We are writing to express our support for the demolition of 503 E Annie Street. We know the owners, who live next door at 501 E Annie, to be thoughtful and considerate neighbors seeking to build a fully accessible structure connected to their current home for both sets of their aging parents. Further delaying a decision to release the demolition permit when it has already been established by the City staff that the current home does not meet any criteria for landmark designation calls into question the motivation behind such action. This is a circumstance of children performing a most selfless act of tender care. To stand in their way without justifiable cause seems oddly unfair.

Thanks,
