Meet Commissioner Schneider

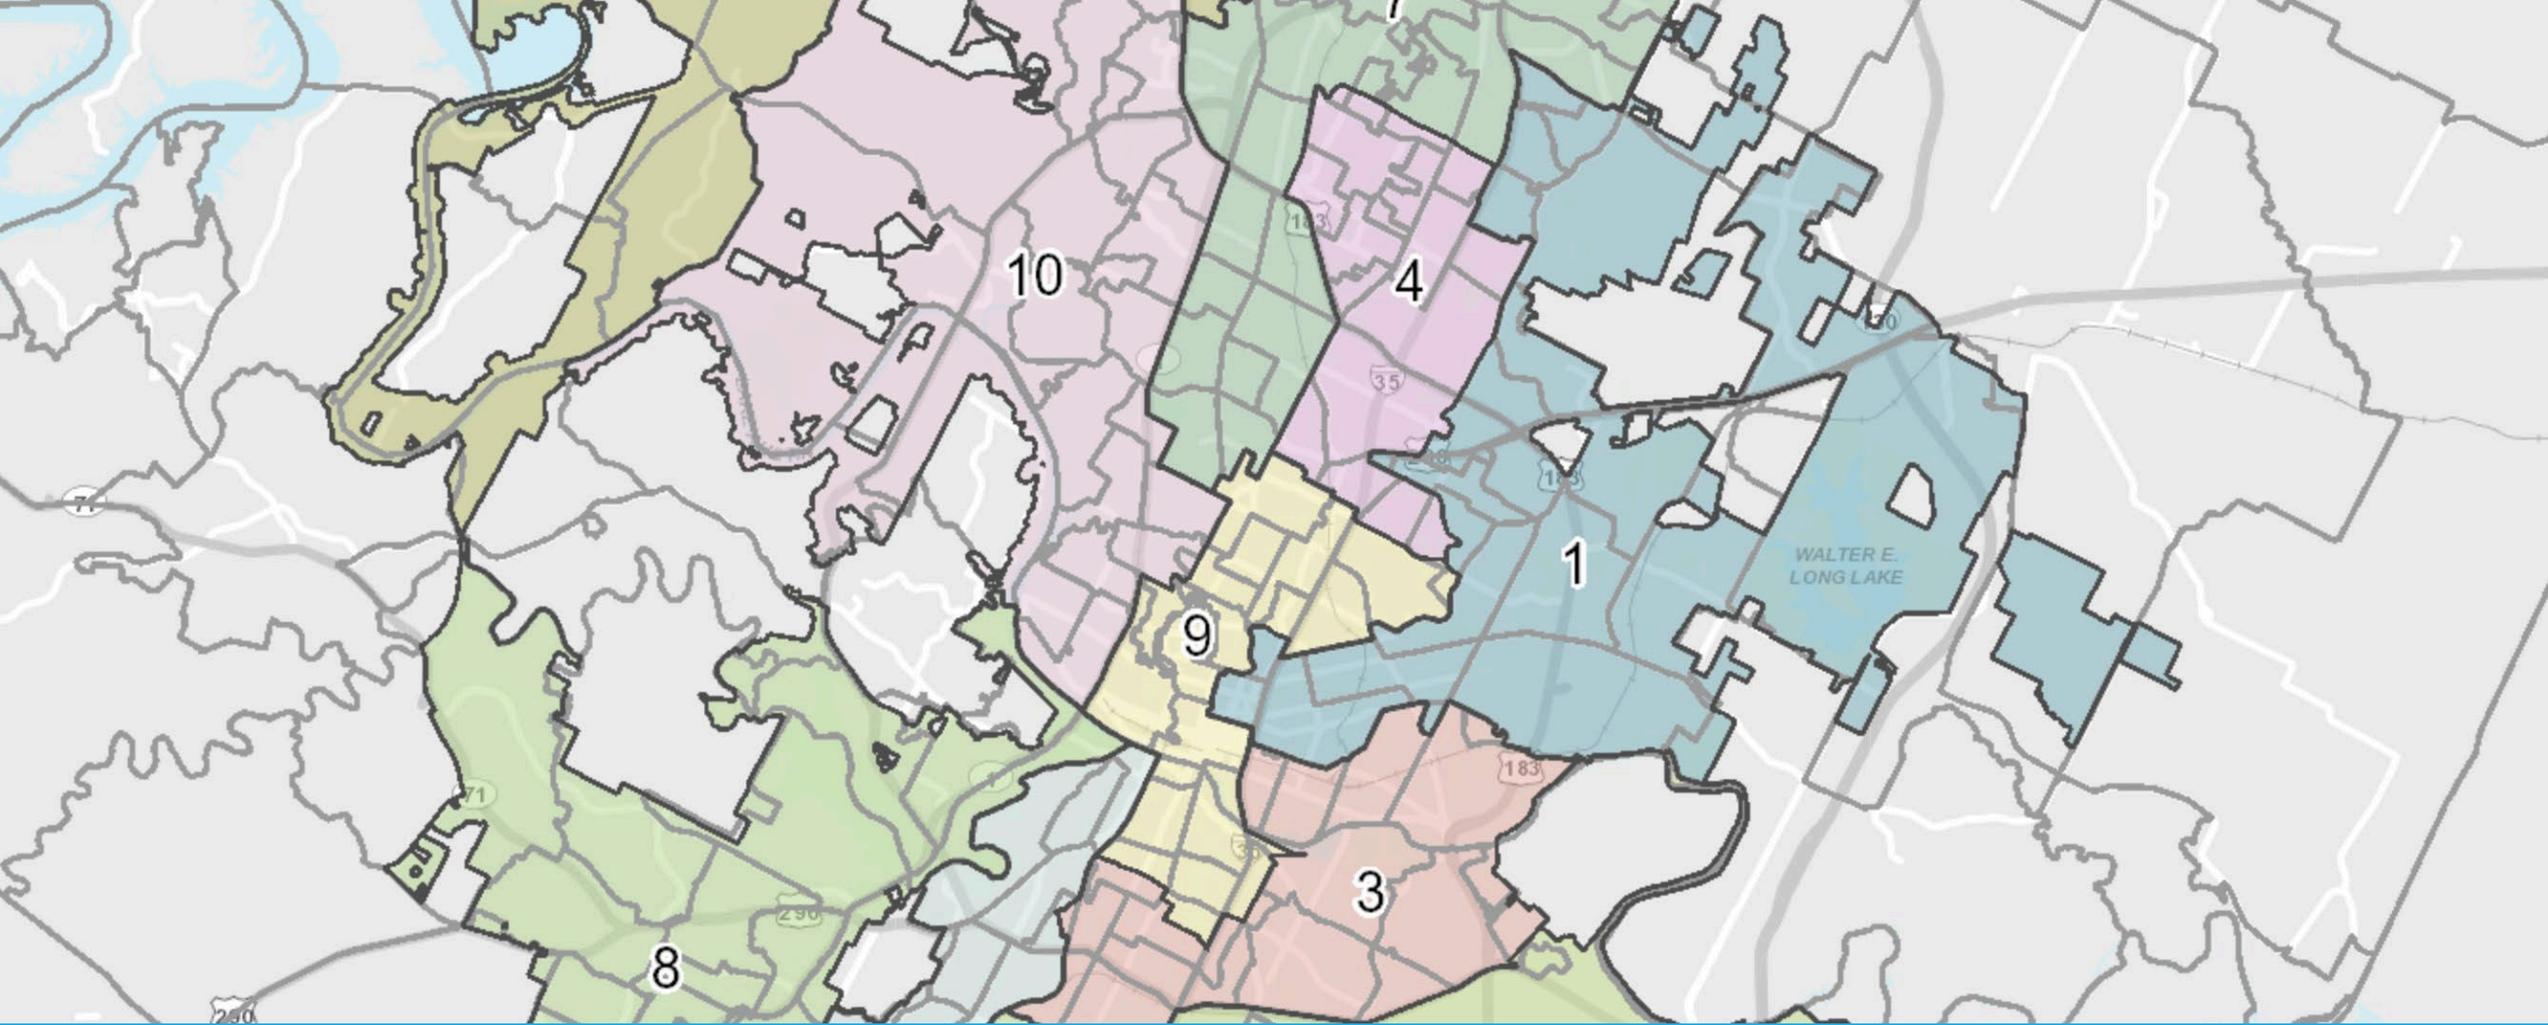

District 6

Since retiring to Austin, Gene has participated in many community education and service organizations working to achieve access, equity, opportunity and justice for all residents. He considers serving as an ICRC commissioner to be a unique chance to further those causes, and believes that knowledge and accurate information are among the most critical tools for reaching those goals.

Independent Citizens Redistricting Commission

Eugene (Gene) Schneider retired to Austin in 2008. He earned a doctorate in Higher Education Administration from Kansas State University in Manhattan, KS, a master's degree in English from Washington University in St. Louis and a bachelor's degree in English from St. Louis University. He spent his 44-year working career in public education, primarily as a community college instructor and administrator in Kansas, Colorado and Arkansas, with additional experience in Missouri and Minnesota. He was a U.S. Peace Corps volunteer in Tanzania, East Africa.

ICRC Background & Selection Process

History

Austin residents voted to elect City Council by geographic district in 2012. Before that vote, six council members and the mayor were elected citywide. Today, the city has 10 districts with a council member elected from each district. The mayor is still elected citywide.

In 2013, a diverse group of Austin residents determined the boundaries for the 10 council districts. Since then, Austin's population has grown and changed an estimated 24% from 790,000+ people to 979,000+. This year a new group of citizens will redraw the district boundaries to reflect these changes.

ICRC Selection Process

300+ applications received

89.31% of received applications met minimum requirements

Applicant Review Panel selected the 60 most qualified Commission applicants

City Auditor randomly selected 8 Commissioners from the qualified pool

The randomly selected 8 commissioners choose 6 additional applicants from the qualified pool

14 commissioners will work to draw the district boundaries

The Role of the ICRC

The Commission will decide on the new boundaries through an open and transparent process with many opportunities for public input.

In order to draw the district boundaries, commissioners need input from residents throughout the process. The process involves:

- **Holding public meetings in each of the 10 city council districts**
- **Coming up with an initial draft of the boundaries**
- **Holding four more public meetings (one in each of the Travis County precincts)**
- **Proposing final boundaries**
- **Holding two more public meetings (one north and one south of Lady Bird Lake)**
- **Voting on final boundaries**
- **Adopting a final plan by no later than November 1, 2021**

Why Redistricting Matters

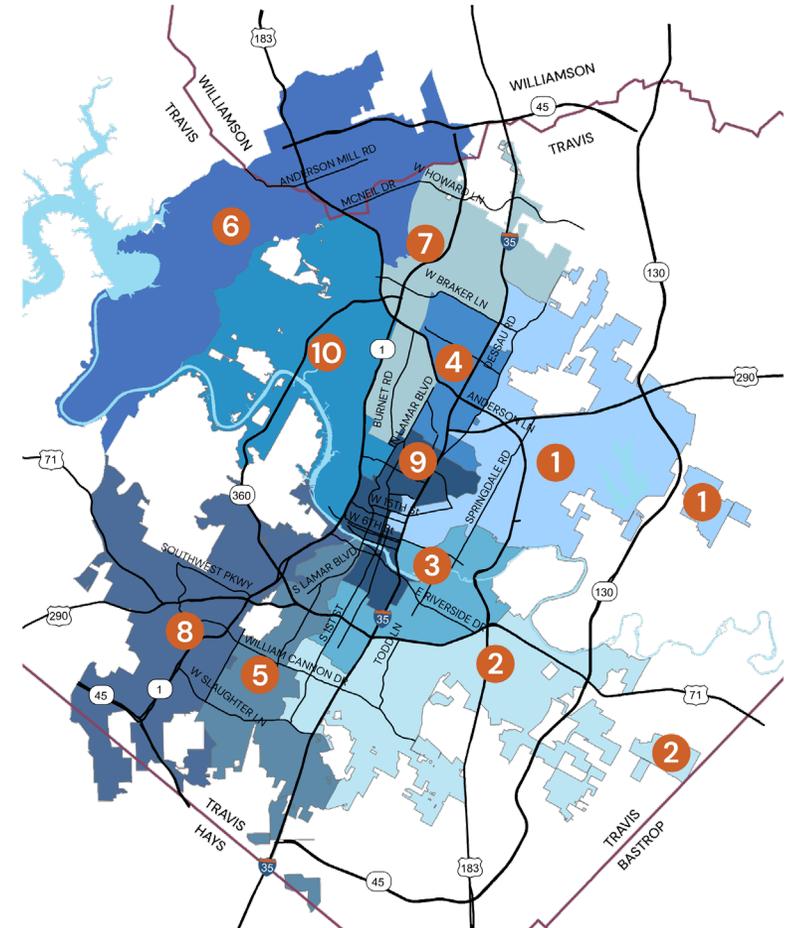

Redistricting will change how Austin residents are represented by City Council and shape how they think about their community.

Austin's population has grown and changed since the districts were originally drawn in 2013. The new district boundaries may change as well.

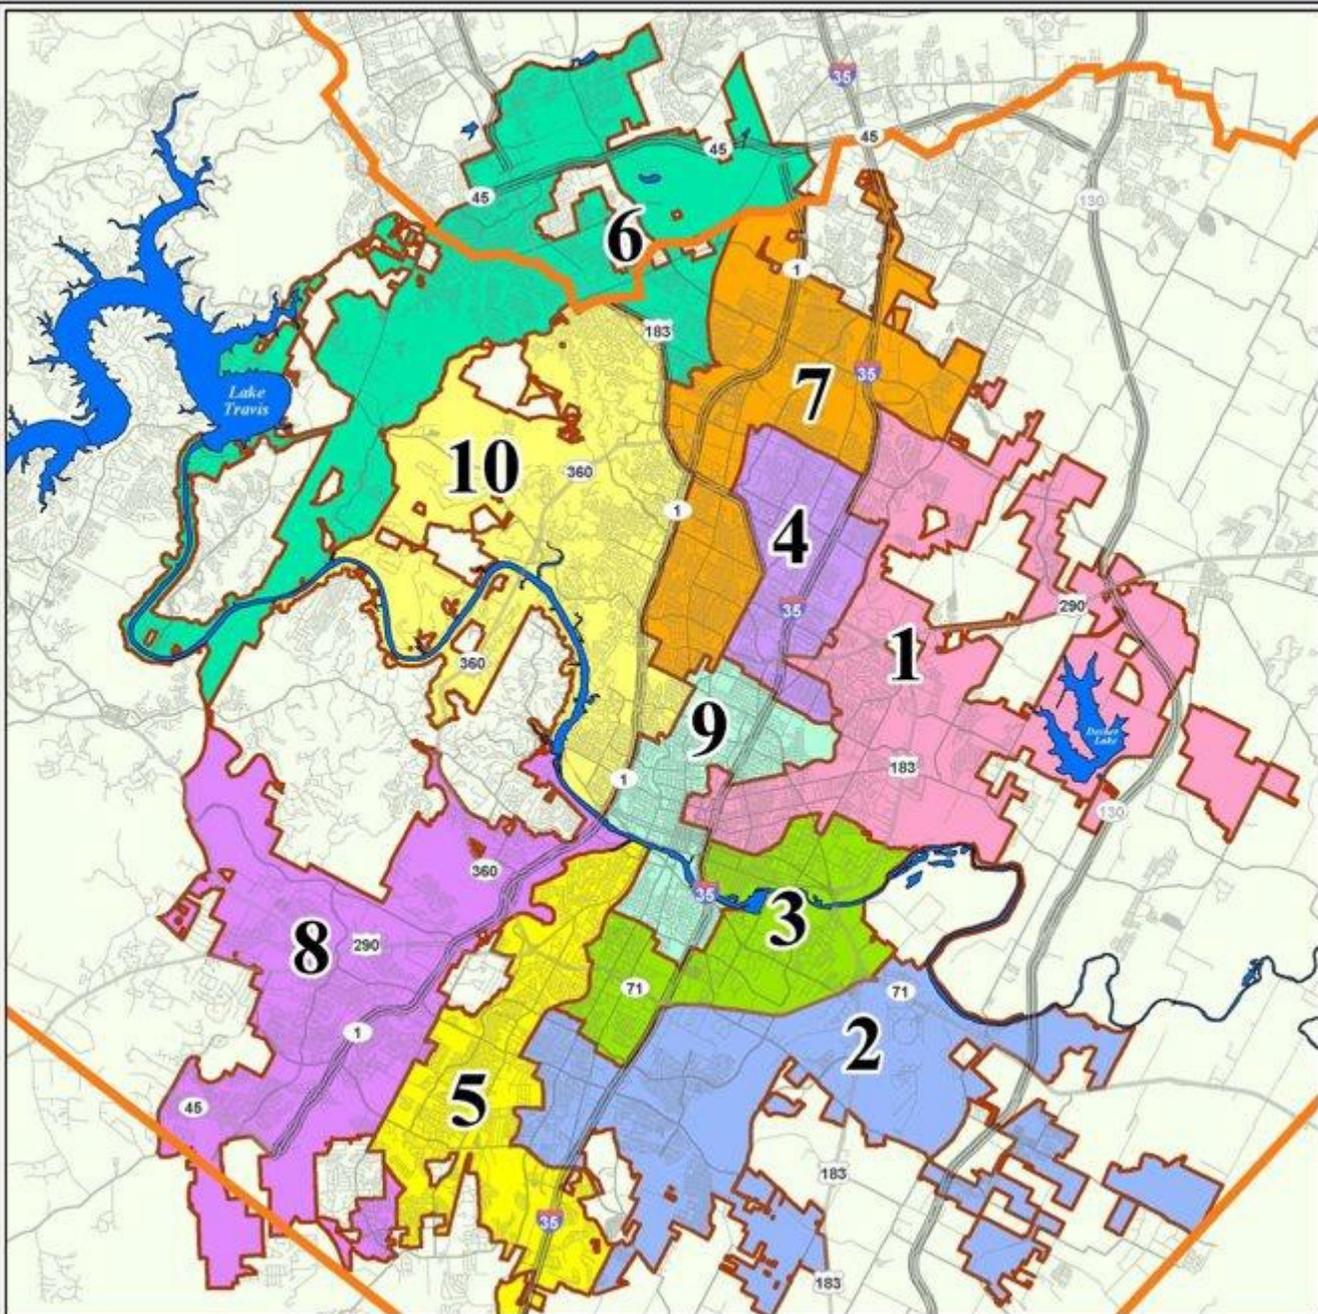

Residents who participate will have a chance to meet Austinites across the city and learn more about the city they call home. They will learn about Austin's history and make important decisions about Austin's future.

ICRC Final Plan

November 2013

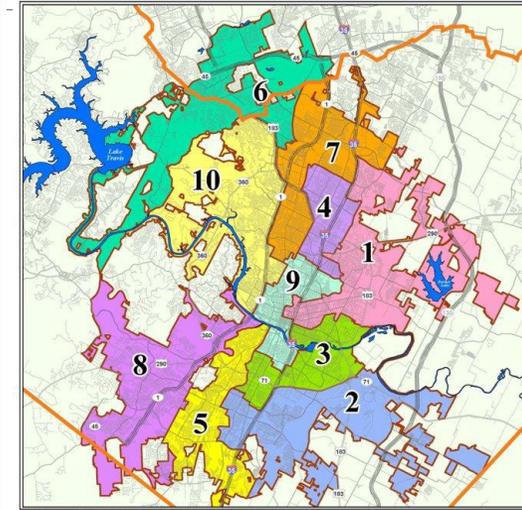

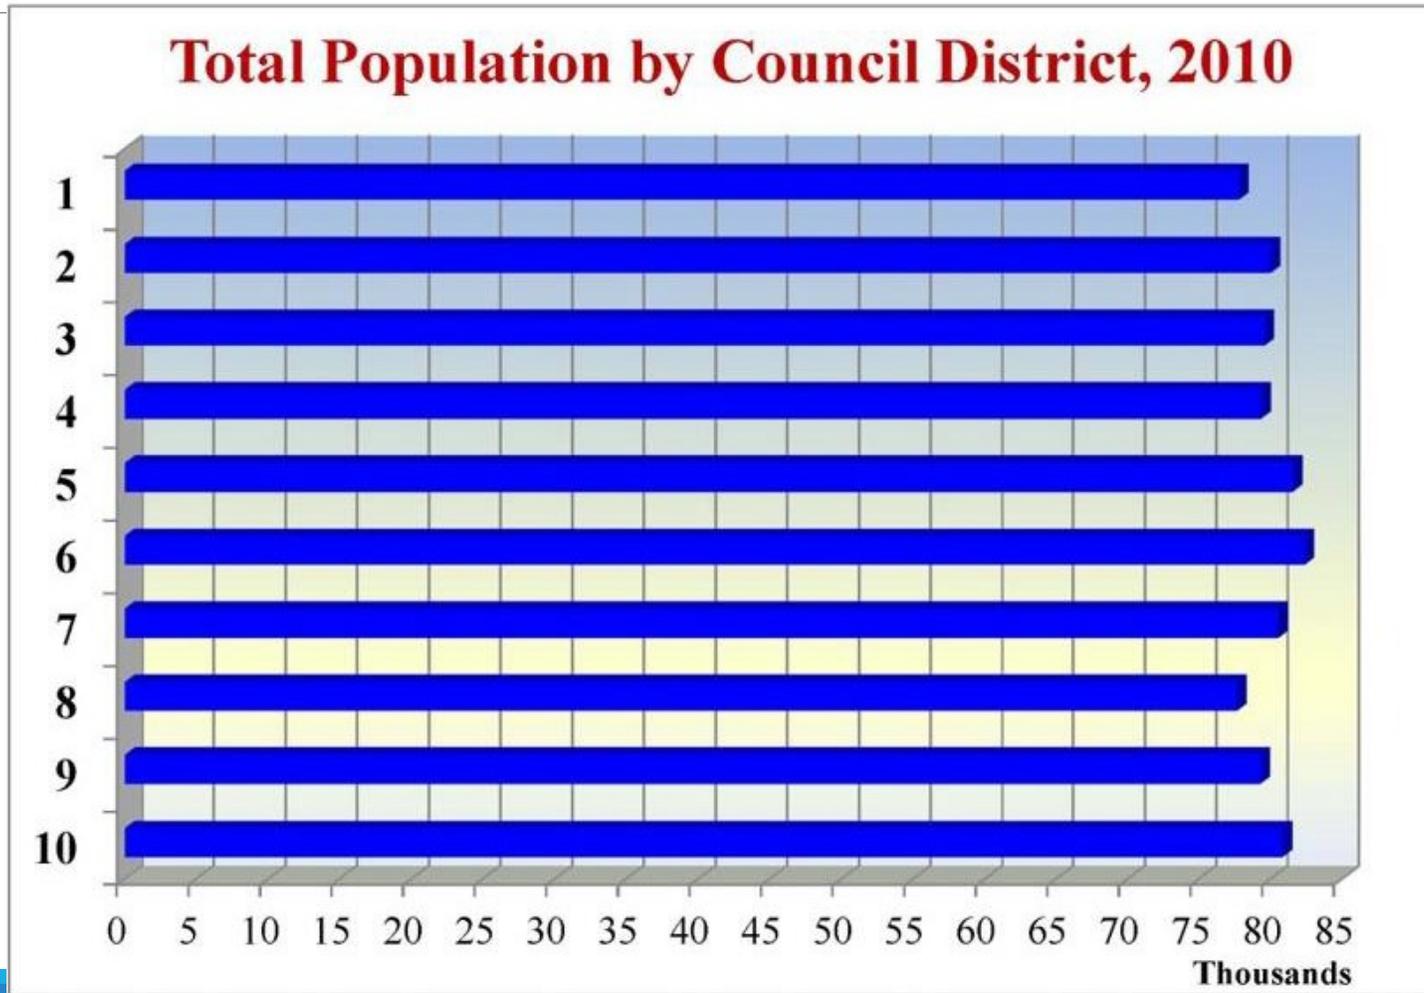

Map produced by: Fran Robinson, City Demographer, City of Austin, December 2013.

How Does the ICRC Draw Maps?

From the City Charter, Section 3.E

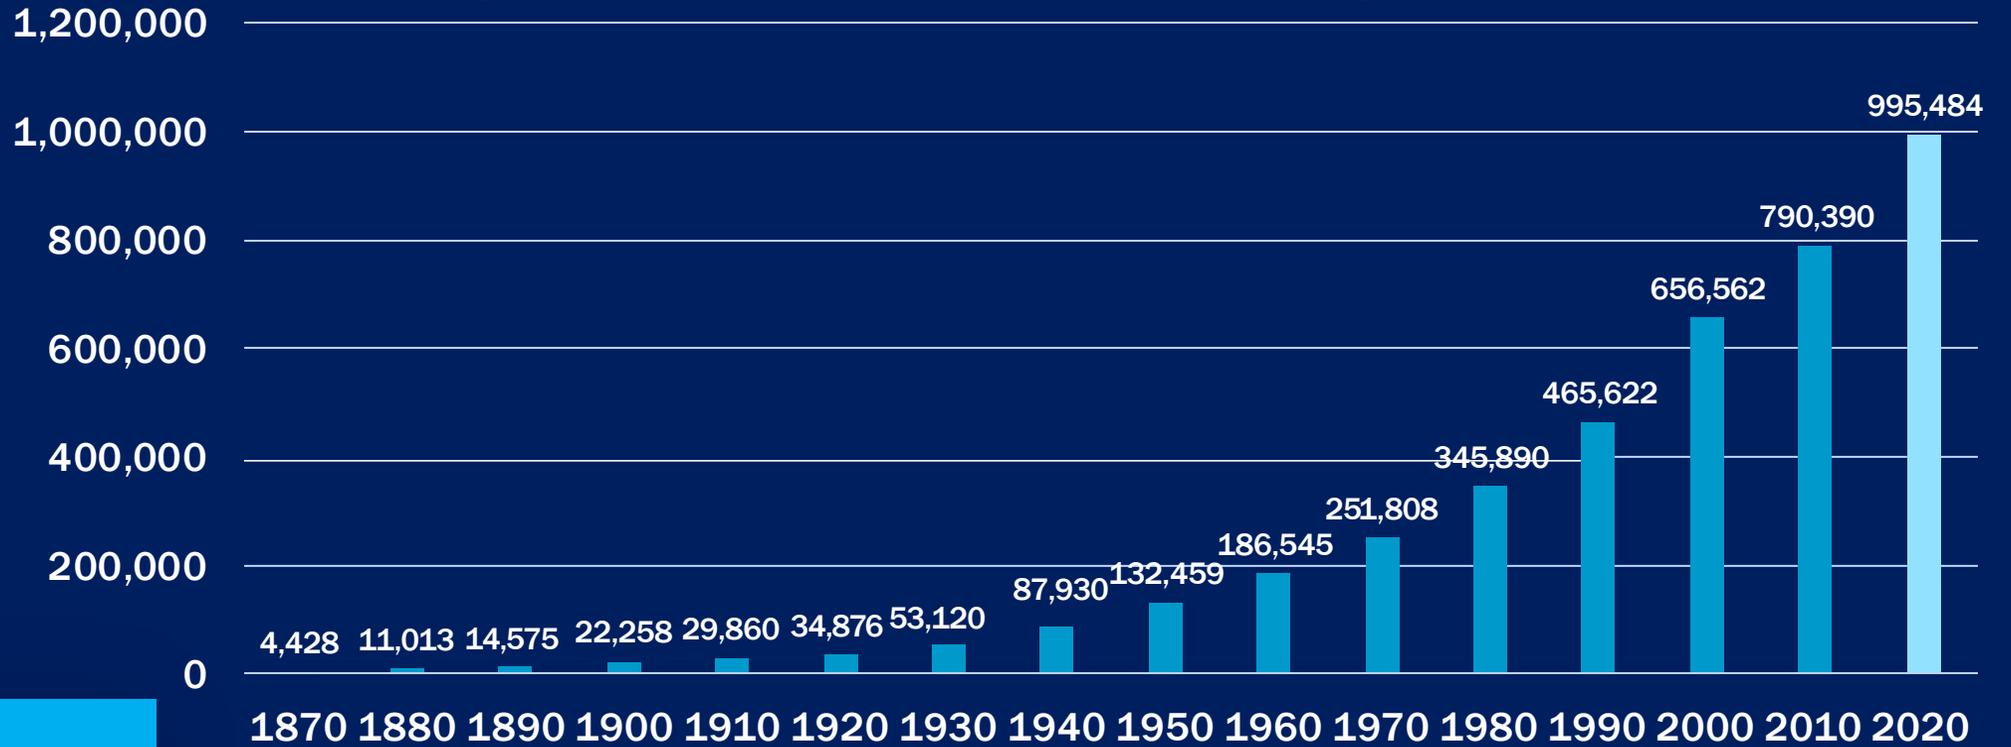

1. Each district shall have reasonably equal population with other districts, except where deviation is required to comply with the federal Voting Rights Act or is allowable by law.
2. Districts shall comply with the federal Voting Rights Act and any other requirement of federal or state law.
3. Districts shall be geographically contiguous.
4. The geographic integrity of local neighborhoods or local communities of interest shall be respected in a manner that minimizes their division to the extent possible without violating the requirements of any of the preceding subsections.
5. District boundaries shall be drawn to encourage geographical compactness such that nearby areas of population are not bypassed for more distant populations as is practical.
6. District boundaries shall be drawn using the boundaries of existing election precincts, as is practical.
7. District boundaries shall be drawn using geographically identifiable boundaries, as is practical.

Total Population by District, 2010

Austin Population Growth, 1870 to 2020

The ideal city council district size would be approximately 99,584.

Why Do We Not Have the 2020 Census Data?

Operational delays caused by COVID-19 in addition to wildfires, hurricanes, allegations of political interference, fluctuating deadlines and lawsuits delayed the Census Bureau's original plan to deliver the redistricting data to the states starting on Feb. 18, 2021 and ending on March 31, 2021.

Redistricting data will be released mid-August to late September at [census.gov](https://www.census.gov)

- Aug. 16—Census Bureau will release raw data
- Sept. 30—Census Bureau will release toolkit with software to understand data in census

Group Activity Instructions (45 minutes)

1. Attendees will be divided into equal groups corresponding to designation on name tags.

Find the people in the audience who match the designation on your name tag.

2. Commissioners will lead each group through the map printout activity.

- Commissioners are not participants, but *facilitators*
- Commissioners will review the steps for the activity and the redistricting priorities as noted in ICRC charter, section 3.E
- **Groups will identify aspects/areas of interest within their district that matters most to them and their local community on provided district map printouts**

3. Each group will **select one speaker** to report group findings and questions/concerns.

4. Each speaker will have **5 minutes** to report to the entire commission and everyone in attendance.

Common Areas of Interest

Areas of interest are the overlapping sets of **neighborhoods, networks, and groups** that share interests, views, cultures, histories, languages, and values and whose boundaries can be identified on a map.

Examples:

- Neighborhoods
- Schools
- Parks
- Shopping malls and grocery stores
- Recreation facilities
- Bus routes

Questions to Consider in Small Group Breakout

What do I need to know about your district?

How do you live your life in your community?

What routes do you take to work?

What churches, mosques, temples do you attend?

What grocery store do you frequent?

What schools do your children attend (pre-K, elementary, high school, private, community college, university)?

How accessible is Capitol Metro bus line?

What are some of the shared community spaces—shopping centers, homeowners' associations, parks, pools, etc.?

Where do you go to the doctor?

Where is the nearest police and fire station in your community?

What are your community's shared interests—health conditions, land use, environmental conditions, and/or other issues?

What are the racial and ethnic compositions, cultural identities, and households that predominantly speak a language other than English in your community?

Explain the socio-economic status in your community, including but not limited to income, home-ownership and education levels.

What are the shared political boundary lines from other jurisdictions in your community?

Public Testimony

- All individuals wishing to make comments must have signed in prior to the meeting.
- Each speaker is limited to **3 minutes**, unless additional time is granted by the Chair.
- Those in attendance are asked to refrain from disrupting the meeting by making noise of any kind (clapping, verbal feedback, etc.); anyone who disrupts the proceedings will be asked to leave.
- The Commission is interested in gathering data on citizens' view of neighborhoods, maps, and the redistricting plan.
- Everyone is asked to abide by these guidelines so that the public forum process can proceed smoothly and all who wish to speak have the opportunity to do so.

Thank You for Attending the ICRC's Public Forum!
