Additional Backup Information:

According to Strategic Direction 2023, the issue of homelessness has been identified as the Council's top priority. The number of people experiencing homelessness in Austin continues to rise, with the Point-In-Time Count reflecting an increase from 2,147 in 2018 to 2,255 in 2019. As a subset, the number of unsheltered individuals increased from 1,014 to 1,086 within this period. Over the past five years this same population grew by 638 individuals, an increase of nearly 63%.

The Office of Real Estate Services has identified the building at 2711 South IH-35 as a property that would be able to provide shelter and support services to those experiencing homelessness. The property is an ideal location given the proximity to areas where individuals who are experiencing homelessness live, accessible by public transportation, close to major arterials, and within reasonable distance of health care facilities. The estimated purchase price including closing costs and other related fees is \$8,000,000. The funding in this item includes funding for renovation.
