

# ALL AGES AND ABILITIES BIKEWAY NETWORK BUILD OUT

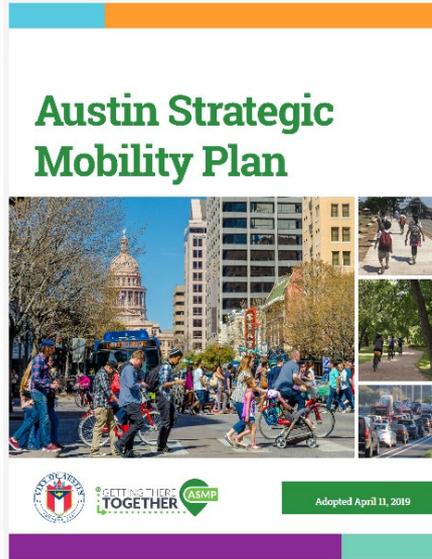

# REVIEW OF BICYCLE PLANNING STRATEGY

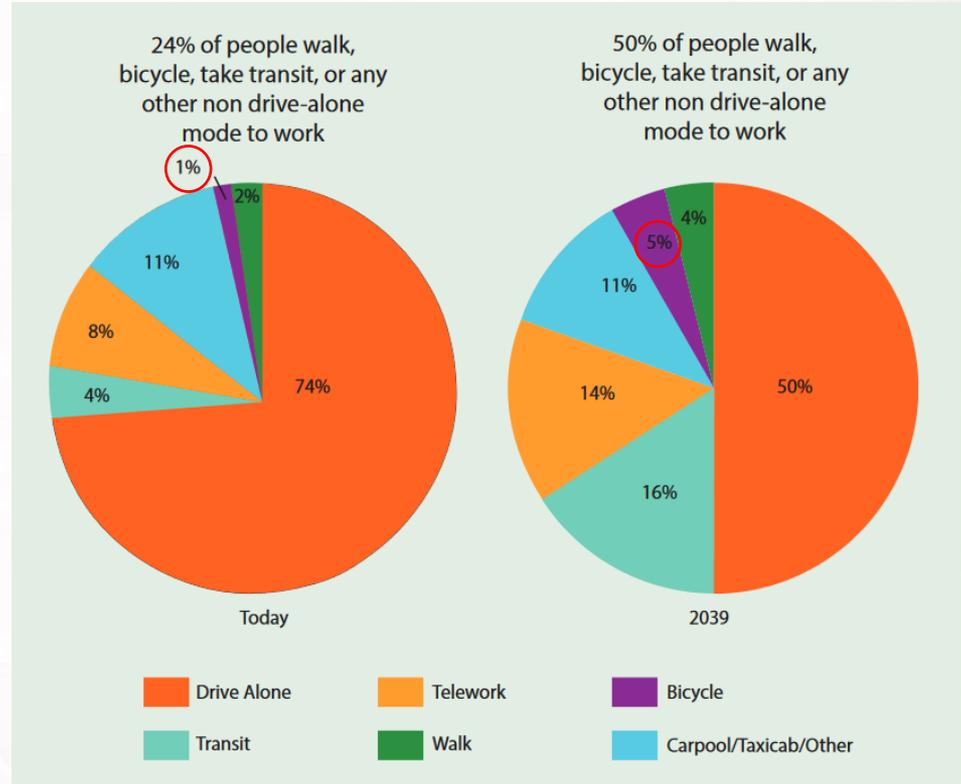

- Current planning strategies are from 2014 Bicycle Plan and 2019 Austin Strategic Mobility Plan
- Core Strategies
  - Infrastructure for people of all ages and abilities
  - Build a complete network that serves travel demand
  - Focus on short trips, connections to transit, serving local destinations, and geographic distribution across the City
- Bicycle Plan is being updated as part of ATX Walk Bike Roll, updating the Urban Trail, Pedestrian / Sidewalk and Bicycle Plans
  - Plan update will be conducted through an equity lens

## A Story Map All Ages and Abilities Bicycle Network

### Policy Framework

The All Ages and Abilities Bicycle Network was first adopted by Austin City Council as part of the 2014 Bicycle Plan and updated in 2019 with the Austin Strategic Mobility Plan (ASMP) as the Bicycle Priority Network. The AAA Bicycle Network will be again updated in 2021/2022 through the ADT Walk, Bike, Roll planning process.

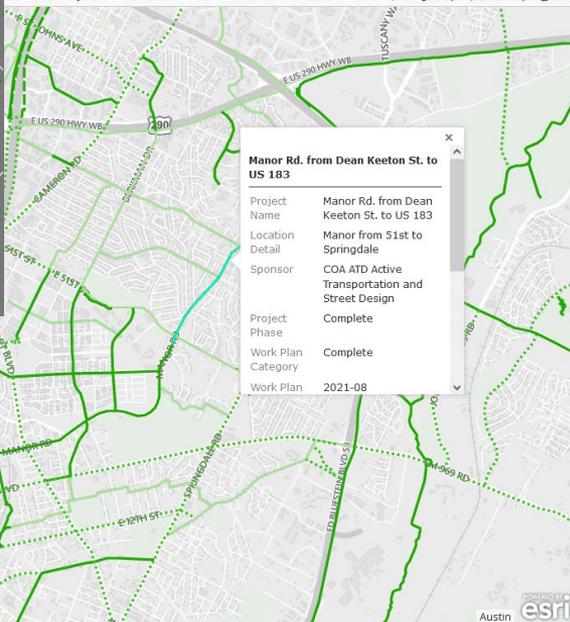

The Austin Strategic Mobility Plan (ASMP), passed by City Council in 2019, set a target to increase the number of people who take transit, walk, share a ride, ride a scooter or bike to 50% in 2039, matched with 50% of people who drive alone. The rapid buildout of the Bicycle Network is the top bicycle strategy to significantly increase bicycle and micromobility use supporting the 50/50 mode share goal of the ASMP.

### Toolbox

The All Ages and Abilities Bicycle Network is composed of existing and potential protected bicycle lanes, neighborhood bikeways
