re: Case #C14-2019-0078, 4511 Vinson Drive

As the Chair of the contact team, I am requesting a postponement of this hearing to October 17th. Although the neighborhood originally requested postponement to October 17th, the case manager has confirmed that the applicant was charged with the postponement to your October 3rd meeting, and the neighborhood continues to request postponement.

We have met with some council offices, and requested meetings with all. Between October 1st and October 16th we have appointments scheduled with five council offices and are being scheduled with a sixth office, thus reflecting our continuing desire to meet with all council members and/or their staff prior to the hearing for first reading.

All but one of these appointments were set by September 10th, reflecting council and staff's higher priorities correctly given to the budget, homelessness issues, and the land development code rewrite. We remain hopeful of meetings with three additional council offices prior to first reading.

Thank you for your consideration of the contact team's request.
