

## Recommendation for Action

**File #:** 19-2901, **Agenda Item #:** 49.

9/19/2019

### **Posting Language**

Approve an ordinance authorizing acceptance of \$15,008 in additional grant funds from the Texas Department of State Health Services; and amending the Fiscal Year 2018-2019 Austin Public Health Department Operating Budget Special Revenue Fund (Ordinance No. 20180911-001) to appropriate a total of \$15,008 for public health emergency preparedness activities.

### **Lead Department**

Austin Public Health.

### **Fiscal Note**

Funding in the amount of \$702,185 is available from the Texas Department of State Health Services. A City funding match of \$15,008 is required and is available in the Fiscal Year 2019-2020 Austin Public Health Department's Operating Budget. A fiscal note is attached.

### **Prior Council Action:**

On September 11, 2018, Council approved Ordinance No. 20180911-001 adopting the Fiscal Year 2018-2019 Operating Budget, which authorized \$683,000 in grant appropriation for public health emergency preparedness activities.

On June 6, 2019, Council approved Ordinance No. 20190606-017 authorizing acceptance of \$4,177 in additional grant funds from the Texas Department of State Health Services, amending the grant appropriation for public health emergency preparedness activities to \$687,177.

### **For More Information:**

Stephanie Hayden, Director, 512-972-5010; Janet Pichette, Chief Epidemiologist, 512-972-5486; Chris Crookham, Program Manager I, 512-972-5446; Lucy Thompson, Agenda Coordinator, 512-972-5045.

### **Additional Backup Information:**

The Texas Department of State Health Services, Community Preparedness Section, is allocating \$15,008 for the continuation of Public Health Emergency Preparedness (PHEP) activities defined by the Centers for Disease Control and Prevention, and categorized to address nine public health preparedness goals to:

1. Increase the use and development of interventions known to prevent human illness from chemical, biological, and radiological agents, and naturally occurring health threats.
2. Decrease the time needed to classify health events as terrorism or naturally occurring in partnership with other agencies.
3. Decrease the time needed to detect and report chemical, biological, and radiological agents in tissue, food, or environmental samples that cause threats to the public's health.
4. Improve the timeliness and accuracy of information regarding threats to the public's health as reported by clinicians and through electronic early-event detection in real time to those who need to know.
5. Decrease the time to identify causes, risk factors, and appropriate interventions for those affected by threats to the public's health.
6. Decrease the time needed to provide countermeasures and health guidance to those affected by threats to the public's health.

7. Decrease the time needed to restore health services and environmental safety to pre-event levels.
8. Increase the long-term follow-up provided to those affected by threats to the public's health.
9. Decrease the time needed to implement recommendations from after-action reports following threats to the public's health.

The funding will be used for a new amended grant term of July 1, 2019 through June 30, 2020.

Performance Measures:

- Number of cases investigated by Epidemiology and Disease Surveillance team
- Percent of all infectious diseases reported that result in the implementation of intervention strategies
- Number of emergency bioterrorism drills conducted
- Number of emergency preparedness plans reviewed
- Percent of all foodborne illness investigations initiated within three hours from notification

The General Fund will not be required to contribute additional funds beyond those currently budgeted to this grant. When the grant funds expire, Austin Public Health Department's need for continued funding will be evaluated and may be denied.
