

MEMORANDUM

To: Wendy Rhoades, Case Manager
CC: Victoria Haase; Dan Hennessey, P.E.; Curtis Beaty, P.E.; Amber Mitchell
FROM: Justin Good, P.E.
DATE: August 25, 2020
SUBJECT: Addendum to Neighborhood Traffic Analysis for 4400 Nuckols Crossing
Zoning Case # C14-2017-0010.SH

This memorandum serves as an addendum to the neighborhood traffic analysis (NTA) memo dated July 21, 2020.

Taking into account additional considerations and discussions since issuing the NTA memo, Austin Transportation Department (ATD) staff expands Recommendation Item #2 to include more options for further analysis and review at time of subdivision or site plan. These options include:

- a) Dedicated right-turn and left-turn lanes for vehicles entering the site and an acceleration lane for vehicles turning left out of the site.
- b) Restricting the movement for vehicles exiting the site to right-out only and installing an all-way STOP at the intersection of Nuckols Crossing Road and Viewpoint Drive.

At the time of subdivision or site plan, ATD may also assess additional access schemes not presented in this addendum. The review of additional alternatives will be at ATD's discretion.

If you have any questions or require additional information, please contact me at 974-1449.

Justin Good, P.E.
