Dear Commissioners,

OWANA's zoning committee met with the architects on this project and we voted to support it enthusiastically for the following reasons:

- Maintaining a contributing structure to our National Historic Register
- New building redesign fits within the street historic façade and the neighborhood

The fact the Mr. Logan and the owners went back to the drawing board and produced this excellent redesign makes all the hardship of serving on this zoning committee so worthwhile.

Sincerely yours,

Rosemary Merriam  
Chair, OWANA Zoning Committee
