### Section 1: Applicant Statement

Street Address: 1025 Ellingson Ln Austin, TX 78751

Subdivision Legal Description:

LOT 24 OLT 18 DIV C MAYFAIR TERRACE

Lot(s): 1 Block(s): \_\_\_\_\_

Outlot: \_\_\_\_\_ Division: \_\_\_\_\_

Zoning District: SF-3

I/We David Weekley Homes on behalf of myself/ourselves as authorized agent for Lena Banks & Amias Maldonado affirm that on Month March, Day 29, Year 2021, hereby apply for a hearing before the Board of Adjustment for consideration to (select appropriate option below):

Erect  Attach  Complete  Remodel  Maintain  Other: \_\_\_\_\_

Type of Structure: Secondary Apartment

Portion of the City of Austin Land Development Code applicant is seeking a variance from:

We are requesting a variance from Land Development Code section 25-2-1463 (C)5(a) for a SF-3 residential property for the floor-area-ratio of the secondary apartment to be increased from .15 to .1587. Per code, secondary apartment may not exceed 1100 SF or a floor-area-ratio of 0.15, whichever is smaller. Our existing home is currently at a .1587 FAR, which is an overage of .0087. In terms of percentages, the city allows the secondary apartment to be 15% the size of the lot. We are asking for an additional .87% of the lot for the ADU, to 15.87%. We are also decreasing the max size of the future primary dwelling by .0087, to ensure the total FAR does not exceed .40. upon completion.

## Section 2: Variance Findings

The Board must determine the existence of, sufficiency of, and weight of evidence supporting the findings described below. Therefore, you must complete each of the applicable Findings Statements as part of your application. Failure to do so may result in your application being rejected as incomplete. Please attach any additional supporting documents.

**NOTE: The Board cannot grant a variance that would provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly situated.**

I contend that my entitlement to the requested variance is based on the following findings:

### Reasonable Use

The zoning regulations applicable to the property do not allow for a reasonable use because:

The zoning regulations applicable to the property do not allow for a reasonable use because they don't consider existing structures being used as the Secondary Apartment. It is not reasonable that the people who designed/built this structure in 1957 knew that there would be a limit of 966 SF 50 years later.

### Hardship

a) The hardship for which the variance is requested is unique to the property in that:

Our lot is 6440 SF, which means the maximum size the ADU can be is 966 sf. The existing home that has been there since 1957 is 1022 SF and would need to be shrunk by 56 SF in order to comply. The layout of the existing home is a compact 3-bedroom home with very small common living space. Reducing the home by 56 SF would result in removing a bedroom, which would be a hardship in reducing a 3-bedroom home to a 2-bedroom home.

b) The hardship is not general to the area in which the property is located because:

The hardship is not general to the area in which the property is located because the existing house size and location is very unique. A quick aerial study of homes in the immediate area (approximately 1/2- mile radius) found no other homes with this unique situation.

**Area Character**

The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

The variance will not alter the character in which the property is located because: 1) we are doing our best to keep the existing structure unchanged, and the structure will be very visible from the street due to the trees forcing the new home to be placed on the side of the lot. 2) granting this variance will in no way impair the use of adjacent conforming properties, and 3) does not impair the SF-3 zoning in any way.

**Parking** (additional criteria for parking variances only)

Request for a parking variance requires the Board to make additional findings. The Board may grant a variance to a regulation prescribed in the City of Austin Land Development Code Chapter 25-6, Appendix A with respect to the number of off-street parking spaces or loading facilities required if it makes findings of fact that the following additional circumstances also apply:

- 1. Neither present nor anticipated future traffic volumes generated by the use of the site or the uses of sites in the vicinity reasonably require strict or literal interpretation and enforcement of the specific regulation because:

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

- 2. The granting of this variance will not result in the parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic of the streets because:

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

- 3. The granting of this variance will not create a safety hazard or any other condition inconsistent with the objectives of this Ordinance because:

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

- 4. The variance will run with the use or uses to which it pertains and shall not run with the site because:

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

**Section 3: Applicant Certificate**

I affirm that my statements contained in the complete application are true and correct to the best of my knowledge and belief.

Applicant Signature: *David Weekley* Date: \_\_\_\_\_

Applicant Name (typed or printed): David Weekley Homes

Applicant Mailing Address: 9000 Waterford Centre Blvd

City: Austin State: TX Zip: 78758

Phone (will be public information): (512) 821-8831

Email (optional – will be public information): [REDACTED]

**Section 4: Owner Certificate**

I affirm that my statements contained in the complete application are true and correct to the best of my knowledge and belief.

Owner Signature: *Amias Maldonado & Lena Banks* Date: 4/1/2021

Owner Name (typed or printed): Amias Maldonado & Lena Banks

Owner Mailing Address: 1025 Ellingson Ln

City: Austin State: TX Zip: 78751

Phone (will be public information): \_\_\_\_\_

Email (optional – will be public information): [REDACTED]

## **Explanation of hardship when reducing the rear home (existing) by 56.**

Address: 1025 Ellingson Lane  
Owner: Amias Maldonado & Lena Banks  
Case # 2020-178348 PR

The existing home was built in 1957 and is a compact 3-bedroom, 1-bathroom residence. The owners currently live in the home and intend on living here during the construction of their new home at the same address. This existing home would transition from being the primary dwelling to being a secondary apartment behind the new primary dwelling.

The city limits secondary apartments to 15% of the lot size, or 1100 SF, whichever is smaller. In this case, the lot size limits a secondary apartment to 966 SF. The measured size of the structure is 1022 SF. In order to comply without a variance, we would need to remove 56 SF.

While it is arguable that there are an infinite number of ways 56 SF could be removed from this structure, there are a few methods that would render the home non-functional. For example:

- Removing the kitchen or the bathroom, or removing portions (such as the sinks or the commode) would render the home unlivable. So, we are not considering remodel options that would significantly reduce those rooms, which are already small.

There are two trees near the structure. One is a 34" pecan and the other is a 19" pecan. We spent countless hours consulting with Jim Gobel to make sure the trees were impacted as little as possible. Our new home is pushed all the way to the right side of the lot in effort to minimize impacting the tree root zones. If we removed space from the existing home on the left side or front wall, we would be additionally impacting the root zones and we would prefer to avoid that as much as possible. The less traffic and construction in that area, the better off those trees will be.

We sketched some concepts of where we could remove 56 SF from the house (see exhibit 'A'). No matter what we do to shrink 56 SF we end up making one of the rooms dysfunctional (which would certainly be a hardship) or would result in losing a bedroom altogether (also a hardship, as the family currently needs and uses all three bedrooms).

Our findings while exploring this project are summarized as follows:

- 1) Removing an entire bedroom would be a hardship for the family.
- 2) Reducing the living room to about 10' wide would be a hardship for normal use of that room.
- 3) Reducing the bedroom to 8'-3" would be a hardship considering the limited space it would have.
- 4) Any remodel on the left/front portion of the house would create a hardship on the trees' root zones.
- 5) Even if all items above could be resolved and the house was to be remodeled, asking the family to move out for several months to perform the remodel would be a hardship. The family has a 4-year-old child that they would prefer not to move to a new home more than is necessary.

Thank you for your consideration.
