Integral Care is designated by the State of Texas as the Mental Health and Intellectual and Developmental Disabilities Local Authority for Austin/Travis County. City funding in this agreement serves as a grant match for millions of dollars of state and federal funds for early childhood intervention services, homeless services, behavioral health services and intellectual/developmental disability services to residents of Austin/Travis County. In addition, funding in this agreement supports mental health disaster preparedness, outreach and prevention, education and awareness, community planning, and maintenance of infrastructure. Included in this agreement is funding for PATH Program, a federally funded program designed to provide active outreach to areas where individuals are homeless and disenfranchised. Specialists work to develop an honest, helpful relationship towards a consumer-directed plan. The PATH Program contains outreach and engagement specialists, psychiatrists, a certified medical assistant and a licensed clinical supervisor linking consumers with established mainstream services and resources. Length of service in the PATH Program varies based on individual needs. Increased funding provided in Amendment No. 7 will expand the PATH program by two additional team members, increasing homeless outreach and navigation capacity throughout Austin/Travis County, and connecting more individuals to services and housing resources.
