# Texas Gas Service Energy Efficiency Program

## 2019 Commercial Program Highlights

- Budget met
  - 3,476 energy-saving devices installed
  - 22,659 feet of weather stripping installed
- Targeted outreach to commercial transportation customers
  - 43% of energy-saving devices
  - 32% of weather stripping
- 1-year extension of CLEAResult contract

## DON'T LET YOUR MONEY GO DOWN THE DRAIN.

If you're a Texas Gas Service Commercial customer, our technicians can install energy- and water-saving upgrades **at no cost to you** to help you save money and energy.

These devices save energy by reducing the need to heat water, so your business or facility must use a natural gas water heater to be eligible.

**GET FREE UPGRADES FOR YOUR BUSINESS TODAY.**

For more information about this and other Commercial Rate rebate programs (see reverse), email [EnergyEfficiency@TexasGasService.com](mailto:EnergyEfficiency@TexasGasService.com) or call 512-370-8256.

- Home Performance with ENERGY STAR off-season incentive
  - October 15 - April 15
- 50+ participating builders

### Tips to Make Sure the Heat Turns On

When winter weather hits, a natural gas furnace can keep you warm and cozy all season long. But with warm weather dominating much of the year, it can be easy to forget about your heating system altogether until that first cold front.

We've compiled helpful tips to make sure the heat turns on when you need it!
