## Environmental Review - Pamela Abee-Taulli - 512-974-1879

EV 1 Cleared

ESC FISCAL SURETY [LDC 25-1, Article 5; ECM Appendix S-1]

EV 2 Send a conceptual erosion & sedimentation control plan along with the fiscal estimate for erosion/sedimentation controls and revegetation based on ECM Appendix S-1 to [pamela.abee-taulli@austintexas.gov](mailto:pamela.abee-taulli@austintexas.gov). A conceptual ESC plan is necessary to assess the accuracy of the ESC fiscal estimate. Additional fiscal posting might be required at the time of subdivision construction plan ESC review.

- Sites with a limit of construction greater than one acre must include a \$3000 per acre LOC clean-up fee in the fiscal estimate. [LDC 25-8, Subchapter A, Article 5; ECM Appendix S-1]
- Sites with a limit of construction greater than 25 acres are required to show phasing of disturbance tailored to the specific site conditions. A phased ESC plan and phased fiscal estimate are required. [LDC 25-8, Subchapter A, Article 7, Division 4; ECM 1.4.4]
- The revegetation line item quantity must equal the entire LOC area less any existing impervious cover proposed to remain. This is necessary in the event that construction ceases after vegetation has been removed from within the LOC. [LDC 25-8, Subchapter A, Article 5; ECM Appendix S-1]

**Update 1** **Comment not cleared.** Erosion controls are not sufficient. With existing and proposed slopes varying from 2 to 5 percent, ECM 1.4.5.G.1 calls for 3000 to 4000 linear feet of silt fence on the downslope side of flow, with a maximum spacing interval of 250 feet. Please revise accordingly.
