Additional Backup Information:

This item is related to the 2016 Mobility Bond.

In 2016, City Council adopted the Sidewalk Plan and Americans with Disabilities Act (ADA) Transition Plan which includes sidewalk priorities and selection criteria. As part of the City's ongoing effort to comply with the directives of the ADA, the Public Works Department has developed efficient and cost-effective methods to construct sidewalks, ramps, driveways, retaining walls, handrails, bikeways, striping, shoulder widening, ADA

bus stop upgrades, sidewalk repairs, and associated construction.

This contract is part of an expanding program to address decades of deferred sidewalk maintenance. A combination of operational, 2016 Mobility Bond, and 2018 transportation bond funds will be used for sidewalk reconstruction and rehabilitation under this contract. This contract will help the City systematically address safety and ADA compliance issues in the City sidewalk system.

Indefinite Delivery/Indefinite Quantity contracts provide for an indefinite quantity of services for a fixed time, usually an initial term with extension options. They are commonly used when precise quantities of supplies or services, above a specified minimum, cannot be determined. Indefinite Delivery/Indefinite Quantity contracts help streamline the contract process and service delivery and allow the City the flexibility to add work as needs arise or change. As each project is defined, a specific work assignment will be given to the contractor who will complete the scope of work for the unit prices included in the contract. Work deadlines will be established for each work assignment.

The base bid was used to identify and determine the lowest responsive bidder and to determine contract unit prices for each bid item.

This request allows for the award and execution of a construction contract with Rider Construction Group, LLC. for an estimated period of one year, with two additional one-year extension options. However, if funds for the initial term are expended staff may accelerate the extension options, but in no event will exceed the total contract amount without returning to Council. The extension options are subject to the agreement of both parties.

These projects will be located citywide in all Districts.

Rider Construction Group, LLC. is located in Austin, TX
