*** External Email - Exercise Caution ***

Hi Heather,

I am writing to object to the rezoning application for 6412 Ed Bluestein Blvd that would allow for service station use. Our area has enough gas stations as it is - with more under construction - and we do not need to open up more land for that use. Doing so would only reduce the available land for other commercial uses sorely needed in this area, such as grocery stores and other neighborhood retail.

Thank you,
Jon Hagar
