Re: C15-2019-0046

Dear Lila,

Austin Energy (AE) has reviewed your application for the above referenced property, requesting that the Board of Adjustment consider a variance(s) from;

Section 25-2-1067 (H) (Design Regulations) Compatibility Height requirements of Article 10, Compatibility Standards, Division 2 – Development Standards to;

- decrease the minimum parking setback from 25 feet (required) on the southern and western boundaries to 0 feet (requested) and;
- decrease the minimum driveway setback from 20 feet (required) to 0 feet (requested),

In order to construct an accessory parking lot in a "LO-V-NP", Limited Office – Vertical Mixed Use – Neighborhood Plan zoning district. (South Manchaca Neighborhood Plan)

Austin Energy does not oppose requested compatibility variances, provided all proposed and existing improvements are in compliance with AE clearance criteria requirements, the National Electric Safety Code and OSHA. Any removal or relocation of existing electric facilities will be at owners/applicants expense.

Section 2: Variance Findings

The Board must determine the existence of, sufficiency of, and weight of evidence supporting the findings described below. Therefore, you must complete each of the applicable Findings Statements as part of your application. Failure to do so may result in your application being rejected as incomplete. Please attach any additional supporting documents.

NOTE: The Board cannot grant a variance that would provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly situated.

I contend that my entitlement to the requested variance is based on the following findings:

Reasonable Use

The zoning regulations applicable to the property do not allow for a reasonable use because:

Hardship

a) The hardship for which the variance is requested is unique to the property in that:

b) The hardship is not general to the area in which the property is located because:

Portion of the City of Austin Land Development Code applicant is seeking a variance from:

COMPATIBILITY STANDARDS Section 25-2-1067 (H) THE SUBJECT PROPERTY IS 110' WIDE. WE ARE REQUESTING TO DECREASE THE REQUIRED SET BACK ON THE SOUTHERN BOUNDARY WHERE THE USE IS SF-5 OR MORE RESTRICTIVE ZONING DISTRICT FROM 25 FT TO ZERO FT (REQUESTED) FOR PARKING AND FROM 20 FT TO ZERO FT (REQUESTED) FOR DRIVEWAY. WE ARE REQUESTING TO DECREASE THE REQUIRED SET BACK ON THE WESTERN BOUNDARY WHERE THE USE IS SF-5 OR MORE RESTRICTIVE ZONING DISTRICT FROM 25 FT TO ZERO (REQUESTED) FOR PARKING.

Section 2: Variance Findings

The Board must determine the existence of, sufficiency of, and weight of evidence supporting the findings described below. Therefore, you must complete each of the applicable Findings Statements as part of your application. Failure to do so may result in your application being rejected as incomplete. Please attach any additional supporting documents.

NOTE: The Board cannot grant a variance that would provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly situated.

I contend that my entitlement to the requested variance is based on the following findings:

Reasonable Use

The zoning regulations applicable to the property do not allow for a reasonable use because:

Without this variance there is no possibility of using the bulk of the existing building that is constructed for its reasonable possible use (medical office)

There is room for no more than approximately two parking spaces (spaces 8 and 9 on the plan) allowing only between 400 and 600 Sf of use in this 2,293 Sf building

Hardship

a) The hardship for which the variance is requested is unique to the property in that:

The property is surrounded with commercial use with the exception of the SF3 adjacent to the south. The SF3 adjacent lot is

included in the Special District for future commercial use. It is only a matter of time before the use will change. The owner of the SF3 adjacent lot has stated they are in support of the variance.

b) The hardship is not general to the area in which the property is located because:

The hardship is not general to the area in that surrounding properties have been redeveloped or are in the process of being redeveloped largely driven by the St. David's South Austin Medical Center

Area Character

The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

Parking (additional criteria for parking variances only)

Request for a parking variance requires the Board to make additional findings. The Board may grant a variance to a regulation prescribed in the City of Austin Land Development Code Chapter 25-6, Appendix A with respect to the number of off-street parking spaces or loading facilities required if it makes findings of fact that the following additional circumstances also apply:

1. Neither present nor anticipated future traffic volumes generated by the use of the site or the uses of sites in the vicinity reasonably require strict or literal interpretation and enforcement of the specific regulation because:

2. The granting of this variance will not result in the parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic of the streets because:

3. The granting of this variance will not create a safety hazard or any other condition inconsistent with the objectives of this Ordinance because:

4. The variance will run with the use or uses to which it pertains and shall not run with the site because:

Area Character

The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

Only Parking and a driveway (no building) are proposed for the compatibility set back. There has been a parking area there in

the past with no apparent impairment to any of the adjacent properties. Properly constructing legal parking on this site is consistent with the current zoning district.

Parking (additional criteria for parking variances only)

Request for a parking variance requires the Board to make additional findings. The Board may grant a variance to a regulation prescribed in the City of Austin Land Development Code Chapter 25-6, Appendix A with respect to the number of off-street parking spaces or loading facilities required if it makes findings of fact that the following additional circumstances also apply:

1. Neither present nor anticipated future traffic volumes generated by the use of the site or the uses of sites in the vicinity reasonably require strict or literal interpretation and enforcement of the specific regulation because:

2. The granting of this variance will not result in the parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic of the streets because:

3. The granting of this variance will not create a safety hazard or any other condition inconsistent with the objectives of this Ordinance because:

4. The variance will run with the use or uses to which it pertains and shall not run with the site because:
