Energy Efficiency Programs	
Solar	
Green Building	In August, none of the single family or multifamily units receiving an AEGB rating are in SMART Housing developments in the AE service area.

**Notes:**

AE Weatherization budget excludes rollover.

EES School-based education goal has been updated from 0.01 MW to 0.10 MW.

Solar fluctuations from June through August are a function of unincentivized solar tracking.

Solar unincentivized data was unavailable at the time of the RMC. It will be reported in next month's report.

Unincentivized numbers are reported as July amounts.

All numbers are unaudited and will be adjusted in line with financial updates.
