Case Number: GF 21-139069 -4512 Avenue C  
Contact: Amber Allen, (512) 974-3393  
Public Hearing: Historic Landmark Commission, Sep. 27, 2021

Hi Amber and Historic Landmark Commission,

I re-read the letter sent to our house and wanted to make sure I submitted my comments correctly, So I am resending. Also, wanted to make sure my comments were clearer.

My concern is that the siding of this house is asbestos. I am fine with the demolition but want assurance that the demolition will follow the guidelines of demolition with asbestos siding.

I worry about the long term safety of the surrounding area and neighborhood and how demolition of a house with asbestos siding may cause asbestos dust.

From my understanding, a hose on the demolition during the demolition would not be enough. I believe the siding needs to be removed prior to demolition.

Thank you,

Kathy Dowdy
