I am writing to oppose the demolitions proposed for 1505 Alameda, 406 East Annie, and 512 East Monroe. Each building has its individual merits deserving protection, but I would like to stress their value as a group to the overall fabric of our National Heritage District. Thread by thread, with each demolition, the District is unraveling. Please consider this fact: from 2010 through 2021, 1312 houses have been taken down in our zip code (78704), over 21% of all those in the City during that time. I believe that these permits must be considered in light of this overall patter and trend, and blocked.

Thank you,

David Todd
