will be formally assessed at least every five years. During the development of both the annual and capital improvement budgets, *Imagine Austin*, is a consideration in how resources are allocated.

Strategic Plan – In addition to Imagine Austin, in the spring of 2017 the City Council selected six strategic outcomes to help develop and guide City policies, initiatives, and budget development. The six strategic outcomes are:

- Mobility - getting us where we want to go, when we want to get there, safely and cost effectively;
- Economic Opportunity and Affordability - having economic opportunities and resources that enable us to thrive in our community;
- Safety - being safe in our home, at work, and in our community;
- Health - enjoying a sustainable environment and a healthy life, physically and mentally;
- Cultural and Learning Opportunities - being enriched by Austin's unique civic, cultural, ethnic, and learning opportunities; and
- Government that Works for All of Us - believing that city government works effectively and collaboratively for all of us--that is equitable, ethical and innovative.

Mobility – In November 2016, voters approved the City's \$720 million general obligation bond proposition to fund transportation and mobility improvements. Approximately two-thirds of the funding will be devoted to corridor improvement projects with the remainder earmarked for regional and local improvements including bicycle and pedestrian facilities and safety. The capital spending plan for 2019 includes \$67.7 million for mobility projects including sidewalks, bike lanes, urban trails, and the Corridor Construction Program improvements. Progress continues on several joint interchange projects along Interstate 35 with the Texas Department of Transportation, one of the City's regional partners. An additional \$160 million in bond funding was approved by city-wide election in November 2018, which will fund a number of transportation projects including a replacement for one of the bridges over Lady Bird Lake. In addition to capital projects, the City is undergoing a pilot program for licensing dockless scooters and bicycles to improve mobility in the central city. Over 15,000 scooters have been licensed by nine companies in Austin's core neighborhoods and downtown.

Economic Opportunity and Affordability – Affordability is a prime consideration as the City makes decisions that impact the citizens who live here and the businesses that operate here. For 2019 there were no base rate increases for five of the City's six rate assessing enterprise departments. This is significant, as there have been rate increases in at least two of these departments for each of the previous nine budget cycles.

Housing affordability is increasingly an issue in a region where housing costs have been rising at a brisk pace and the impact is felt the most by those in the service, music, and creative areas. Since 2007, the median sales price of a home increased almost 60% gradually pricing more and more families out of the home buying market. At a June 2018 City Council meeting, action was taken to increase the general homestead exemption from 8% to 10% of eligible property value. In the November 2018 bond election, voters approved \$250 million for planning, constructing and renovating affordable housing facilities for low- and moderate-income residents. Additionally, the current budget fully funds the Housing Trust Fund for the first time, enabling the City to reach income-restricted affordable housing goals adopted in the Austin Strategic Housing Blueprint.

In the arena of economic opportunity, the Small and Minority Business Resources Department will conduct a new disparity study to examine the participation of women and minority-owned businesses in public sector contracting over the past several years. Results of the study will form the basis of the MBE/WBE Procurement Program.

Safety – The 2019 budget includes 6 additional Airport Police officers, 16 sworn fire personnel, funding for 27 additional APD officers, and two new fire stations. Austin's Fire Department responds to approximately 87,000 incidents per year. The department's goal is to reach each emergency location within 8 minutes of call receipt. As the City develops and expands, this goal is an increasing challenge. In response, completion of a new fire station and design work on two others is slated for FY 2019. In tandem with the pilot program to license dockless mobility devices previously mentioned, Austin Health is working with the Centers for Disease Control to conduct a safety study, the first of its kind in the nation. Results of the study will be used to make recommendations for safe usage of the new technology.

Health & Environment – Reducing reliance on traditional higher-polluting fuel sources is behind the \$220 million budgeted for Austin Energy to purchase more sustainable fuel sources in fiscal year 2019. Funding was provided for Austin Resource Recovery toward the purchase of vehicles for existing programs as well as vehicles and containers for expanding the curbside composting program, which is adding approximately 52,000 households in fiscal year 2019. In addition, several departments received recognition for their sustainability efforts:

- The new Central Library was awarded LEED Platinum status in July 2018. The platinum designation is the highest level of recognition awarded by the U.S. Green Building Council and only six commercial buildings have ever received it
- In July 2018, Austin Water received Platinum Certification from The Alliance for Water Efficiency for excellence in water conservation program operation and management.
- In October 2018, the Airports Council International awarded Austin Bergstrom International Airport a Level 2 Accreditation in its Airport Carbon Accreditation Program, which recognizes the airport's efforts in reducing its overall carbon footprint. In addition to participating in Austin Energy's GreenChoice® program for terminal operations, ABIA has replaced over 30 diesel powered vehicles with electric vehicles.

Cultural and Learning Opportunities – Established in fiscal year 2018, the Historic Preservation Fund was allocated additional funding from the Hotel-Motel Occupancy Tax in order to preserve, restore and rehabilitate historic structures city-wide. Also, the bond elections in November 2018 saw approval for \$128 million for development of community, cultural and creative arts facilities.

Government that Works – The five-year capital improvements spending plan includes \$1.1 billion in support of this priority, of which \$262.7 million is expected to be expended in 2019. The majority of funding supports maintenance of and upgrades to the City's electric and water and wastewater systems to ensure continued incremental improvement to the condition and quality of these crucial components of the City's infrastructure. Funding is also included for technological replacement and enhancement such as a new data center and conversion to a remote water meter reading system which uses cellular or radio transmission.

FINANCIAL INFORMATION

Internal Controls

City management is responsible for establishing, implementing, and maintaining a framework of internal controls designed to ensure that City assets are protected from loss, theft, or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with GAAP. The system of internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of control should not exceed the benefits likely to be derived, and the evaluation of costs and benefits requires estimates and judgments by management.

Financial Policies

The City has adopted a comprehensive set of Financial Policies to ensure that the City's financial resources are managed in a prudent manner and to provide a foundation for financial sustainability. Compliance with these policies is reviewed annually as part of the budget process. The policies and results of the review are published in the Approved Budget document. These policies dictate that current revenue will be sufficient to support current expenditures (defined as "structural balance"). Assigned and unassigned fund balances in excess of what is required shall normally be used to fund capital items in the operating and capital budgets. The City maintains the goal of a structurally balanced budget to achieve long-term financial stability for the Austin community.

City departments prepare a number of other long- and mid- range service plans that provide input into decisions made in the planning and budgeting process. These plans range from clean energy and climate protection to strategic mobility planning. A brief summary of these planning documents can be found in the Integrated Planning section of the City's approved budget.

Maintaining sound financial and economic development policies within the City organization allows for a high level of services to the community. Because of consistent adherence to the City's financial policies and the area's healthy economy, the City's general obligation bond ratings remain "AAA" from three of the major rating agencies, Moody's, S&P, and Fitch. Through defeasances in 2018 and 2019, Austin Water has retired \$109.2 million of debt which improved debt service coverage and reduced scheduled debt service payments over the next five years.

Budgetary Control

The annual operating budget is proposed by the City Manager and approved by the City Council after public discussion. Annual budgets are legally required for the General Fund, debt service funds, and certain special revenue funds. While not legally required, annual budgets are also adopted for the enterprise and internal service funds. Annual updates to the CIP budgets follow a similar process. Multi-year budgets are adopted for capital projects and grant funds.

Throughout the year, primary responsibility for fiscal analysis of budget to actual expense or revenue and overall program fiscal standing rests with the department operating the program. The City Manager is authorized to transfer appropriation balances within a fund and department of the City. The City Council must approve amendments to the budget and transfers of appropriations from one fund and department to another. As demonstrated by the statements and schedules included in the City's 2018 CAFR, the City continues to meet its responsibility for sound financial management.

Budgetary Information

The 2019 Budget was developed in a manner true to the City's unwavering commitment to openness, transparency, and public engagement. The City's Budget is now organized around strategic outcomes. The budget development process still integrates a collaborative approach to the City's finances with business planning, performance measurement, and resident input, but by organizing around City Council identified strategic outcomes, the document is more focused on the bigger picture and less on the minutiae of departmental expenditures. Input was gathered and evaluated to address the many issues, concerns, and priorities identified by Austin's citizens, employees, boards and commissions, and Councilmembers. The result was a budget built around the ideals of livability, affordability, and inclusivity that dictate the operations of Austin's city government.

The structurally balanced fiscal year 2019 Approved Budget totals \$4.1 billion and includes \$1 billion for the General Fund, providing for the continuation of high-quality public safety, health, library, parks, water, energy, infrastructure, development, and other services to the citizens of Austin. Austin budgeted revenue comes from utility charges (48%), various taxes (including property) (25%), charges for services and goods (14%), and other revenue such as interest, fees, and transfers (13%). The 2019 budget was approved with a 0.45 cent decrease to the property tax rate, from 44.48 to 44.03 cents per \$100 of taxable value.

The City's largest enterprise department, Austin Energy, is the eighth largest municipal-owned electric utility in the U.S. in terms of customers served. Austin Energy serves more than 480,000 customers within a service territory of approximately 437 square miles in the Greater Austin area. The approved budget for fiscal year 2019 is \$1.4 billion in annual revenues, including transfers. The utility has a diverse generation mix that includes nuclear, coal, natural gas, and an increasing portfolio of renewable energy sources such as solar and wind.

The City's second largest enterprise activity is Austin Water, which provides water and wastewater services to more than one million retail and wholesale customers spanning more than 540 square miles within Austin and surrounding areas. The fiscal year 2019 budget projects revenues and transfers of \$613 million. For the first time in several years, the utility has a slight decrease for water and wastewater rates for 2019. Reduction in projected revenue is the result of the 2018 rate reduction.

[The remainder of this page is purposefully left blank.]

Fiscal Year 2020 Budget

The approved fiscal year 2020 operating budget was prepared in accordance with guidelines provided by the City Council. The approved budget includes a total tax rate of \$_____ per \$100 assessed valuation; a tax rate of \$_____ per \$100 assessed valuation would generate revenue for the approved budget as set forth below. The following is a summary of the approved fiscal year 2019 General Fund Budget.

Beginning Balance, October 1, 2019 (Budget Basis)

Summary of Budgeted General Fund Resources

Revenue:

General Property Taxes	528,831	
City Sales Tax	251,823	
Other Taxes	14,612	
Gross Receipts/Franchise Fees	29,028	
Miscellaneous	103,224	
Total Revenue		927,518
Transfers In:		
Electric Revenue	111,000	
Water Revenue	47,486	
Total Transfers In		158,486
Total General Fund Resources		1,086,004

Summary of Budgeted General Fund Requirements

Departmental Appropriations:

Administrative Services	30,730
Urban Growth Management	17,650
Public Safety	743,580
Public Health and Human Services	85,501
Public Recreation and Culture	152,473
Total Departmental Appropriations	1,029,934
Transfers Out	52,960
Other Requirements	3,109
Total General Fund Requirements	1,086,003
Use of Beginning Balance	0
Ending Balance	0

Budgeted Reserve Requirements

Emergency Reserve	64,244
Contingency Reserve	0
Property Tax Reserve	4,500
Budget Stabilization Reserve Fund	64,337
Total Budgeted Reserve Requirements	133,081

The City's financial policies regarding General Fund reserves were revised effective fiscal year 2017 to combine the Emergency Reserve Fund with the General Fund Contingency Reserve Fund and establish a 12% target for the sum of all General Fund reserves. The financial policies require a minimum Emergency Reserve balance of 6% of total General Fund requirements; previously, the policy set the Emergency Reserve amount at \$40 million and set the Contingency Reserve at 1% of departmental expenditures. Reserve usage and replenishment requirements did not change in the revised financial policies.

Long-Term Financial Planning

Austin leaders are continually looking towards and planning for the future. A key City financial policy requires annual preparation of a five-year financial forecast projecting revenues and expenditures for all operating funds. This forecast is used as a tool to develop the following year's operating budget. In addition, the City annually prepares a five-year Capital

Improvement Project (CIP) Plan that outlines all capital projects in progress, those that will be implemented in the five-year horizon, and related funding sources. A second plan covering a 10-year planning horizon, the Long-Range CIP Strategic Plan, is also updated biennially. This plan provides a data-driven approach to planning for how the City's future capital improvements support the way Austin functions and grows. Such an approach assists in aligning the City's CIP investments with the Imagine Austin Comprehensive Plan and the City Council's new strategic priorities as the City strives to strike a balance between ongoing capital needs necessary to maintain services for a rapidly growing community and strategic investments that support community priorities. In support of long-range capital improvement, \$925 million within seven new bond propositions were approved by Austin voters in the November 2018 election.

The Capital Improvement Plan and Capital Budget

The Capital Improvement Plan is a five-year list of capital improvements and a corresponding spending plan for financing these improvements. It is developed through public input and department prioritization of needs. The process includes neighborhood meetings, department requests, assessment of requested projects by the City's Budget Office, input from the Planning Commission's CIP Subcommittee and other Boards and Commissions, and citizen input from public hearings. Each fiscal year, the Planning Commission reviews the Capital Improvement Plan and submits a recommendation to the City Manager detailing specific projects to be included in the Capital Budget for the next fiscal year.

The City Manager considers the Planning Commission's recommended plan to propose a Capital Budget to the City Council. The Capital Budget contains requested appropriations for new projects, additional appropriations for previously approved projects and any requests to revise prior year appropriations. Unlike the Operating Budget, which authorizes expenditures for only one fiscal year, Capital Budget appropriations are multi-year, lasting until the project is complete or until changed by the City Council.

The City Council reviews the Capital Budget, holds public hearings to gather final citizen input and establishes the amount of revenue and general obligation debt to sell to fund capital improvements.

Fiscal Year 2020 Capital Budget

The five-year Capital Improvement Program ("CIP") plan estimates city-wide capital spending in of \$1.0 billion in fiscal year 2020. The first year of the five-year plan was used to determine the new appropriations required for inclusion in the fiscal year 2020 Capital Budget. The proposed city-wide total appropriation is \$_____ billion. Appropriation by department is listed below.

Summary of Fiscal Year 2020 Capital Budget (millions):

Austin Convention Center	14.4
Austin Energy	206.6
Austin Public Health	21.9
Austin Public Library	31.1
Austin Resource Recovery	15.6
Austin Transportation	123.6
Austin Water	122.0
Building Services	2.0
Communications and Technology Management	58.4
Economic Development	3.9
Financial Services	1.5
Emergency Medical Services	17.2
Fire	60.8
Fleet	24.7
Neighborhood Housing and Community Development	59.0
Parks and Recreation	90.9
Planning and Zoning	1.0
Police	1.5
Public Works	50.1
Watershed Protection	<u>111.8</u>
TOTAL PROPOSED NEW APPROPRIATIONS	<u>1,018.2</u>
