

ZONING CHANGE REVIEW SHEET

CASE: C14-2020-0046 (Jollyville Apartments)

DISTRICT: 10

ADDRESS: 12182 Jollyville Road

ZONING FROM: SF-2

TO: MF-3

SITE AREA: 0.7779 acres (34,919 sq. ft.)

PROPERTY OWNER: Jollyville Development, LLC (David M. Spatz)

AGENT: Spatz Development (David Spatz)

CASE MANAGER: Sherri Sirwaitis (512-974-3057, sherri.sirwaitis@austintexas.gov)

STAFF RECOMMENDATION:

Staff recommends MF-3, Multifamily Residence-Medium Density District, zoning.

ZONING AND PLATTING COMMISSION ACTION / RECOMMENDATION:

May 19, 2020: Approved the staff's recommendation of MF-3 zoning by consent (10-0); A. Denkler-1st, D. King-2nd.

The item was recinded and postponed to June 2, 2020 for reconsideration (10-0).

ORDINANCE NUMBER:

CITY COUNCIL ACTION: **June 11, 2020**

ISSUES: N/A

CASE MANAGER COMMENTS:

The property in question is currently a vacant 0.78 acre tract of land that fronts onto Jollyville Road. To the north, across Jollyville Road, there is GR/GR-CO zoning developed with a commercial retail center (North Brooke Shopping Center). The lots to the south and east are zoned SF-3 and developed with duplex residences (Ranch Stone Residential Neighborhood). Further to the east along Jollyville Road, there is a MF-2 zoned tract that is developed with a multifamily residential use (Shadow Oaks Apartments). To the west, there is a PUD zoned lot that contains a financial services use (Austin Telco). The applicant is requesting MF-3 zoning to redevelop the property with a multifamily use with approximately 20-26 residential units (Please see Applicant's Request Letter – Exhibit C).

The staff recommends MF-3, Multifamily Residence-Medium Density District, zoning for this property. The tract of land meets the intent of the MF-3 district as it is located on an arterial roadway in an area with available commercial services. The property fronts onto Jollyville Road, a designated Activity Corridor, and is located within the 183 and McNeil Neighborhood Center.

The applicant agrees with the staff's recommendation.

BASIS OF RECOMMENDATION:

- 1. The proposed zoning should be consistent with the purpose statement of the district sought.*

Multifamily Residence (Medium Density) district is intended to accommodate multifamily use with a maximum density of up to 36 units per acre, depending on unit size. This district is appropriate for multifamily residential areas located near supporting transportation and commercial facilities, generally in more centrally located areas, and in other selected areas where medium density multiple use is desirable.

This tract of land fronts onto Jollyville Road, an arterial roadway, and is located across from an existing commercial center (North Brooke Shopping Center) that contains restaurant, retail and personal services uses.

- 2. Zoning changes should promote an orderly and compatible relationship among land uses.*

The proposed rezoning will be compatible with surrounding land uses because there are commercial services to the north and west and residential uses to the south and east of the site.

3. *Zoning should allow for reasonable use of the property.*

The proposed re-zoning to the MF-3 district would allow the applicant to develop a vacant property with multifamily uses which will provide for additional housing opportunities along the designated Jollyville Activity Corridor and within the 183 and McNeil Neighborhood Center.

EXISTING ZONING AND LAND USES:

	ZONING	LAND USES
<i>Site</i>	SF-2	Vacant (formerly developed with Single Family Residence)
<i>North</i>	LO	North Brooke Shopping Center: Karate, Best Brains Learning Center, Mind Body Yoga Studio, Massage Therapy, Kung Fu & Self Defense Studio, Kanji Ramen Restaurant, Smoke Shop, etc.)
<i>South</i>	SF-3	Ranch Stone Residential Neighborhood (Duplexes)
<i>East</i>	SF-3, MF-2	Ranch Stone Residential Neighborhood (Duplexes), Multifamily (Shadow Oaks Apartments)
<i>West</i>	PUD	Financial Services (Austin Telco)

EXISTING STREET CHARACTERISTICS:

NAME	ROW	PAVEMENT	CLASSIFICATION
Jollyville Road	108'	58'	Arterial

OTHER STAFF COMMENTS:

Comprehensive Planning

This property is located on the south side of Jollyville Road, on a 0.777 acre property, which recently contained a house but is now vacant. The property is also located along the **Jollyville Activity Corridor** and within the **183 and McNeil Neighborhood Center**. Surrounding land uses include three restaurants, a retail shopping center and SH 183 to the

north; to the south are single family houses; to the east are single family houses and to the west is a credit union and single family houses. The proposed use is an apartment complex with a S.M.A.R.T. housing component.

Connectivity

No public sidewalks are located along this section of Jollyville Road. Bike lanes are located along both sides of Jollyville Road. A CapMetro transit stop is located approximately 1,200 feet away on Research Boulevard, with limited pedestrian accessibility. The connectivity options in the area are good; while the mobility options are fair, and could be greatly improved with a public sidewalk system located along both sides of Jollyville Road.

Imagine Austin

The subject tract is located along an **Activity Corridor** and an Imagine Austin designated **183 and Neil Road Neighborhood Center**. Like many Imagine Austin Centers, this center is represented by a circle that reflects the general location where the center should be located in the future. The center's actual boundaries would need to be clarified through a small area planning process. **Activity Corridors** (Jollyville Road) are characterized by a variety of activities and types of buildings located along the roadway — shopping, restaurants and cafés, parks, schools, single-family houses, apartments, public buildings, houses of worship, mixed-use buildings, and offices. The following policies apply to this request:

- **LUT P3.** Promote development in compact centers, communities, or **along corridors** that are connected by roads and transit that are designed to encourage walking and bicycling, and reduce health care, housing and transportation costs.
- **LUT P5.** Create healthy and family-friendly communities through development that includes a mix of land uses and housing types and affords realistic opportunities for transit, bicycle, and pedestrian travel and provides both community gathering spaces, parks and safe outdoor play areas for children.
- **HN P10.** Create complete neighborhoods across Austin that have a mix of housing types and land uses, affordable housing and transportation options, and access to schools, retail, employment, community services, and parks and recreation options.

Conclusion

Based upon this property being located along an Activity Corridor and within a Neighborhood Center that supports a mixture of uses, including apartment buildings; connectivity strengths, and supporting the Imagine Austin policies, the proposed project appears to partially support the policies of the Imagine Austin Comprehensive Plan. It is hoped in the near future that a public sidewalk system is installed along both sides of Jollyville Road to improve non-vehicular mobility options along this key arterial roadway.

Environmental

The site is not located over the Edwards Aquifer Recharge Zone. The site is in the Walnut Creek Watershed of the Colorado River Basin, which is classified as a Suburban Watershed by Chapter 25-8 of the City's Land Development Code. The site is in the Desired Development Zone.

Under current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

<i>Development Classification</i>	<i>% of Gross Site Area</i>	<i>% of Gross Site Area with Transfers</i>
Single-Family (minimum lot size 5750 sq. ft.)	50%	60%
Other Single-Family or Duplex	55%	60%
Multifamily	60%	70%
Commercial	80%	90%

According to floodplain maps there is no floodplain within or adjacent to the project location.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

At this time, site specific information is unavailable regarding vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment requires water quality control with increased capture volume and control of the 2-year storm on site.

At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

Site Plan

Site plans will be required for any new development other than single-family or duplex residential.

COMPATIBILITY

Any development which occurs in an SF-6 or less restrictive zoning district which is located 540-feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.

The site is subject to compatibility standards. Along the east property line, the following standards apply:

- No structure may be built within 25 feet of the property line of the triggering property line
- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
- No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
- No parking or driveways are allowed within 25 feet of the property line.

- A fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.
- For a structure more than 100 feet but not more than 300 feet from property zoned SF-5 or more restrictive, 40 feet plus one foot for each 10 feet of distance in excess of 100 feet from the property zoned SF-5 or more restrictive.
- An intensive recreational use, including a swimming pool, tennis court, ball court, or playground, may not be constructed 50 feet or less from adjoining SF-3 property.

Additional design regulations will be enforced at the time a site plan is submitted.

SUBCHAPTER E

Any new development is subject to Subchapter E Design Standards and Mixed Use. Jollyville Road is a Future Core Transit Corridor roadway. Additional comments will be made when the site plan is submitted.

Transportation

The Austin Strategic Mobility Plan (ASMP) adopted 04/11/2019, calls for 104 feet of right-of-way for Jollyville Road. Existing right-of-way appears sufficient. A traffic impact analysis is waived until the time of site plan when land uses and intensities are finalized.

Name	Existing ROW	ASMP Required ROW	Pavement	ASMP Classification	Sidewalks	Bicycle Route	Capital Metro (within ¼ mile)
Jollyville Road	~108'	104'	58'	4	No	Yes	No

Water Utility

The site is served by an On-Site Sewage Facility. With the change of use, the owner must connect the site to city wastewater service through the cutover process. For more information pertaining to the wastewater cutover process, contact the AW OSSF team at OSSF@austintexas.gov or call 512-972-0050. The cutover process may also initiate a required review by the Industrial Waste Division and/or the Cross Connection Division depending on building usage.

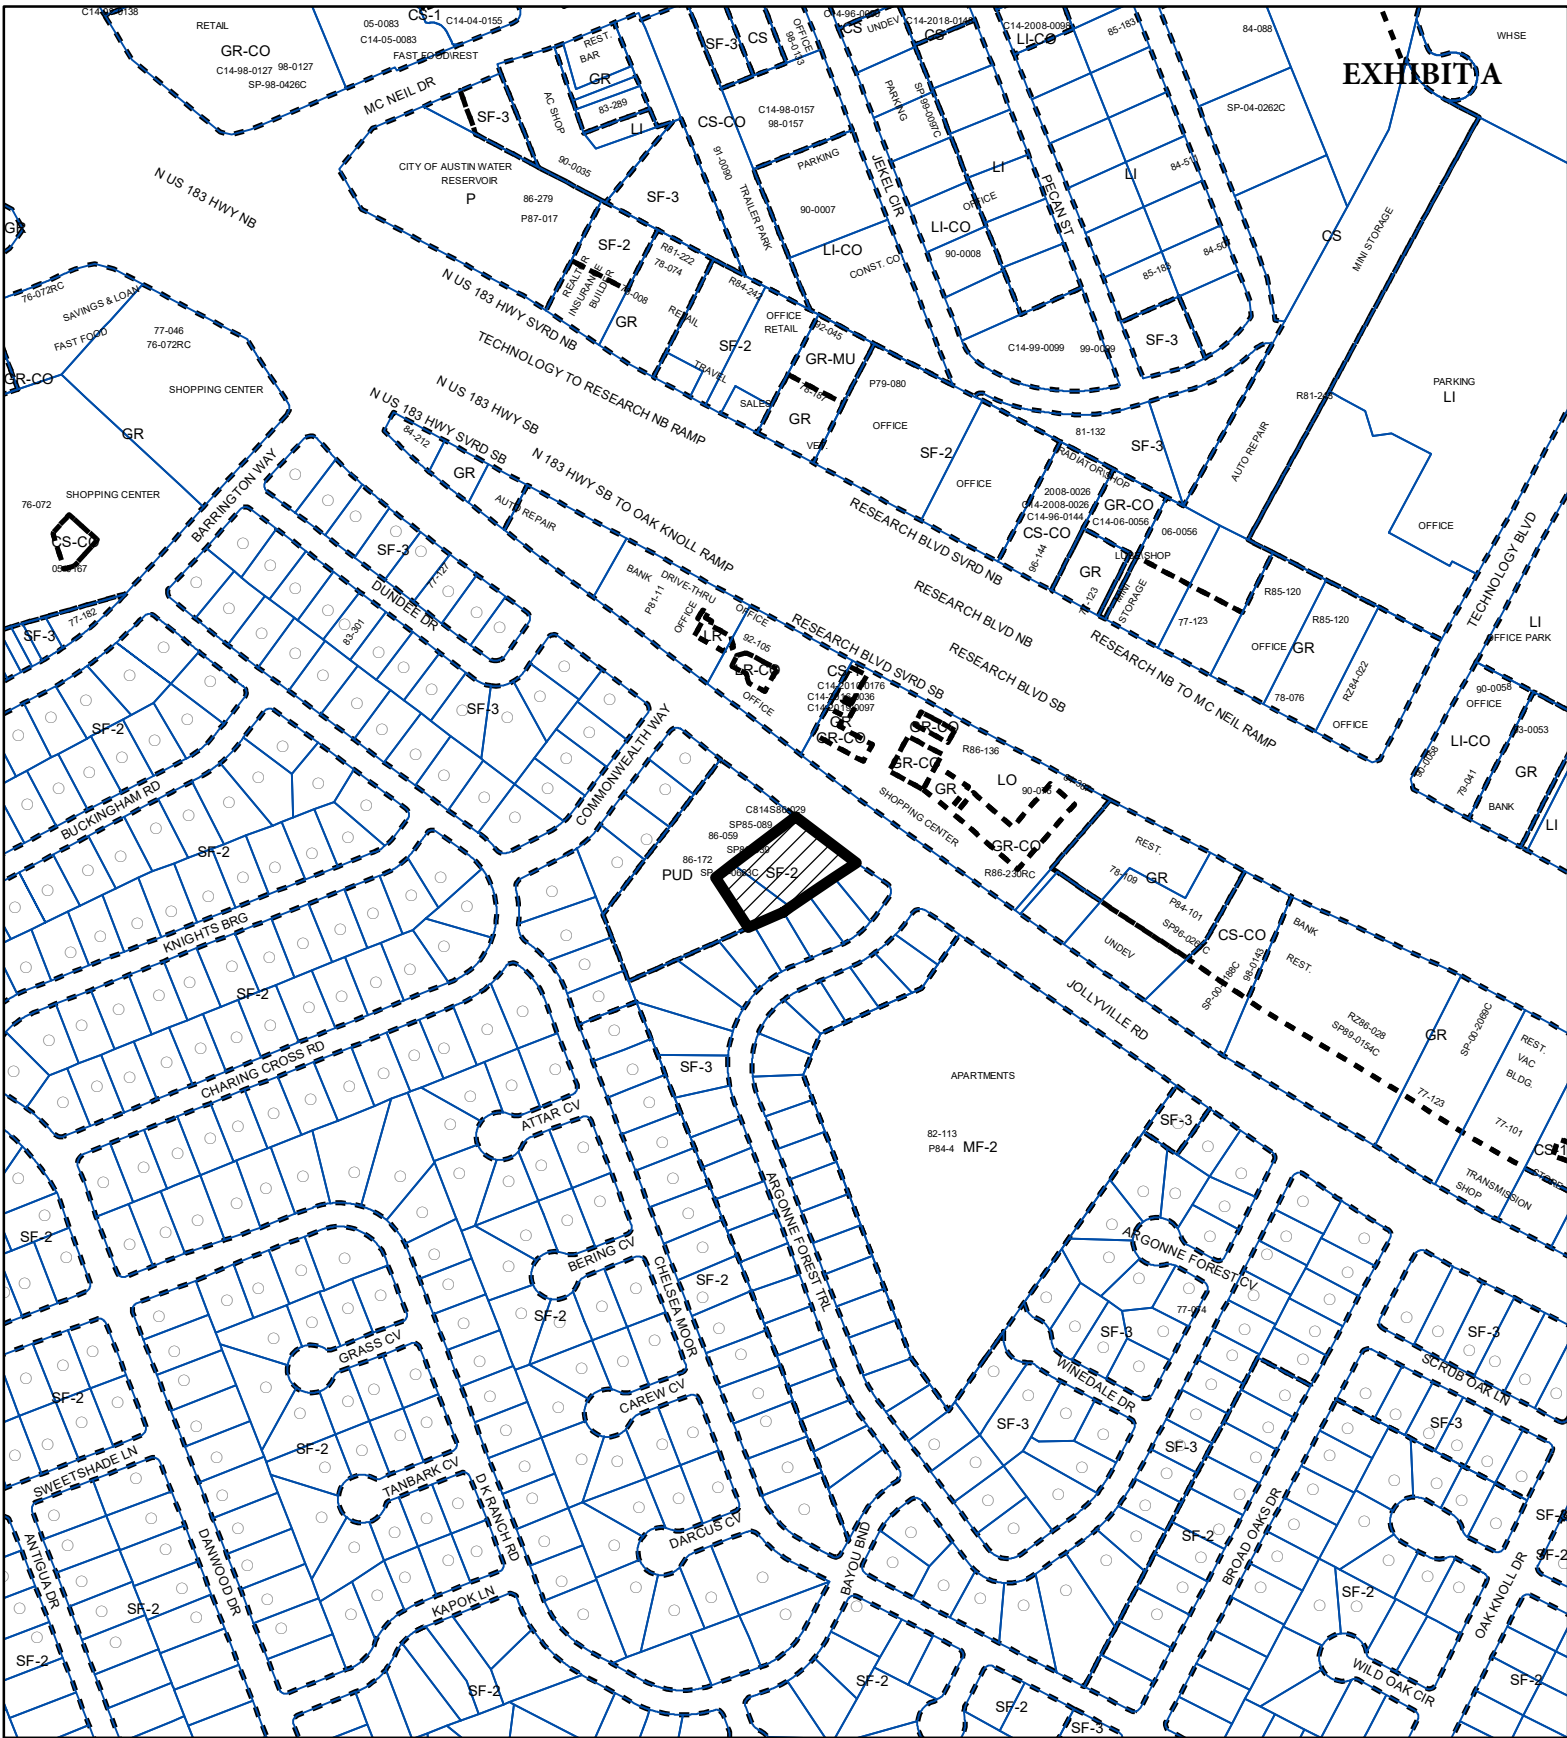

The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the land use. The water and wastewater utility plan must be reviewed and approved by Austin Water for compliance with City criteria and suitability for operation and maintenance.

Depending on the development plans submitted, water and or wastewater service extension requests may be required. All water and wastewater construction must be inspected by the City of Austin.

The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

REZONING APPLICATION

12182 JOLLYVILLE ROAD

CITY OF AUSTIN:

12182 is a 0.78 acre site currently Zoned SF-2. I propose Rezoning to MF-3.

The site is flat and level with commercial uses directly North and across the street on Jollyville.

There is a Metro Bus Route 383 bus stop North 0.2 miles away at the corner of Jollyville, Barrington and Research. There is another Metro Stop South 0.3 miles away on Research Blvd. The Metro Pavilion Park and Ride is about 0.5 miles South.

There are many many service businesses easily walkable from the site.

The developer plans to use the increased density for S.M.A.R.T. designated units and development.

David M. Spatz. Manager

Jollyville Development LLC

PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to participate in a public hearing, you are not required to participate. This meeting will be conducted online and you have the opportunity to speak FOR or AGAINST the proposed development or change. Contact the case manager for information on how to participate in the public hearings online. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date or may evaluate the City staff's recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin's land development process, visit our website:
www.austintexas.gov/planning.

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before the public hearing. Your comments should include the board or commission's name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice.

Comments: Jollyville can be hard to pull out onto from my apartment complex already. We just don't need ~~at~~ this so close to my apartment complex. Things seem to be fine the way they are. Why that piece of land on Jollyville Rd. There is a lot of cars and bikes that use this road. I am not for this at all!

NOTICE OF PUBLIC HEARING FOR REZONING

Mailing Date: May 7, 2020

Case Number: C14-2020-0046

Este aviso le informa de una audiencia pública tratando de un cambio de zonificación dentro de una distancia de 500 pies de su propiedad. Si usted desea recibir información en español, por favor llame al (512) 974-3531.

The City of Austin has sent this letter to inform you that we have received an application for rezoning of a property. We are notifying you because City Ordinance requires that all property owners within 500 feet, residents who have a City utility account address within 500 feet, and registered environmental or neighborhood organizations whose declared boundaries are within 500 feet be notified when the City receives an application.

Project Location:	12182 Jollyville Road
Owner:	Jollyville Development LLC, David Spatz, (415) 370-3417
Applicant:	Jollyville Development LLC, David Spatz, (415) 370-3417

Proposed Zoning Change:

From: SF-2 – Single-Family Residence (Standard Lot) district is intended as an area for moderate density single-family residential use, with a minimum lot size of 5,750 square feet. This district is appropriate for existing single-family neighborhoods having moderate sized lot patterns, as well as for development of additional single-family housing areas with minimum land requirements.

To: MF-3 – Multifamily Residence (Medium Density) district is intended to accommodate multifamily use with a maximum density of up to 36 units per acre, depending on unit size. This district is appropriate for multifamily residential areas located near supporting transportation and commercial facilities, generally in more centrally located areas, and in other selected areas where medium density multiple use is desirable.

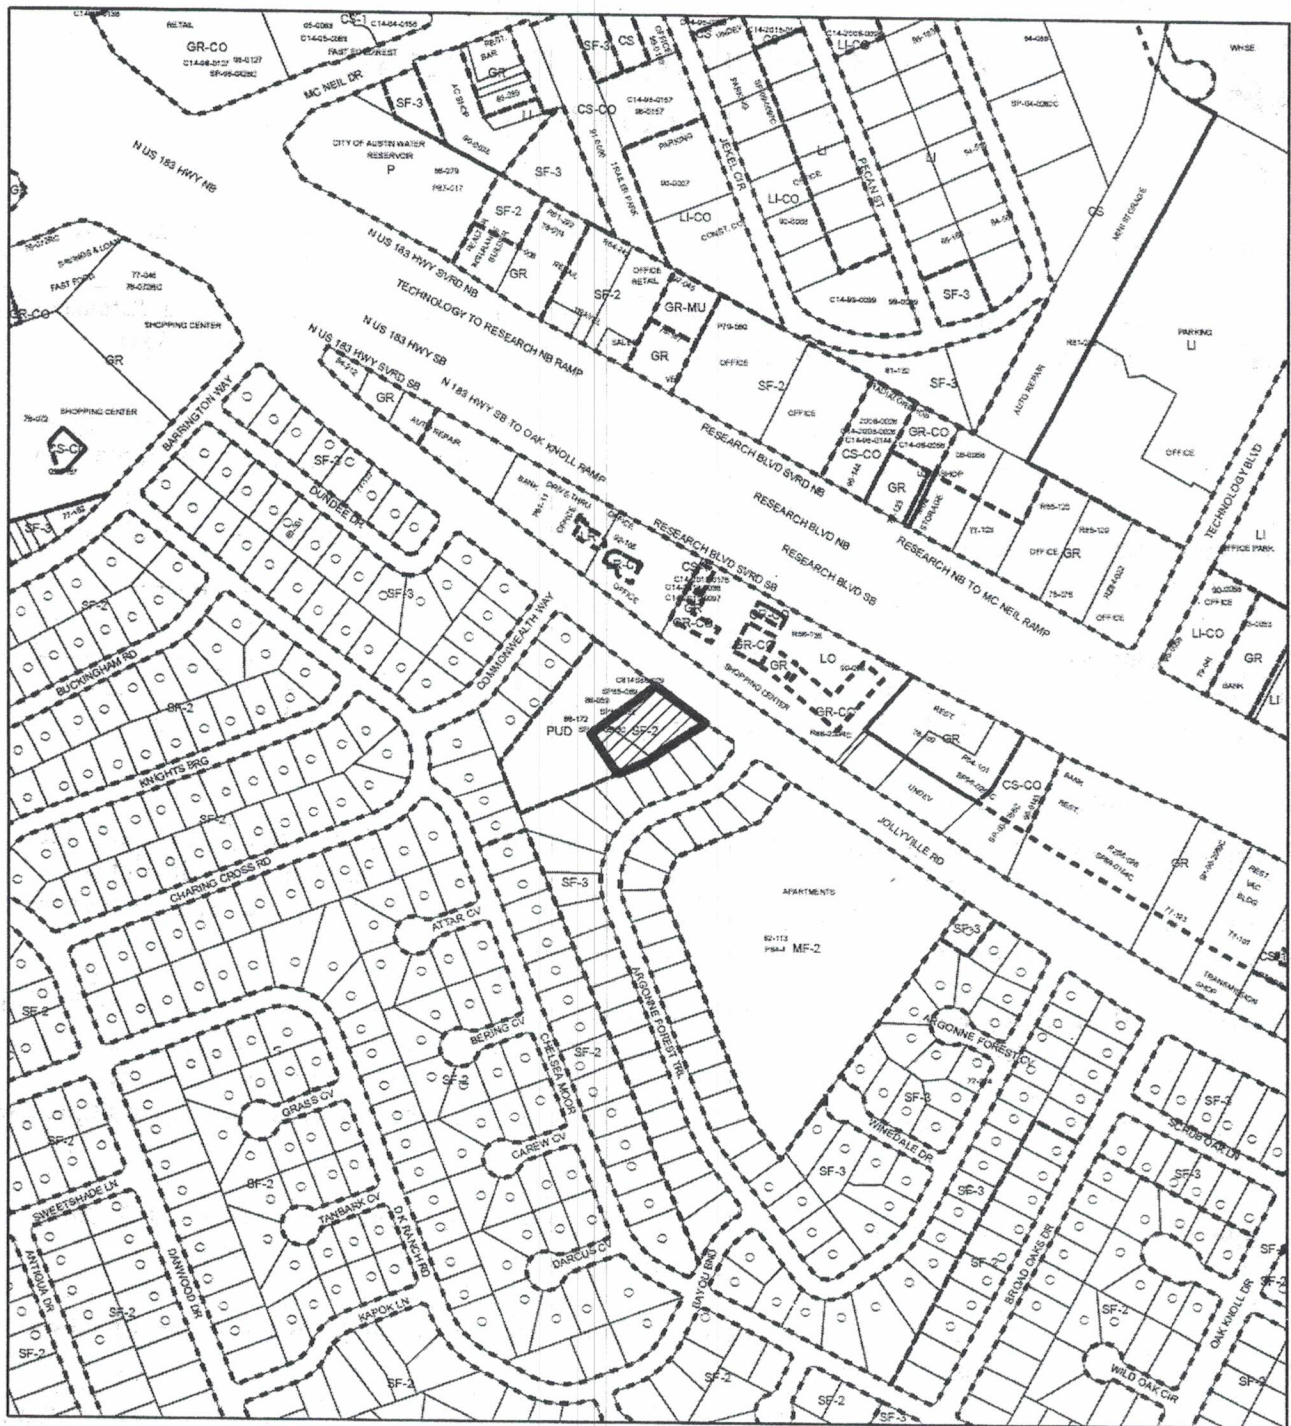

This application is scheduled to be heard by the **Zoning and Platting Commission** on **May 19, 2020**. The meeting will be held **online** and viewable at <http://www.atxn.tv> beginning at **6:00 p.m.**

To find out how to participate in the meeting, please contact the case manager listed below by email or phone or go to the following website:

Zoning and Platting Commission: <http://www.austintexas.gov/content/zoning-and-platting-commission>

You can find more information on this application by inserting the case number at the following Web site: https://www.austintexas.gov/devreview/a_queryfolder_permits.jsp.

If you have any questions concerning the zoning change application please contact, Sherri Sirwaitis of the Planning and Zoning Department at 512-974-3057 or via email at sherri.sirwaitis@austintexas.gov and refer to the Case Number at the top right of this notice. For additional information on the City of Austin's land development process, please visit our web site at: www.austintexas.gov/planning.

Austin Planning and Zoning Commission & Austin City Council
Proposed zoning change Case Number C14-2020-0046
From SF-2 to MF-3

May 17, 2020

Dear Sirs/MS.

I am sorry for the delay on responding, but I had cancer surgery on 5-15-2020 and had my left kidney removed.

I and my co-trustee, Keith A. Anderson as well as my renters are totally against this rezoning application.

Please consider the following:

- 1. In the past this has been a green belt with only a branch operation of Austin Telco on the property and the rest green belt.**
- 2. SF-2 zoning the square footage per acre is 5,750 square feet per acre for a total number of units equaling 7.56 units per acre.**
- 3. MF-3 would allow 36 units per acre, with an average square feet per unit of 1,210 This would allow very small units, that would indicate multi-story apartment construction. This project would cover 34,919 square feet and allow for 20 to 26 units and allow for 2 and 3 story construction,**

4. No current resident within 500 feet of this proposed construction site would want multi-family units overlooking their privacy fences into their backyards and resident's windows.
5. This Jolleyville Apartments with two and three story construction will eliminate current family privacy! My property has a swimming pool and multi- story construction in this area with eliminate all privacy!
6. There are no MF-3 units in this area of, SF-1 and SF-2 single floor construction and I can see no need for multi-story construction in a historically single and duplex residence, SF-2/SF-3 residential area with single floor construction.
7. This would significantly increase the population density of the area if rezoned to MF-3 and have a negative effect on existing residences in the immediate area.
8. This rezoning application will have a very negative effect on property values and thus on Austin and school district taxes.

Sincerely,

Rick F. Anderson

During its public hearing, the City Council may grant or deny a zoning request or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin's land development process, visit our website: www.austintexas.gov/planning.

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before the public hearing. Your comments should include the board or commission's name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice.

Case Number: C14-2020-0046

Contact: Sherri Sirwaitis, 512-974-3057

Public Hearing: May 19, 2020, Zoning and Platting Commission

Comments: 36 unit per acre is too dense, especially
since they are going narrow to Uprville Rd.
There is no parking available.

OBJECTION TO REZONING CASE C14-2020-0046

1. **PRIVACY:** The area is SF-2 and SF-3 properties and have been since being built in the 70's. Similar SF-2/3 construction would not be a problem. The introduction of MF-3 with 2 and 3 story construction will create privacy concerns in backyards and windows facing this project. This will affect 15 SF-2 and SF-3 properties and eliminate family privacy!
2. This rezoning will increase traffic on and off Jollyville road and negatively affect drivers and bicyclist. Since there are no traffic lights or pedestrian crossing areas, residents will be at risk crossing Jollyville Road.
3. There is only one MF-2 construction: SHADOW OAKS APPTS., Low density. The introduction of MF-3, Medium density construction is not consistent with the previous 50 year land zoning and use plan!
4. This will introduce a maximum of 28 units into .7779 acre area which historically would accommodate 7.56 SF-2 units. An increase of 371%.

ZONING

ZONING CASE#: C14-2020-0046

-  SUBJECT TRACT
-  PENDING CASE
-  ZONING BOUNDARY

1" = 400'

This product is for informational purposes and may not have been prepared for or be suitable for legal, engineering, or surveying purposes. It does not represent an on-the-ground survey and represents only the approximate relative location of property boundaries.

This product has been produced by CTM for the sole purpose of geographic reference. No warranty is made by the City of Austin regarding specific accuracy or completeness.

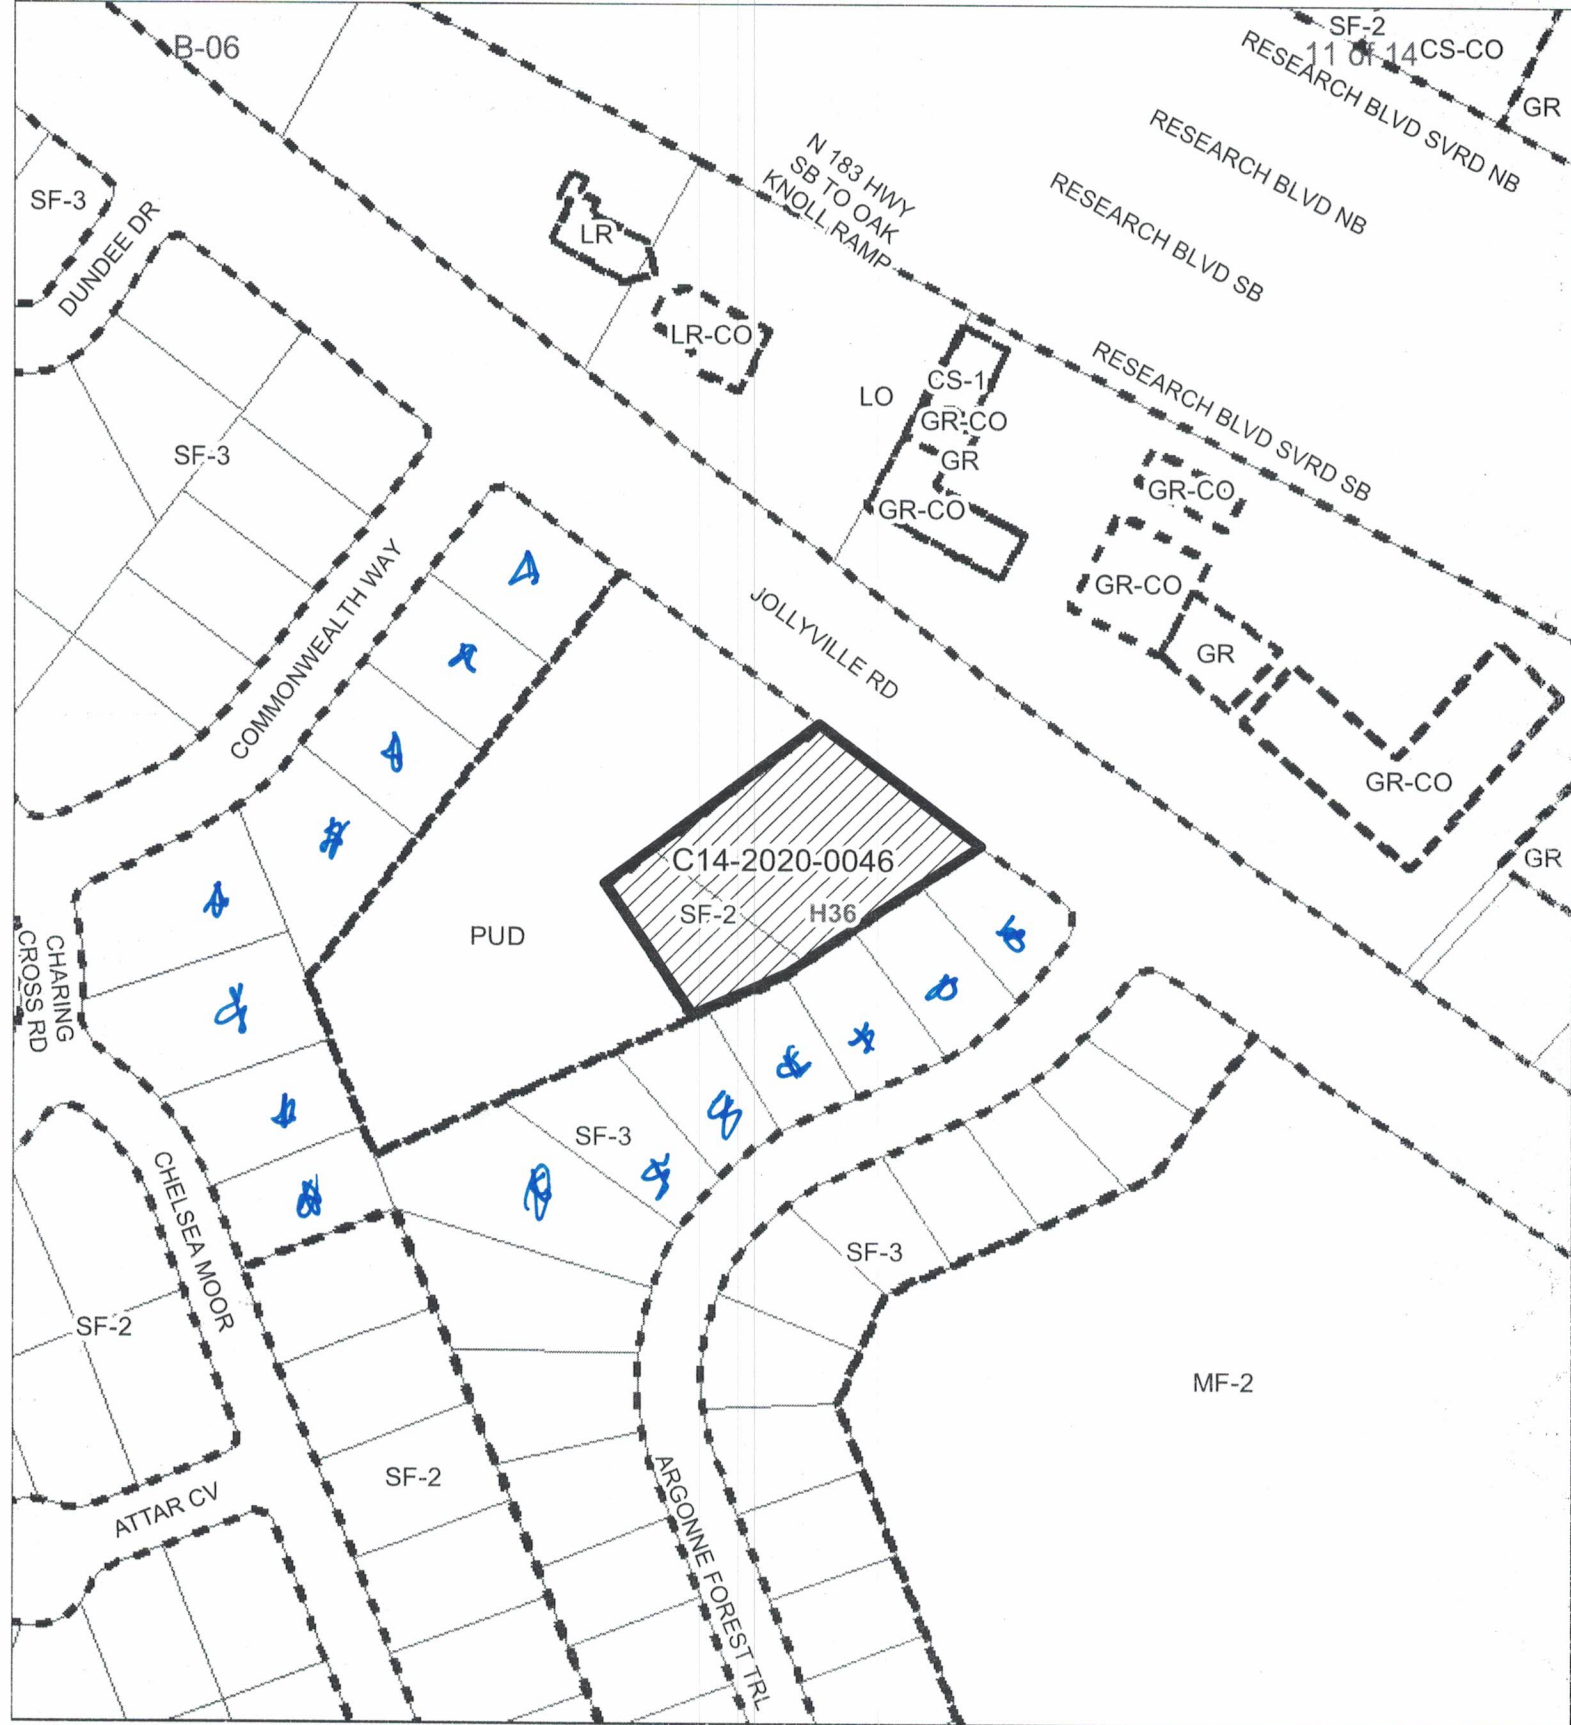

Created: 4/2/2020

5. The Austin Telco property is approximately 2 acres and could be developed in the future into 72 MF-3 units. The introduction of MF-3 zoning could change this property from a green belt into a crowded area with a 100 units!
6. Introducing MF-3 medium density housing into this area will negatively affect property values, City, County School District taxes and reduce the quality of life in this area.

Sincerely,

Rick F. Anderson,
Owner, Trustee and Executor of
Ruby J. Anderson Trust
