

Proposed Code Amendment

§13-7-42 - REQUIREMENTS FOR INSTALLATION AND REMOVAL OF A BOOT.

(A) A licensee or permittee, either personally or through an employee or agent, is required to:

1. install at least one boot on a tire located on the driver's side of the vehicle when immobilizing a vehicle;
2. remove the boot **or provide self-removal instructions**, in exchange for the vehicle immobilization fee, not later than one hour after the time the owner or operator of the vehicle contacts the licensee responsible for installation of the boot to request removal of the boot;
3. waive the amount of the fee for removal of a boot, excluding any associated parking fees, if the licensee fails to have the boot removed within the time prescribed by subsection (A)(2);
4. remove a boot without charge to the vehicle owner or operator, or to the parking lot owner, if the removal is requested before the boot is completely installed and a conspicuous notice has been adhered to the front windshield or driver's side window of the vehicle at the time of immobilization as required under Section 13-7-44 (*Notification of Vehicle Owner*);
5. Remove a boot upon the order of a peace officer or parking enforcement officer;
6. Wear high-visibility retro-reflective safety apparel when installing or removing a boot.
