

HISTORIC LANDMARK COMMISSION
PERMITS IN NATIONAL REGISTER HISTORIC DISTRICTS
NOVEMBER 15, 2021
HR-2021-151742
OLD WEST AUSTIN NATIONAL REGISTER HISTORIC DISTRICT
1519 W. 32ND STREET

PROPOSAL

Construct a second-story addition to a ca. 1938 contributing house. Replace siding, windows, and doors. Replace front porch roof and columns. Enclose side porch.

PROJECT SPECIFICATIONS

- 1) Construct an addition to single-story residence. The proposed addition is located 4' back from the front wall of the house and will be one and one-half stories in height. It is clad in fiber-cement siding with a profile matching the existing siding. It has a side-gabled roof and single and paired 4:4 windows. The roof is clad with composition shingles. The existing chimney will be extended to the second floor.
- 2) Replace front porch roof and columns. The proposed replacement roof is clad with composition shingle, and the proposed replacement trim is fiber cement, matching the existing trim. Existing wood columns will be replaced.
- 3) Replace windows at all elevations with 4:4 composite windows.
- 4) Enclose the side porch. The proposed porch will be clad with fiber-cement siding and will include 4:4 windows.

ARCHITECTURE

One-story side-gabled house with full-width, flat-roofed front porch supported by boxed columns, 8:8 wood windows flanked by decorative shutters, and a symmetrical rectangular Cape Cod plan.

RESEARCH

The house at 1519 W. 32nd Street was constructed in 1938 for Bess and Herbert F. Smart. Herbert Smart was a real estate agent who also worked briefly as a salesman for a paint company and a glass company. The couple lived at 1519 W. 32nd Street until Bess Smart's death in 1964.

DESIGN STANDARDS

The City of Austin's [Historic Design Standards](#) (March 2021) are based on the Secretary of the Interior's Standards for Rehabilitation and are used to evaluate projects in National Register districts. The following standards apply to the proposed project:

Repair and alterations

1. General standards

The proposed alterations remove historic siding, windows, and doors and replace them with new materials. Most replacement materials appear similar to existing historic materials.

3. Roofs

The proposed porch alterations have been modified per Committee feedback to retain the porch's original roofline.

4. Exterior walls and trim

Existing siding will be replaced with fiber-cement siding of a similar profile.

5. Windows, doors, and screens

All historic-age 6:6 windows will be replaced with 4:4 composite windows. Windows at the first floor will be re-spaced to be symmetrical about the new front door.

6. Porches

Porch elements will be replaced with similar compatible elements.

7. Chimneys

The existing chimney will remain, but will be extended to the second-floor addition.

Residential additions

1. Location

The proposed second-floor addition will be located atop the existing house, with a 4' setback from the first floor's front wall.

2. Scale, massing, and height

The modified addition's scale, massing, and height appear more compatible than original plans.

3. Design and style

The proposed addition's materials, design, and fenestration patterns are compatible with the existing building. The addition is slightly differentiated from the historic structure by its position and its differing fenestration patterns.

4. Roofs

The proposed addition removes the existing roofline in order to accommodate the second floor.

5. Exterior walls

The proposed wall materials are appropriate to the building and surrounding district, but are not differentiated from the original house, as the same siding is used throughout.

6. Windows, screens, and doors

The proposed windows appear compatible in design and rhythm.

Summary

The project meets some applicable standards. The applicant has modified the designs based on Committee feedback.

PROPERTY EVALUATION

The property contributes to the Old West Austin National Register district.

Designation Criteria—Historic Landmark

- 1) The building is more than 50 years old.
- 2) The building appears to retain high integrity.
- 3) Properties must meet two criteria for landmark designation (LDC §25-2-352). Staff has evaluated the property and determined that it does not meet two criteria:
 - a. Architecture. The building displays Colonial Revival influences.
 - b. Historical association. The property does not appear to have significant historical associations.
 - c. Archaeology. The property was not evaluated for its potential to yield significant data concerning the human history or prehistory of the region.
 - d. Community value. The property does not possess a unique location, physical characteristic, or significant feature that contributes to the character, image, or cultural identity of the city, the neighborhood, or a particular demographic group.
 - e. Landscape feature. The property is not a significant natural or designed landscape with artistic, aesthetic, cultural, or historical value to the city.

COMMITTEE FEEDBACK

Omit dormers. Set back addition if possible and maintain porch dimensions. Use composition shingle roof. Maintain historic fabric where possible.

STAFF RECOMMENDATION

Comment on and release plans.

**IF YOU want your home SOLD, CALL
HERBERT SMART, ALLANDALE REALTY,
Realtors, 3820 Burnet Rd. 5-5431.**

The Austin American (1914-1973); Jan 11, 1953

The council heard Herbert Smart, a real estate man, and Carl Stautz, an engineer, ask for an amendment to the city's building code that would allow the construction of a unique open-air parking garage in the heart of downtown Austin—at 113 East Ninth Street.

Smart said an application for a permit to build the six-story steel structure, which operates automatically to park cars, was denied by City Building Inspector John Eckert on the ground that it violates fire prevention provisions of the building code.

Smart asked the council to amend the code, citing similar buildings on the West Coast that meet, he said, fire prevention standards.

Smart said the plan calls for the structure to be 57½ feet wide, facing on East Ninth Street, and "backing up" against the Commodore Perry Hotel. He said it would provide downtown parking space for 132 cars.

The council authorized City Attorney W. T. Williams Jr. to draft an amendment to the building code that would pave the way for the unique parking facility's construction.

Smart said construction would begin "just as soon as we can get a permit."

Mayor C. A. McAden told the council the amendment probably would also mean the construction of a similar parking garage by another Austin business establishment. He identified the latter as the American National Bank.

MRS. BESS SMART

Mrs. Bess Smart, 68, of 1519 West 32nd Street, died in a local hospital Tuesday evening. She was a member of First Methodist Church and had been a resident for 30 years. Survivors include her husband, Herbert F. Smart of Austin; one brother, James Lee Rich of Houston; and one sister, Mrs. Carl E. Allen of Houston.

Funeral services will be held at 10 a.m. Thursday at Hytlin-Manor Funeral Home with the Rev. J. Leonard Rhea officiating. Burial will be in Kosse City Cemetery in Kosse at 3 p.m. Thursday.
