			<p>TOTAL</p>	<p>\$12667.43</p>	<p>25184.93</p>

PROGRAMMING

- Highlight history
- More plays
- More arts
- Showcase pottery
- Salon/barbershop
- Sports
- Mental Health
- Video Editing

SOLUTIONS

- **Education - an appropriate budget to secure educating Austin's youth in terms of Artistic and business practices.**

ASK

- **What can we do to empower children?**

Ensuring that children are brought up as creatives, using an art as therapy model and a reward system for good grades.

Teaching and building confidence in children by empowering them to make their own creative decisions, and training youth to problem solve through artistic and technical curriculum. Also historical art and language writing programs.

- **What lessons can we teach?**

Music Production, Video, Creative writing, Yoga, Meditation, Photography, Live performing, songwriting, music theory, instrumentation, theater, technical theater, stage crafting and production design.

- **What with these newly upgraded facilities can we instruct children and give them the skilling they need to be successful in their classes, and also harness their talents to build a career from an early age.**

Ideally these upgrades will provide children a way to gain access to the building blocks that will help them take away lessons they will learn for life. These upgraded facilities will serve as a pipeline to facilitate our goals in teaching Austin's youth that they truly can accomplish anything, so long as they set their mind to it.
