Feedback on Viva Mexico (34 Responses) "The MACC absolutely should represent the spectrum of Latino culture, including Afro and Asian Latinos. we have a tremendous wealth of Latino culture in Austin, not just the contributions of Mexican-Americans...Let's

celebrate and honor the diversity of our collective Latinx heritage. That heritage enriches the lives of all Austinites....”

Arts Responders

The division awarded funds to artists that had submitted proposals to the Arts Responders project. Two Artists have been commissioned by the MACC to train in social practice, a collaborative and participatory approach to public art, then organize and engage community in an artistic response to COVID-19. The two selected are Guateque Son who will produce a bilingual music video along with a community based Latino Musician/Artists Intergenerational PSA focused on sharing safety tips and safety guidelines for the Austin community especially targeting and connecting with the Latino community. The other artist is Jonathan Muzacz with his Be a Leader...Wear a Mask mosaic featuring an Afro-Latino female.
