

Central Texas Energy Efficiency Program Update

Hayley Cunningham – Energy Efficiency Program Manager

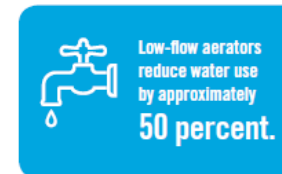

Texas Gas Service Energy Efficiency Program

Commercial Program Highlights

- On-track to meet budget
- CLEAResult long-term planning
 - Operations audit and education
 - Combined programs with Austin Energy
- Targeted outreach to commercial transportation customers
 - Hospitals
 - Hotels
 - Multifamily

DON'T LET YOUR MONEY GO DOWN THE DRAIN.

If you're a Texas Gas Service Commercial customer, our technicians can install energy- and water-saving upgrades **at no cost to you** to help you save money and energy.

These devices save energy by reducing the need to heat water, so your business or facility must use a natural gas water heater to be eligible.

GET FREE UPGRADES FOR YOUR BUSINESS TODAY.

For more information about this and other Commercial Rate rebate programs (see reverse), email EnergyEfficiency@TexasGasService.com or call 512-370-8256.

- 35+ participating builders

Make your *time better spent* with these

5 Summer Energy-Saving Tips

- 

1 Run dryers, dishwashers and other large appliances after dark so your air conditioner isn't fighting too many battles at once.
- 

2 Keep cool air in and hot air out by sealing doors and windows.
- 

3 Check all of your vents to make sure they're open, free of dust and directing air toward the center of the room.
- 

4 Replace your shower head with a low-flow model. Doing so reduces both your water and energy use from your water heater.
- 

5 Upgrade to high-efficiency natural gas appliances to save time, energy and money!
