

# **Request for Action (RFA) for use of Competitive Sealed Proposal contracting method for the Creek Delta Project**

Diana Wang, PE - Watershed Protection Department  
Garrett Cox - Capital Contracting Office

## Competitive Sealed Proposal

### Benefits:

- Most similar to traditional competitive bidding (Design/Bid/Build)
- Contractor selected by Best Value
- Factors other than price considered in the selection process
- Cost proposals can be negotiated (clarified)

### Considerations:

- Approximately 5 months for the solicitation process
- Requires complete drawings & specifications

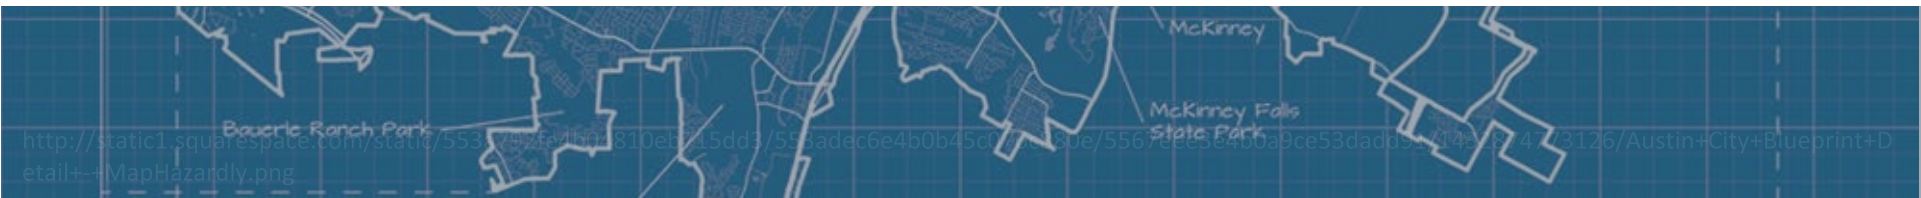

## Benefits to the Creek Delta Project

Contractor will be evaluated and selected based on experience with complex and specialized work:

- Dewatering, streambank restoration, unique ecological features
- Landscape design and plantings, elevated trails and bridges, SITES certification
- Downtown utility/ROW and adjacent development coordination

Other evaluation criteria include:

- Quality of Services and Past Performance
- Quality of Safety Record
- MBE/WBE Program Participation
- Key Personnel experience
- Technical experience
- Cost Proposal
