

ENVIRONMENTAL COMMISSION MOTION 20210203 003a

Date: February 3, 2021

Subject: Consider proposed annexation of 36 properties (approximately 115.4 acres) into Travis County Water Control and Improvement District No. 10, C12-M-2020-0137

Motion by: Kevin Ramberg

Seconded by: Pam Thompson

RATIONALE:

WHEREAS, the Environmental Commission recognizes the annexation into the District will not affect the City of Austin's annexation plans and staff does not anticipate any negative land use impacts on adjacent property; and

WHEREAS, the Environmental Commission recognizes that staff finds that direct water and wastewater service is not feasible given the properties are currently in the Camelot Water Supply Corporation CCN and due to the non-proximate location of the properties in relation to the City system; and

WHEREAS, the Environmental Commission recognizes that the regulations for development will follow the same rules and processes currently in effect if the District annexes the tract.

THEREFORE, the Environmental Commission recommends consent to the proposed annexation of the 36 properties, comprising 115.4 acres, into the Travis County Water Control and Improvement District No. 10.
