

ZONING CHANGE REVIEW SHEET

CASE: C14-2019-0097 (Abhyas Kendra 1 Inc. - Part 2)Z.A.P. DATE: September 3, 2019ADDRESS: 12636 Research Boulevard South Bound, Building C, Suite C-108DISTRICT AREA: 10APPLICANT: City of Austin - Planning and Zoning Department (Sherri Sirwaitis)ZONING FROM: LRTO: GRAREA: 0.0307 acres (1,338 sq. ft.)SUMMARY STAFF RECOMMENDATION:

The staff's recommendation is to grant GR, Community Commercial District, zoning.

ZONING AND PLATTING COMMISSION RECOMMENDATION:**September 3, 2019**ISSUES:

This is a City initiated rezoning case from LR to GR for 12636 Research Boulevard. The staff is rezoning this property to correct a longstanding error on the zoning map that inadvertently resulted in a downzoning of a portion of this property to LR in August 2016 through Ordinance No. 20160811-054.

It appears that the GR-CO zoning that was approved by the City Council on January 10, 1991 was inaccurately applied to only the two westernmost buildings on the property. Therefore, the zoning map retained the original LO zoning on the remaining portion of the site for 27+ years. CTM corrected the GIS zoning layer to apply GR-CO zoning to the property as spelled out in the 1991 ordinance (Ordinance No. 910110-M). However, case C14-2016-0036 was filed and processed in mid-2016 when the zoning map incorrectly showed LO zoning for this property. The 2016 rezoning case accidentally resulted in a downzoning of the property to LR.

Property Rezoning History:

- Ordinance 870219-B rezoned portion of middle building 27.5ft from north side from LO to CS-1.
- Ordinance 880915-D rezoned units in north and middle building from LO to GR-CO.
- Ordinance 910110-M rezoned all buildings to GR-CO, with the exception of portions of middle building currently zoned CS-1. All LR uses permitted with Medical Office, Restaurant, General Retail Sales, Communication Services, Business Support Services and Business and Trade School. **This appears to be when the map error occurred because this change is not reflected on any maps going forward.**
- Ordinance 20110113-050 rezoned (North) Building C, Unit 109 from GR-CO to CS-1 (approximately 38.05ft x 69.62ft.)
- Ordinance 20160811-054 rezoned (North) Building C, Unit 108 from LO to LR. **This rezoning appears to have inadvertently been a downzoning due to the map error.**

The staff is recommending a rezoning of this small 1,338 sq. ft. area to GR to correct the mapping/rezoning errors on this site.

DEPARTMENT COMMENTS:

The property in question is currently a suite in a commercial shopping center, which fronts U.S. Highway 183 North. The staff is recommending GR zoning to correct a mapping and re-zoning error. The property meets the intent of the Community Commercial district. This tract of land fronts onto a major arterial roadway, Research Boulevard (U.S. Highway 183) and has access to Jollyville Road and the south bound service road for U.S. Highway 183. The proposed rezoning will be compatible with surrounding land uses as there are office, retail and restaurant uses to the north, south, east and west of the site. The GR district would allow the applicant to utilize a vacant suite within an existing shopping center structure to allow for additional commercial services on the site. More intensive zoning is appropriate for a retail center located on a major retail highway within an area of concentrated commercial and retail development.

STAFF RECOMMENDATION

The staff's recommendation is to grant GR, Community Commercial District, zoning.

BASIS FOR RECOMMENDATION

1. *The proposed zoning should be consistent with the purpose statement of the district sought.*

Community Commercial district is intended for office and commercial uses serving neighborhood and community needs, including both unified shopping centers and individually developed commercial sites, and typically requiring locations accessible from major traffic ways.

This tract of land is located with a retail center that takes access to two arterial roadways, U.S. Highway 183 North and Jollyville Road.

2. *Zoning changes should promote an orderly and compatible relationship among land uses.*

The proposed rezoning will be compatible with surrounding land uses because there are commercial, retail and restaurant uses to the south and east of the site within this retail center.

3. *Zoning should allow for reasonable use of the property.*

The proposed re-zoning to the GR district would allow the applicant to utilize a vacant suite within an existing retail shopping center to develop new commercial uses on the site.

EXISTING CONDITIONS

Site Characteristics

The site under consideration is a suite in an existing retail center (North Brooke Shopping Center) that is developed with a personal improvement services use (Best Brains Learning Center). The retail center currently contains personal services uses, personal improvement services uses, restaurant uses, a liquor store and commercial retail uses.

Comprehensive Planning

Please note: This rezoning was initiated by the City of Austin to correct a staff mapping error on a previous rezoning request, when the property was mistakenly downzoned to Zone LR from Zone GR-CO in August 2016.

This zoning case is located on the south side of Research Blvd., on a .032 acre portion of a larger 3.57 acre parcel, which contains a shopping center with a variety of restaurants and retail shops. The property is not located within the boundaries of a neighborhood planning area. Surrounding land uses include US Hwy 183 to the north; residential uses to the south (off of Jollyville Road); and retail and commercial uses to the east and west. The City initiated request is to rezone an existing commercial bay back to Zone GR-CO as part of a mapping correction.

Imagine Austin

The property is located along an Activity Corridor and by a Neighborhood Center, both which support a variety of commercial uses. Based on the adjoining commercial uses, and the comparative scale of the existing retail bay in relation to this existing shopping center, this rezoning supports the Imagine Austin Comprehensive Plan.

Environmental

The site is not located over the Edwards Aquifer Recharge Zone. The site is in the Walnut Creek Watershed of the Colorado River Basin, which is classified as a Suburban Watershed by Chapter 25-8 of the City's Land Development Code. The site is in the Desired Development Zone.

Under current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

<i>Development Classification</i>	<i>% of Gross Site Area</i>	<i>% of Gross Site Area with Transfers</i>
Single-Family (minimum lot size 5750 sq. ft.)	50%	60%
Other Single-Family or Duplex	55%	60%
Multifamily	60%	70%
Commercial	80%	90%

According to floodplain maps there is no floodplain within or adjacent to the project location.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

At this time, site specific information is unavailable regarding vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment requires water quality control with increased capture volume and control of the 2-year storm on site.

At this time, no information has been provided as to whether this property has any Is that preempt current water quality or Code requirements.

Site Plan

Site plans will be required for any new development other than single-family or duplex residential.

Any development which occurs in an SF-6 or less restrictive zoning district which is located 540 feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.

Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.

FYI: Additional design regulations will be enforced at the time a site plan is submitted.

Compatibility Standards

The site is subject to compatibility standards due to proximity of SF-3 and SF-2 to the southwest and south, respectively. The following standards apply:

- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
- No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
- For a structure more than 100 feet but not more than 300 feet from property zoned SF-5 or more restrictive, height limitation is 40 feet plus one foot for each 10 feet of distance in excess of 100 feet from the property zoned SF-5 or more restrictive.
- For a structure more than 300 feet but not more than 540 feet from property zoned SF-5 or more restrictive, 60 feet plus one foot for each four feet of distance in excess of 300 feet from the property zoned SF-5 or more restrictive.
- An intensive recreational use, including a swimming pool, tennis court, ball court, or may not be constructed 50 feet or less from property in an SF-5 or more restrictive zoning district.

Transportation

FYI: Per Ordinance No. 20170302-077, off-site transportation improvements and mitigations may be

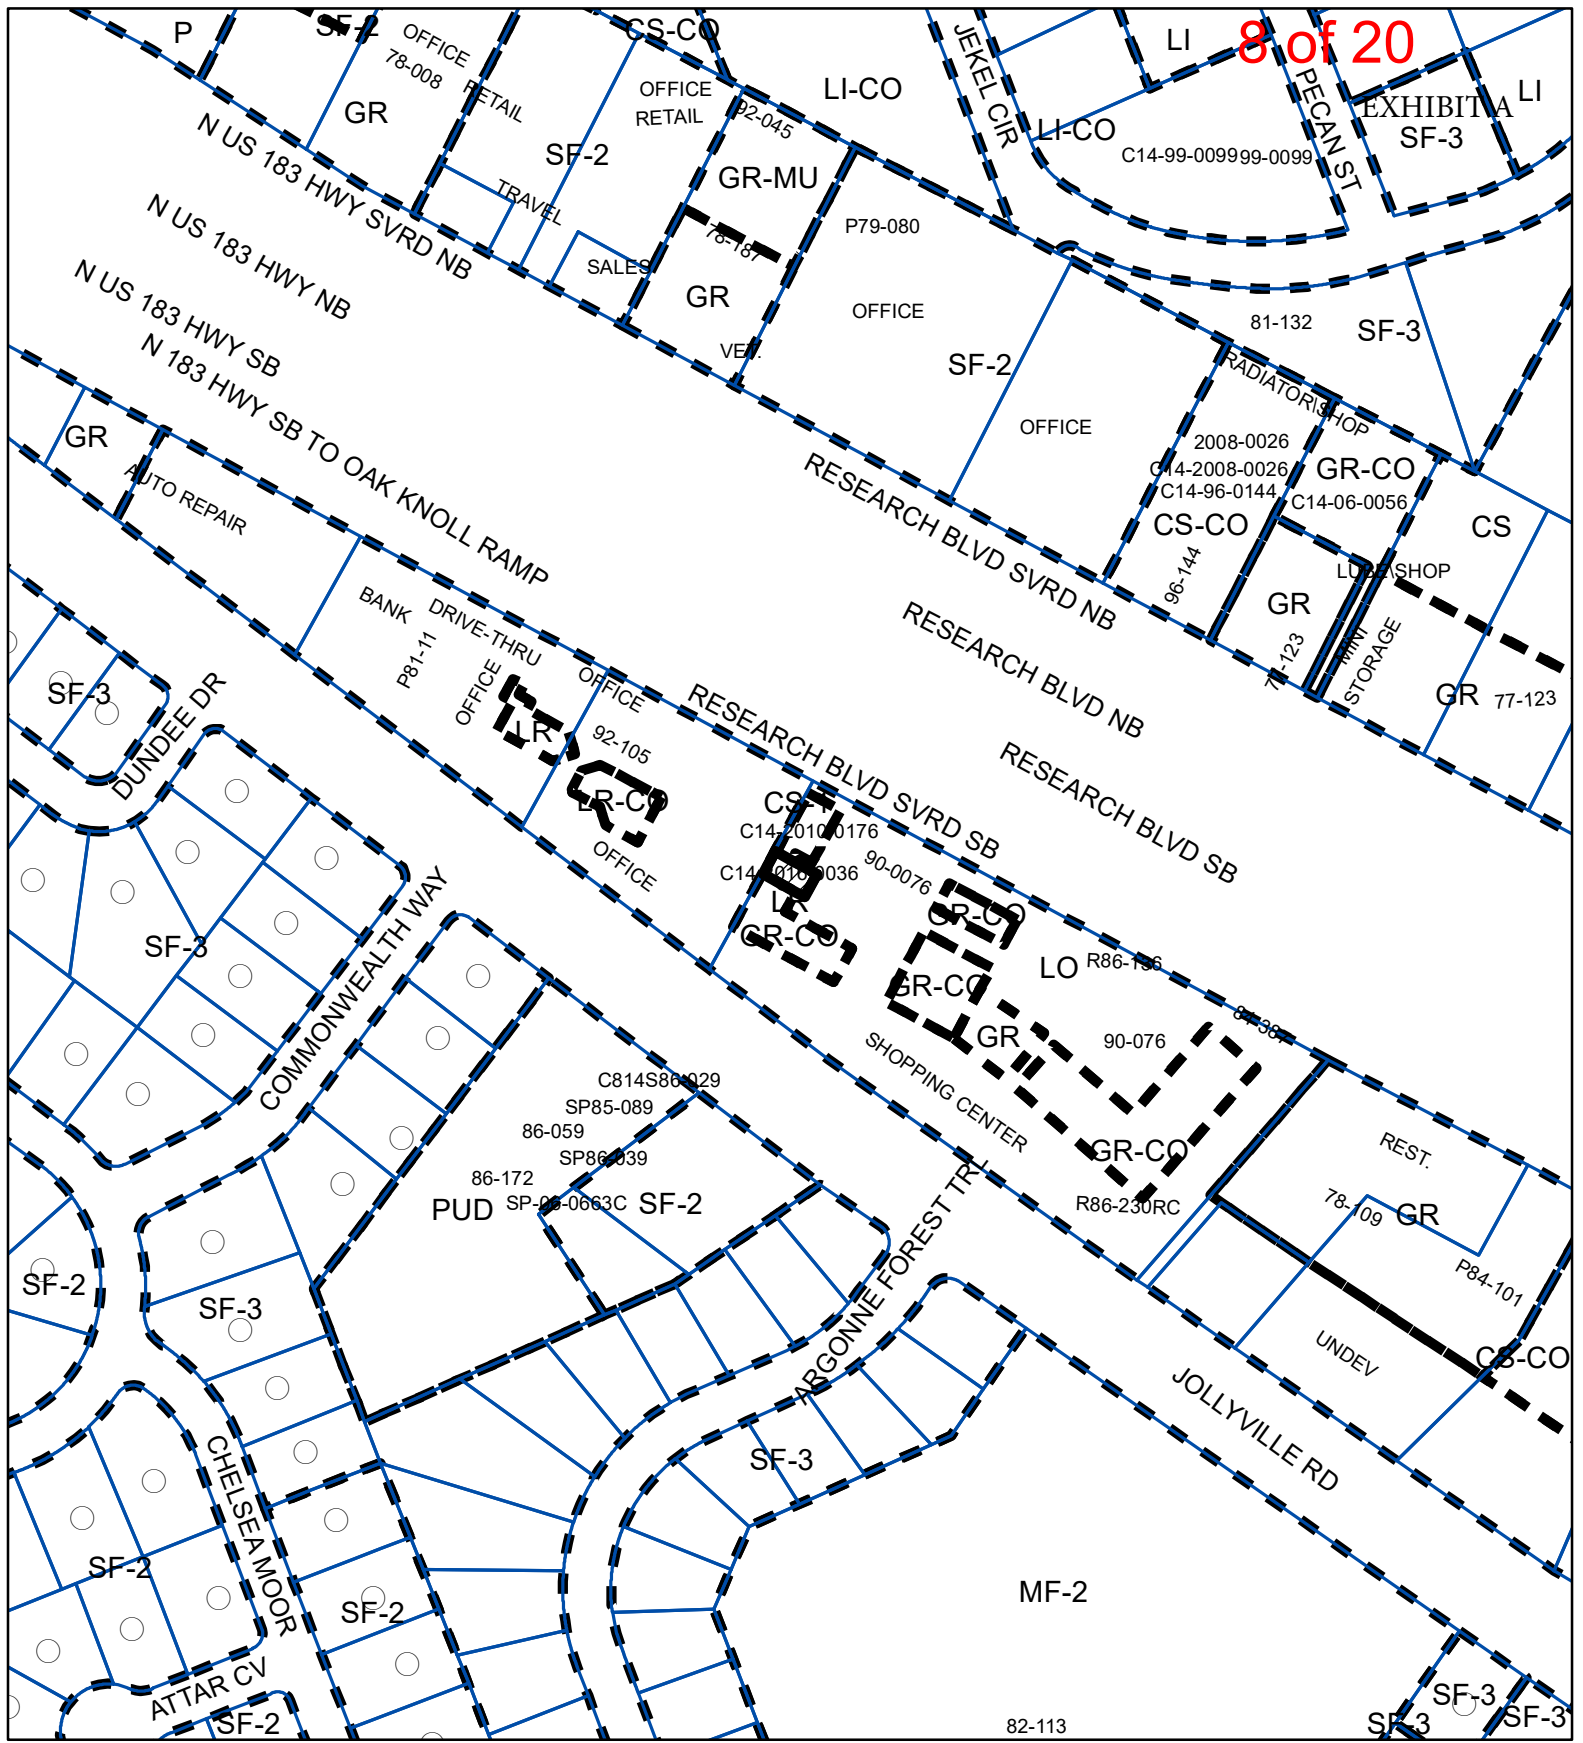

FYI: The Austin Strategic Mobility Plan calls for 104 feet of right of way. At time of site plan, additional right of way dedication may be required.

Existing Street Characteristics:

Name	ROW	Pavement	Classification	Sidewalks	Bicycle Route	Capital Metro (within ¼ mile)
Jollyville Road	~90'	~60'	Arterial	No	Yes	No
Research Blvd (183)	~335'	Highway	Highway	No	Yes	No

Water and Wastewater

FYI: The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, water or wastewater easements, utility relocations and or abandonments required by the proposed land use. Depending on the development plans submitted, water and or wastewater service extension requests may be required. Water and wastewater utility plans must be reviewed and approved by Austin Water for compliance with City criteria and suitability for operation and maintenance. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fees once the landowner makes an application for Austin Water utility tap permits.
