OVP Value Proposition

ACTIONS

IMPACTS

Invest in evidence-based programs and interventions

Increased experiences of safety leading to hope, peace, prosperity and health

Utilize community-informed, multi-sector data analytics

Improved trust due to deploying interventions that address the needs of communities most impacted

Establish connections with aligned community stakeholders

Shared vision, buy-in and accountability between Community, City, OVP and other stakeholders.

Build capacity of local groups and individuals to prevent violence

Establish effective, responsive community organizations with leaders poised to advance violence prevention

Educate and engage public in co-creating safety

Continued community support for meaningful, proactive approaches to safety that invest in prevention
