1	Thompson	2.8.0	2-16	Provide Cross Sections for streets with zero lanes for cars			There are no criteria for Passeos.				
2	Thompson	General	NA	There are no mechanisms for designating pedestrian priority streets.			There appears no way to require a street near a transit station to have a wider sidewalk other than Level 0-5 designation, and this also increases car traffic.				
3	Cox	Table 2-2	2-10	Add a note that decouples sidewalk width from street width, where transit, urban trails, or other planning documents or land use would necessitate a wider sidewalk.			Ensure that there is a way to expand sidewalk space where necessary, particular in cases where the ROW may be subject to change from a new development				
4	Azhar	1.1	1-1	Change "Use green infrastructure to protect environmentally sensitive areas and integrate nature into the City" to "Integrate nature into the City"	Use green infrastructure to protect environmentally sensitive areas and Integrate nature into the City	Yes	Align with language from Imagine Austin	Page 10 of Imagine Austin Comprehensive Plan
