

# Water Forward Code Amendments and Related City Council Resolutions

Water Forward Task Force  
Meeting | June 15th , 2021

# Resolution No. 20210520-063

- Directs the City Manager to consult with Austin Water staff and seek input from the Water Forward Task Force regarding the implementation of the below strategies:
  - Dual plumbing ordinance for new larger commercial and multifamily development
  - Expansion of current reclaimed water system connection requirements
  - Water benchmarking and budgeting for new development
  - Landscape transformation ordinances and incentive programs
  - Irrigation efficiency and incentive program
- Directs City Manager to Follow the Water Forward 2018 implementation plan
- Directs the City Manager to provide recommendations to mitigate the impacts to affordability of these strategies
