

**Water & Wastewater Commission
Review and Recommendation**

Commission Meeting Date:	October 14, 2020	COA Strategic Direction:	Health and Environment
Council Meeting Date:	October 29, 2020		
Department:	Capital Contracting		
Client:	Kevin Koeller, Shay Roalson, Michael Deas		
Agenda Item			
Recommend approval to execute change order No. 14 in an amount not to exceed \$825,157.76 to the construction contract with SJ Louis Construction of Texas, Ltd., for the Parmer Lane Interceptor project, plus an additional contingency in the amount of \$300,000, for a total contract amount not to exceed \$28,549,489.76. (District 6)			
Amount and Source of Funding			
Funding is available in the Fiscal Year 2020-2021 Capital Budget of Austin Water.			
Purchasing Language:	Original contract was awarded through a competitive Invitation for Bid solicitation process.		
Prior Council Action:	December 1, 2016 – Council approved a construction contract with SJ Louis Construction of Texas, LTD., for the Parmer Lane Interceptor project.		
Boards and Commission Action:	October 14, 2020 — To be reviewed by the Water and Wastewater Commission.		
MBE/WBE:	This change order will be executed in compliance with City Code 2-9B (Minority Owned and Women Owned Business Enterprise Procurement Program). Current participation to date is 5.33% MBE and 1.44% WBE.		

The Parmer Lane Interceptor project involves the installation of over two miles of 42-inch diameter wastewater pipeline along Parmer Lane between Anderson Mill and McNeil Roads to better protect the public health and the environment and reduce operating expenses by removing aged and underperforming wastewater facilities.

Once installed, wastewater will flow by gravity to the Walnut Creek wastewater treatment plant, enabling the decommissioning of the Lake Creek and Rattan Creek lift stations which will increase reliability and lower operation and maintenance requirements.

Prior change orders have been required due to in-situ conditions differing from predicted conditions, which resulted in substantially slower than expected tunneling and excavation progress.

Increased wastewater flows due to population growth, a more conservative modeling approach, and an optimized tie-in design have increased the quantity and duration of bypass pumping required to connect the new wastewater main and decommission existing lift stations. Change order No. 13 allows for the successful integration of the Parmer Lane Interceptor into the existing wastewater system, as well as capturing additional costs associated with a culvert installation, COVID-19 delays, and an auxiliary sanitary sewer line. Beyond change order No. 13, the need for additional project contingency is due to the potential of additional unforeseen conditions and will allow for the expeditious processing of any additional change orders.

The construction is occurring entirely within City property and Austin Water permanent and temporary easements. This project has minimal impact to the public.

If council does not approve this item, the Parmer Lane Interceptor will be unable to be placed in operation.

The contract allows 1,410 calendar days for completion of this project. This project is located within zip code 78729 and 78727 (District 6). The project is being managed by the Public Works Department.

SJ Louis Construction of Texas, Ltd. is located in Mansfield, Texas.

M/WBE Summary

Participation goals stated in the original approved compliance plan were 1.06% African American; 2.96% Hispanic; 0.29% Native/Asian; and 0.81% WBE. The participation for Change Order #14 in an amount of \$825,157.76:

NON M/WBE TOTAL – PRIME	\$ 649,032.76	78.66%
SJ Louis Construction Of Texas, Ltd., Mansfield, TX	\$ 649,032.76	78.66%
MBE TOTAL – SUBCONTRACTORS	\$ 0	0%
WBE TOTAL – SUBCONTRACTORS	\$ 0	0%
NON M/WBE TOTAL – SUBCONTRACTORS	\$ 176,125.00	21.34%
Superior Pump Solution, LLC, San Antonio, TX (Bypass Pumping)	\$ 176,125.00	21.34%

Overall participation based on contract expenditures as of October 1, 2020 (not including this change order):

PRIME:

91.22% Non M/WBE

SUBCONTRACTORS:

1.07% African American; 3.77% Hispanic; 0.49% Native/Asian; 1.44% WBE; and 2.01% Non M/WBE

TOTAL:

1.07% African American; 3.77% Hispanic; 0.49% Native/Asian; 1.44% WBE; and 93.23% Non M/WBE
