

# AUSTIN FIRE DEPARTMENT

4201 ED BLUESTEIN RD. AUSTIN, TX 78721 P: 512.974.0130 F: 512.974.0141

## **PUBLIC SAFETY COMMISSION (PSC) MEETING: MARCH 7, 2022**

### **AFD's Six-Month Update Regarding Council Resolution No. 20160512-016**

Chief Carrie Stewart and Justice Jones will be presenting virtually, updating the Commission on components identified in the resolution. Chief Stewart and Justice Jones will need to be able to share their computer screens for the briefing.

AFD has created a specific page on the [Austin-Area Wildfire Hub](#) called the "[Wildfire Readiness Update](#)" that has a real-time representation on progress of these metrics.

The components they will cover as identified in the resolution are:

1. Number of local Community Wildfire Protection Plans (CWPPS) completed and implemented in high-risk Wildfire-Urban Interface (WUI) areas.
2. Number of local CWPPs started in high-risk WUI areas but not completed.
3. Percentage of high-risk WUI areas in which identification of potential local CWPP planning areas is still ongoing.
4. Number of public presentations and home assessments provided.
5. For high-risk WUI areas, provide the number of fuel-mitigation activities, location of activities (identify local CWPP where applicable), type of fuel-mitigation activities (mechanical or prescribed fire), and size of areas mitigated.
6. Number of wildfire training contact hours by City employees, including AFD firefighters, and number of employees receiving training. Break down by classroom hours and hands-on training hours conducted.
