#### HISTORIC LANDMARK COMMISSION DEMOLITION AND RELOCATION PERMITS JUNE 28, 2021 PR-2021-061472; GF-2021-080345 2903 BREEZE TERRACE

#### PROPOSAL

Demolish a ca. 1946 house and ca. 1951 accessory dwelling unit and carport.

#### ARCHITECTURE

One-story Minimal Traditional house with asbestos cladding and a hipped roof. The front porch is inset and features a metal railing with modest Art Moderne influences. Windows are multi-light steel casement and 1:1 wood sash.

Behind the house is an apartment with vertical grooved siding, surmounted by a hipped roof with an integral carport.

#### RESEARCH

Hubert S. and Mary K. Wall owned the house from the late 1940s through 1971 or later. Mary Kate Wall (nee Parker, 1912-1998) was an attorney and, until her retirement in 1970, the state's leading authority on election law. After earning an LL.B. with honors from the University of Texas, she was licensed to practice law in 1934. Beginning in 1950, she worked for 17 years as an Assistant Attorney General for the State of Texas, where she was as an elections expert and wrote the state's first modern election code. In 1967, Mary Kate Wall joined the Secretary of State's office and headed their elections division. In addition to writing significant opinions regarding election proceedings, she trained local elections officials, the League of Women Voters, and others through speaking engagements.

Dr. Hubert Stanley Wall (1902–1971) was a professor of mathematics. He taught at Northwestern University and the Illinois Institute of Technology before coming to the University of Texas in 1946, where he spent the remainder of his career. Dr. Wall's focus was continued fractions, studied since Euclid and written as fractions within fractions. His book *The Analytic Theory of Continued Fractions* is considered a standard reference in this field. He was also known for a teaching method in which he sought to develop the creative capacity of students to provide proofs of complex mathematical theorems.

During the 1950s, the back apartment on the property was occupied by Rosealthe Parker, Mary Kate Wall's mother.

#### STAFF COMMENTS

The 2020 draft report *Historic Resources Survey of North Loop, Hancock, and Upper Boggy Creek Planning Areas* lists the property as a medium priority but does not recommend a historic district in this area.

#### Designation Criteria—Historic Landmark

- 1) The building is more than 50 years old.
- 2) The building appears to retain high integrity.
- 3) Properties must meet two criteria for landmark designation (LDC §25-2-352). Staff has evaluated the property and determined it may meet two criteria:
  - a. *Architecture*. The house is a typical example of the Minimal Traditional style, with limited modifications made during the historic period by the Wall family.
  - b. *Historical association*. The house is associated with Texas's foremost election law authority in the midtwentieth century, attorney Mary Kate Wall, and internationally known mathematics professor Hubert S. Wall.
  - c. *Archaeology*. The property was not evaluated for its potential to yield significant data concerning the human history or prehistory of the region.
  - d. *Community value.* The property does not possess a unique location, physical characteristic, or significant feature that contributes to the character, image, or cultural identity of the city, the neighborhood, or a particular demographic group.
  - e. *Landscape feature*. The property is not a significant natural or designed landscape with artistic, aesthetic, cultural, or historical value to the city.

#### **STAFF RECOMMENDATION**

Consider initiation of historic zoning. Should the Commission choose to release the demolition permit, encourage rehabilitation or relocation, then require completion of a City of Austin Documentation Package prior to permit issuance.

# Election Law Clarification Is Upcoming

By the Capitol Staff The Attorney General's Department is now working on an opinion that should clear the air for those citizens who have trouble deciding whether they should scratch, circle, or simple "X" their ballots in the upcoming special election for US Senate.

Regardless of the opinion's final determination, one thing is certain: a lot of graphite is going to be used up in the process.

The last general election in Texas revealed that confusion at the polls is almost the normal state of affairs for this state's voting citizenry. And with 71 names on the ballot this special election blds to be no exception. If everyone gets the word the opinion, due out in three or four days, should help clear the air. It is being written by Assistant Attorney General Mary K. Wall, the department's election law specialist.

In general the opinion will probably hold that if a voter's intentions are clearly ascertainable to the election judge it won't make too much difference how he scratches his ballot. The law says that the voter must scratch all names on the ballot other than the one he wishes to vote for. It says further that if two names are left on the ballot for a position that is to be filled by only one candidate (a reasonable proposition don't you think) then the ballot shall not be counted.

But the law also says, as is noted above, that if the voter's intention is clearly ascertainable, his ballot shall be counted.

This would seem to clear the way for those voters who wish to circle their choice in the Senate race and run a verticle line through all other names, or "X" out all other names.

There was talk in this session of the Legislature about trying to hurry a bill through that would clarify the voting process somewhat, but Representative Ronald Bridges, chairman of the committee on privileges, suffrages and elections, said "we just didn't have enough time" to make it elfective for the special election. "And besides, who would have thought that we would have thad 71 candidates, or is it 70." Who. indeed?

And then there is the fellow who is running as a write-in because he thinks Texans don't have a wide enough selection in the race.

## Miss Parker, Dr. H. S. Wall Are Married

### Austin Lawyer, UT Professor Will Live Here

Miss Mary Kate Parker and Dr. Hubert S. Wall, both of Austin, were married Saturday afternoon, Oct. 18, in a ceremony read by the Rev. Chester Crow at the home of the bride's mother, Mrs. J. F. Parker.

Dr. Wall is a professor of pure mathematics at the University of Texas. He received his bachelor and master of arts degrees from Cornell College (Iowa) and his doctorate from the University of Wisconsin. He is a member of Phi Beta Kappa and Sigma Xi.

Mrs. Wall received her bachelor of arts and bachelor of laws degrees from the University of Texas and is a member of Phi Beta Kappa and Order of the Coif. She is employed in the Supreme Court of Texas.

# Shepperd Makes Election Ruling

#### By The Capitol Staff

Candidates in city elections, such as the Austin Council race, are exempt from the state law's requirements of filing reports on contributions and campaign expenditures.

That was the ruling Thursday of Attorney General John Ben Shepperd's department, answering a question submitted by Criminal District Attorney Austin F. Anderson of San Antonio,

The election expense and contribution provisions apply only to candidates elected in state general elections.' The interpretation was written by Assistant Attorney General Mary K. Wall, and approved by the reviewing staff and Atty Gen, Shepperd.

The Austin American, 10/26/1947, and The Austin Statesman, 3/5/1953 and 3/14/1961

# Mary <mark>Wall</mark> Will Join Hill Staff

#### **Capitol Staff**

Mrs. Mary K. Wall, veteran assistant attorney general, will join the staff of Secretary of State John Hill on Sept. 11, it was announced Tuesday.

Mrs. Wall, long considered one of the foremost experts on Texas election laws, will be working in Hill's office in connection with election duties assumed by the secretary of state under recent amendments to the state's Election Code.

Hill commented "Mrs. Wall's experience and well-known expertise in election law matters will be of invaluable benefit to the Secretary of State's office in discharging our new responsibilities under the Texas Election Code."

Mrs. Wall received B. A. and LL.B. degrees from the University of Texas with highest honors and is a member of Phi Beta Kappa and the Order of the Coif.

She was licensed to practice law in 1934 immediately after her graduation from law school.

She joined the attorney general's staff in 1950 and has been assigned to the election law desk in that office since 1952 except for an absence of 10 months in 1962 while working in the Texas Legislative Council as staff assistant to an interim election law study committee created by the 1961 Legislature.

She also worked with the committee which was reactivated by the Legislature in 1965.

Born in Bertram, Mrs. Wall has been a resident of Austin since 1927. She is married to Hubert S. Wall, professor of mathematics at the University of Texas.

#### By GLEN CASTLEBURY Capitol Staff

A new public information policy manual adopted by the Board of Mental Health and Mental Relardation should be a landmark in making the public business the public's business.

"The board recognizes that the department is an investment of the people of Texas and that its programs and actions are fully accountable to the people," the manual says in its foreword. "The board considers access to accurate information . . . an obligation."

The closing statement of the lengthy document notes that "It is important that complete truthfulness and integrity be maintained in dealing with the public and the news media. . . . Never should a newsman be given a misleading or untruthful answer."

The proof, of course, remains to be seen, but even such a declaration of policy is a refreshing contrast to the many boards and agencies who spend most of their time trying to give newsmen the run-around. The notable violators are the Banking Department, the General Land Office and the Railroad Commission.

Other state agencies should try out some of these examples from the MHMR policy:

"The news media . . . must continually make judgments about the MHMR programs, facilities and the needs of Texas. . . The newsman must be the judge of what constitutes news....

"Newsmen shall have free access to any and all parts of every institution at all times. . . . Reporters should be encouraged to mingle with and talk to patients; it will further public awareness....

"Employes are free to discuss their jobs and functions in an institution with news media representatives . . but should not discuss matters of policy without specific authorization. . . An authorized spokesman should be readily available at

all times. . . .

"News media work on deadlines... courtesy dictates that department employes aid newsmen in meeting their deadlines...."

The manual contains many pages of safeguards for patients' dignity and privacy all of which should be totally acceptable to the news media. The privilege of the patientphysician relationship is carefully outlined.

The document is clear enough, though, to stop these necessary safeguards from becoming hiding places for bureaucratic bungling and timidity.

The manual largely is the work of Gayle McNutt, the department's deputy director for communications. He is a former newspaperman in Austin and Houston and one-time press aide to Lt. Goy, Ben Barnes.

The manual sailed through approval of the board despite objections from board members Rev. Robert S. Tate of Austin and Mrs. Howard E. Butt of Corpus Christi.

Once around the dome ... Travis County D e m o c r a t i c chairman Robert Sneed has been asked about the law on Austin newsman Stuart Long holding two offices of trust, precinct chairman and member of the school land board.... Sneed had to resign the land board to become county chairman.... A wag in Demo headquarters says that just shows Long is a trustworthy fellow....

Mrs. Mary Kale Wall, the state's foremost expert on election law matters, is retiring. . . . She transferred to the secretary of state's office in 1967 after 17 years as an assistant attorney general (where she authored the state's first modern election code). . . . She plans to rest a while before getting on with writing manuals for municipal elections, punch card voting and election clerks.

A wise guy in Bob Armstrong's state campaign headquarters here says they are "doing a land office business."

"SO 1" is a long black Lincoln Continental the state provides the governor... Now in front of the Capitol is a short, black Lincoln Continental with personalized license tag "1"... ... It belongs to patronage secretary Larry Teaver who does most of the governor's chauffeuring....

The Austin Statesman, 9/12/1967 and 4/5/1970

County Democratic Chairman Trueman O'Quinn taught a civics class Friday, instructing 50 persons how to conduct a primary election.

O'Quinn's students were both his Democratic Party charges and students from civics classes in every high school in Travis County.

The Friday meeting in Town Hall in Hancock Center had been called to review election procedures with precinct and election officials who will hold the May 2 primary.

However, the county chairman extended the call to high school civics students because "these are the people who will be running our elections in a few years.

Aiding O'Quinn in the class was a panel of experts which included J. Pat O'Keefe, director of the state Democratic Party; Mrs. Mary Kate Wall, assistant attorney general; J. M. Patterson, election cc' e editor; and Steve Best, election material printer.

# **Electronic Voting** Film Shown Panel

Capitol Staff Law Revision Committee auwitnessed a movie demonstration of electronic voting Friday. The film, presented by IBM, demonstrated methods of electronic voting now in use in several other states.

Senator Tom Creighton of Mineral Wells, committee chairman, announced a 10-member subcommittee which will consider suggestions for Texas elec tion law changes, many of which have been submitted by mail in answer to a questionnaire sent by the Texas Legislative Council to Texas election officials, public officials and organizations interested in the election process.

Peter O'Donnell Jr. of Dallas

and Will Davis of Austin, party The 25-member Texas Election chairmen of the Republican and Democrat State Executive Comthorized by the 59th Legislature mittees, are members of the subgroup. Also represented on the sub-committee are members of the House and Senate, county party chairman and county clerks.

> Public hearings on recommendations proposed for the 69th Legislature next January will be held by the full committee after the subgroup has made its report. Mary K. Wall, assistant attorney general, an authority on the Texas Election Code, will be advisor to the study group. The election law revision committee is composed of five senators, five House members, five citizens appointed by the governor, five county clerks and five party county chairmen. The

clerks and party chairmen were selected on a geographical basis by the Senate, House and governor representative 15-member group.

A bill seeking permissive legislation for use of electronic voting equipment and counters may be presented to the 69th Legislature.

HUBERT S. WALL Former professor dies

## Former UT Professor Dies at 68

Dr. Hubert S. Wall, 2903 Breeze Terrace, professor emeritus of mathematics at the University of Texas, died in an Austin hospital Sunday morning after a long illness.

Dr. Wall, 68, came to the university faculty in 1946 with the rank of professor. He was named professor emeritus at his retirement in 1970.

He received bachelor of arts and master of arts degrees in 1924 from Cornell College at Mount Vernon, Iowa, which awarded him an honorary doctor of science degree in 1970. Dr. Wall received his doctorate at the University of Wisconsin in 1927.

Before coming to Austin, he taught mathematics at Northwestern University from 1927 to 1944 and at the Illinois Institute of Technology from 1944 to 1946.

Dr. Wall, who had an international reputation for his research in analysis, published two books and more than 60 papers, and supervised 62 students in obtaining their doctorates.

Funeral is pending at Rockwell City, Iowa, Local arrangements are under the direction of Weed-Corley Funeral Home.

He is survived by his wife, Mrs. Mary Kate Wall of Austin; a son, H. Richard Wall of San Rafael, Calif.; a brother, Harold A. Wall of Sioux City, Iowa; and three grandchildren. The family said memorials may be made to St. David's Hospital Auxiliary, the Travis County Blood Bank or charities.

## Early life and education

Wall was born in <u>Rockwell City</u>, <u>Iowa</u> on December 2, 1902. He received the <u>Bachelor of Arts</u> and <u>Master of Arts</u> degrees from <u>Cornell College</u> in <u>Mount Vernon</u>, <u>Iowa</u> in 1924. He received his <u>Ph.D.</u> degree from the University of Wisconsin (now <u>University of</u> Wisconsin–Madison) in 1927.<sup>[3]</sup>

He married Mary Kate Parker, a lawyer and Texas assistant Attorney General. Her specialty was election law.

Hubert Stanley Wall				
Born	December 2, 1902 Rockwell City, Iowa			
Died	September 12, 1971 (aged 68) Austin, Texas			
Alma mater	University of Wisconsin–Madison			
Known for	Continued fractions Moore method			
Scientific career				
Fields	Mathematician			
Institutions	Northwestern University Institute for Advanced Study Illinois Institute of Technology University of Texas			
Doctoral advisor	Edward Burr Van Vleck			
Doctoral students	Dan Mauldin, <u>Coke</u> Reed <sup>[1]</sup>			

## Career

Upon receiving his Ph.D. Wall joined the faculty at Northwestern University and stayed until 1944 except for the academic year 1938–1939 when he was at the Institute for Advanced Study.<sup>[3]</sup> He then went to the Illinois Institute of Technology for two years before moving in 1946 to the University of Texas where he spent the rest of his career.<sup>[3][4]:235</sup> He became an emeritus professor in 1970.<sup>[2]</sup>

Most of Wall's mathematical research was in various aspects of the analytic theory of <u>continued fractions</u>. This included the theory of positive-definite continued fractions, convergence results for continued fractions, <u>parabola theorems</u>, Hausdorff moments, and Hausdorff summability.<sup>[5]</sup> He studied the polynomials now named <u>Wall polynomials</u> after him.

While at Northwestern he started a collaboration with <u>Ernst Hellinger</u>, and he was very interested in <u>Hellinger</u> integrals throughout his career, but did publish anything on them.<sup>[3][4]:235</sup> [5]

While at Texas Wall was a prominent practitioner of the <u>Moore method</u> of teaching. John Parker wrote, "Wall had long ago thrown himself wholeheartedly into the Moore tradition, with his own interpretation of the Moore method, and there was a good deal of cross pollination of students through their courses, some steered to the PhD by Moore and others by Wall and [Hyman J.] Ettlinger. Between them, they continued to dominate

PhD guidance in Pure Mathematics throughout the 1950s and 1960s."<sup>[4]:285</sup> The University of Texas memorial to Wall suggests that he may have picked up some of these ideas at <u>Northwestern</u> from <u>Van Vleck</u> and <u>Hellinger</u> and says, "Since there were already people on the Texas faculty who had used innovative techniques (chiefly <u>Robert Lee Moore</u> and some of his colleagues), Wall tried their methods. For him and for his students it was an unqualified success."<sup>[3]:3</sup>

Wall had 66 doctoral students, 61 at the University of Texas.<sup>[6]</sup>

Wall died in <u>Austin</u> on September 12, 1971.<sup>[2]</sup>
