Dear Cesar,

My family and I reside at 8609 Green Vly. Austin, Texas 78759, and we wanted to express our opposition to the resub of this lot. The owners have never resided on this property, adding another structure would cause the removal of a live oak tree, and it will add an additional driveway into Hyridge, which is a street that is not targeted for higher density by the city. Please feel free to contact me with any questions

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

Commission is required to approve the subdivision by State law if no variances are required, and if it meets all requirements. A board or commission's decision on a subdivision may only be appealed if it involves an environmental variance. A variance may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision. A notice of appeal must be filed with the director of the responsible department no later than 14 days after the decision. An appeal form may be available from the responsible department.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
 - appearing and speaking for the record at the public hearing;
- and:
- occupies a primary residence that is within 500 feet of the subject property or proposed development;
 - is the record owner of property within 500 feet of the subject property or proposed development; or
 - is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

For additional information on the City of Austin's land development process, visit our web site: <http://www.austintexas.gov/development>.

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before or at a public hearing. Comments: This will create an even more dangerous intersection. There are already several driveways. It is on an incline, it is in a curve and is on a major cut-through route to area schools. There are approx 15 driveways within 150 ft (a car going 30mph requires 45' to stop), no sidewalks, near a local swim club, lots of people walking, and not good lines of site.

Cindy,

Attached are my written objections to the proposed resubdivision of the lot located at 4201 Hyridge Dr. I do not understand how this could even be considered because it would put the curb cut for a driveway into the intersection itself. Surely, there are guidelines and/or restrictions that would not allow that. It seems all of this effort (mailings, scheduling, hearings, etc) is not a good use of tax dollars and, in my opinion, should have been nixed when this first came up in the past. This is not my first response to this issue.

To recap what I have written and signed:

It would make a dangerous intersection even more dangerous.

It is in a curve and on an incline.

There are approx 15 driveways within 150' plus 2 other intersections.

It is on a major cut-through route to area schools, including a high school.

Sidewalks are few.

Lots of people walking with inadequate lines of sight.

The house located at 8700 Mountain Ridge Dr has had several cars crash into it because of the incline and curve (the previous owner had big rocks placed at the corner of his lot to act as a barricade to protect his property)

Thank you for your attention to this and your consideration of these matters.

Respectfully,
Don Carrington

RE: Public Hearing August 4, 2020, Zoning & Platting Commission

Mr Zavala,

I am writing to object to the proposed resubdivision of 4201 Hyridge Dr. by Avalon Engineering & Land Development, & owners, Stephen & Ellyn Yacktmann. The owners of the property seeking this subdivision have never used this property as a residence. Dividing the current small, wooded lot so that another structure can be added will mean uprooting lovely old trees & adding another driveway entrance to a neighborhood road. And, Hyridge is not a major artery area where adding housing density has been targeted by the city.

Thank you for your consideration,
David Spence (512-554-9350) & Maria Winchell (512-576-1658)

I live across the street from this property. It is on a curve, a hill, and at an intersection. New stop signs were put in last year, but they are completely ineffective. Cars and trucks rarely stop and only occasionally slow down. Most commonly, the cars and trucks continue through the stop signs without slowing at all. There is a lot of traffic on this street at this location. There is also a lot of pedestrian traffic with walkers, walkers with pets, children on foot, and on bicycle, runners, and cyclists, all trying to avoid being hit by fast moving cars. **I oppose this subdivision because it is already a dangerous street and adding another residence at this location would only increase the danger.**

Additionally, the owners of this property do not live in the house and haven't since they bought it. The house is vacant during the summers, and has a number of different cars visiting on a daily basis during the year. No one actually LIVES there, which has attracted crime on at least one occasion. Not exactly ideal for a residential

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

Commission is required to approve the subdivision by State law if no variances are required, and if it meets all requirements. A board or commission's decision on a subdivision may only be appealed if it involves an environmental variance. A variance may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision. A notice of appeal must be filed with the director of the responsible department no later than 14 days after the decision. An appeal form may be available from the responsible department.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
 - appearing and speaking for the record at the public hearing;
- and:
- occupies a primary residence that is within 500 feet of the subject property or proposed development;
 - is the record owner of property within 500 feet of the subject property or proposed development; or
 - is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

Comments: Subdividing the lot would be unsafe because of traffic and sight line conditions at this location. The driveway for the new lot would need to be in the intersection. This is a highly trafficked road and creating an unsafe driveway could (and probably will) yield real world safety consequences.

That property is in a blind curve
with a street that T's into it.
I do not feel like it is safe.
If the property is subdivided the

Comments:

I oppose this subdivision because it is a dangerous street and adding another residence at this location would only increase the danger. There is a lot of traffic on this street at this location. Most drivers run the stop signs. Additionally, the owners of this property do not live in the house and haven't since they bought it. The house is vacant during the summers, and has a number of different cars visiting on a daily basis during the year. No one actually LIVES there, which has attracted crime on at least one occasion. Not exactly ideal for a residential neighborhood! I am opposed to doubling the trouble. Just NO!

Comments:

The lot is situated such that an additional
division of the property would not be
conducive to safe and easy access.

Any driveway would be located on a
curve in conjunction with a hill and
dramatic change in elevation. It would
create a blind and dangerous situation.
