*** External Email - Exercise Caution ***

I am a longtime resident and member in the South River City Citizens neighborhood association. When our city council districts were originally formed, our area of SRCC (area 8) was included in District 3 but the rest of our neighborhood association was designated to be District 9. This has been problematic! When we have had issues affecting our neighborhood, we were not represented by the same person on the city council. Living in south central Austin, *our issues are much different from those affecting east Austin*. I have felt we have not had sufficient representation as we should if we were in the same district as the rest of our neighborhood association. Now that the districts are currently being drawn, I would like to request that area 8 be included in the same district as the other areas of SRCC or in District 9. I have attached a map to indicate our neighborhood as part of South River City Citizens. I reside in area 8 and we need the consolidation of our association in District 9. I have canvassed our area and 100% of the owners contacted would like to be in District 9. Please give us the representation we deserve and include us in District 9!
