Subject: I support moving the Lutheran Church to Pioneer Farms

This message is from Karl Weston. [karlw1962@yahoo.com]

Hello,

I recently heard about the proposed Church project from a friend a couple of weeks ago. I am supporting the move of the Lutheran Church to Pioneer Farms. It makes sense to me to do the move as more people will be able to visit and see the Church and it can be protected.

I have been to Pioneer farms once or twice. It seems they do a good job at preserving and restoring the old buildings. There is a park in Dallas, I went to a few years back, and it was similar with the old houses and Churches. It is so nice to see and it can bring a peaceful feeling.

Thanks so much for all the hard work by the Historic Landmark Commission, as I am sure there are many competing interests of how to develop and use property, and how to do so in the best interest of our beloved Austin/Travis County community.

Sending you happiness and joy,

Karl W. Weston
