

2nd MOTION SHEET
Zoning Case No. C14-2020-0116

Move approval on 3rd reading of item number 89 with further direction to the City Manager as follows:

- ATD staff should identify the findings and recommendations from the FM1626 Preliminary Engineering Report (PER) that are being incorporated into actual projects by TxDOT or other agencies; and identify what is yet to be funded/programmed in the four years since the report was completed
- ATD staff should summarize what transportation improvements that have been constructed -- or required to be constructed -- due to mitigations from approved developments in the FM1626/Old San Antonio Rd./Brezza Lane/S 1st St. area in the period since the FM1626 PER was completed
- ATD staff should identify the transportation infrastructure needs in the FM1626/Old San Antonio Rd./Brezza Lane/S 1st St. area that are not mentioned in the FM1626 PER due to increased development activity-and are identified in the City Council adopted Austin Strategic Mobility Plan.
- ATD staff should consult with Watershed Protection Department, Public Works Department, Parks and Recreation Departments and any other relevant departments in this comprehensive work as well as review and reprioritize sidewalk and bicycle master plans in the area and identify the mechanisms by which improvements can be made
- ATD staff will identify previously funded work, i.e., mobility bonds and programmed projects, that are applicable and can contribute to this work and identify any funding mechanisms-that have not been utilized.
- ATD will report the results of this work to the City Manager and the Council District 5 office by October 1, 2021
