Additional Backup Information:

As provided in Section 25-1-544 of the City of Austin Land Development Code, the developers of the Lantana Development on Lot 3, Block P of the Lantana Phase 1, Section 2 Subdivision, have initiated consideration of a Project Consent Agreement (PCA) to add a residential use to the existing development. The existing development has been permitted and partially constructed under Site Development Permit No SP-2014-0262C. The applicant has filed a zoning change request under case number C14-2019-0003 to add a Mixed Use (MU) overlay to the existing GR-NP zoning that will allow the addition of the multi-family use to the existing project. The zoning case has been scheduled for Council consideration on the March 12, 2020, agenda concurrent with Council consideration of the proposed PCA.

A PCA is a voluntary mechanism for determining applicable regulations where the extent of a project's vested development rights are unclear or for incentivizing projects with clearly established vested rights to achieve greater compliance with current regulations. In such cases, a PCA provides a means for the Council to modify development regulations applicable to a property.
