

## PLANNING COMMISISON SITE PLAN – COMPATIBILITY VARIANCES ONLY

**CASE NUMBER:** SP-2021-0102C      **PC HEARING DATE:** April 12th, 2022

**PROJECT NAME:** 1400 Cedar Ave

**ADDRESS:** 1400 Cedar Ave

**COUNCIL DISTRICT:** 1

**OWNER/APPLICANT:** Urban Gravity (512) 259-6877  
5110 Lancaster Ct  
Austin, TX 78723

**ENGINEER:** Civiltude LLC (Alejandra Flores) (512) 761-6161  
5110 Lancaster Ct  
Austin, TX 78723

**CASE MANAGER:** Zack Lofton (512) 978-1735  
[zack.lofton@austintexas.gov](mailto:zack.lofton@austintexas.gov)

**NEIGHBORHOOD PLAN:** Chestnut Neighborhood Plan Area

**PROPOSED DEVELOPMENT:**

The applicant is proposing to redevelop 2 lots with commercial land uses zoned CS-MU-V-CO-NP into a 7-unit Condominium Residential land use with parking, bike parking and public sidewalk improvements.

**DESCRIPTION OF WAIVER:**

The applicant is requesting a waiver from § 25-2-1063. The site is subject to a 25' compatibility setback. The proposed development is encroaching into the 25' compatibility setback on the north and west property lines for the residential units. The units are at least 5' from the property line but within the 25'.

**COMPATIBILITY:**

Section § 25-2-1051 states that Article 10 Compatibility Standards apply if a use in a SF-6 or less restrictive zoning district is located on a property across the street from or adjoining a property on which is zoned SF-5 or more restrictive, or on which a use permitted in a SF-5 or more restrictive zoning district is located.

**§ 25-2-1063 - HEIGHT LIMITATIONS AND SETBACKS FOR LARGE SITES.**

(A) This section applies to a site that has:

- (1) an area that exceeds 20,000 square feet; or
- (2) a street frontage that exceeds 100 feet.

(B) In this section, the term "structure" excludes a rain garden using no concrete that is designed in accordance with the Environmental Criteria Manual. A person may not construct a structure 25 feet or less from property:

- (1) in an urban family residence (SF-5) or more restrictive zoning district; or
- (2) on which a use permitted in an SF-5 or more restrictive zoning district is located

**SUMMARY STAFF RECOMMENDATION:**

Staff recommends approval of the compatibility setback waiver request. The site complies with all other compatibility standard requirements, such as lighting, screening, and building heights.

**Re: Compatibility Setback Waiver**  
**1400 Cedar Ave (SP-2021-0102C)**  
1400 Cedar Ave, Austin, TX 78702

Dear Mr. Lofton,

On behalf of our client, Urban Gravity LLC, we are submitting a waiver request for the 1400 Cedar Ave project. We are requesting the following waiver to the Land Development Code to make the project feasible:

**Request: Allow to reduce the 25' no build setback to 5' [LDC 25.2.1063].**

The site is composed of 2 tracts of land adding up to 0.28 acres zoned CS-MU-V-CO-NP, surrounded by SF-3-NP properties. If it were to comply with compatibility standards, this site would be forced to be developed within 0.16-acres. To achieve this density, the unit configuration would be forced to be denser in a more compact layout. Constructing townhomes within these standards is not feasible.

We would like to request that the compatibility standards are modified to reduce the no build zone from 25' to 5' and keeping the 30' or 2 stories height limitation from 5' to 50' from the properties triggering compatibility, and so forth. Attached to this letter is the proposed building elevations sheet.

We believe this request does not disrupt the neighborhood's feel and meets the intent of the code, such that no high density or commercial developments occur in a near proximity to a single family lot.

Please accept this letter as our official request. If you have any questions, please call us at 512-761-6161.  
Sincerely,

Alejandra Flores  
Project Engineer

Re: Engineer's Summary Letter  
Site Plan Application  
1400 Cedar Avenue  
Austin, Texas 78702

Dear Mr. Gonzales,

On behalf of our client, we are submitting an enclosed Site Plan Development Permit application package for 1400 Cedar Ave. The project proposes 7 single-family detached condominium units on a 0.2776-acre property located within the Full-Purpose jurisdiction of the City of Austin. No portion of the site is within the 100-year floodplain, and the site is outside Edwards Aquifer Recharge Zone.

The site contains two legal lots (TCAD Parcels 0210111413 and 0210111412) and is platted under Vol. 2 Page 154. The property is located in Boggy Creek Watershed, classified as Urban. The site is zoned CS-MU-V-CO-NP and is within the City of Austin's Chestnut Neighborhood Planning Area. The maximum allowable impervious cover is 95% and the net proposed IC is within this limit at 75.3%, reduced from the existing impervious cover of 97.46%. An RSMP application is not required since the impervious cover onsite seems to be dated back in the 1950s-1960s. A request for fee in-lieu of water quality will be submitted with the formal submittal, since the site is less than 0.5 acres. Drainage pattern remains the same as existing conditions and runoff intensity will be reduced by the proposed development.

The site is currently developed with a single-family house on each lot. The site has frontage and an existing driveway on Cedar Avenue, which will not be modified. All parking requirements are met on site. Proposed building and improvements will be served by the existing City of Austin's Utility.

If you have any questions, please do not hesitate to contact us and inquire at 512-761-6161.

Sincerely,

City of Austin Planning Commission

**Re: Compatibility Setback Waiver for 1400 Cedar Avenue**

Dear Planning Commissioners,

This letter is to inform the Commission that the Chestnut Neighborhood Plan Contact Team does not support the requested compatibility waiver for 1400 Cedar Avenue to reduce the setback from 25 feet to 5 feet.

The Chestnut Neighborhood has a long history of supporting density in our neighborhood, as seen by our adoption of all the neighborhood infill tools as well as working with the city to create the MLK TOD. That said, we believe a 5-foot setback is inappropriate in this location and unnecessary for the success of this project. As seen in the attached exhibit, even with the current building footprint sizes, a 15-foot setback appears doable. With more thoughtful design, the 25-foot setback might be doable as well. Despite repeated requests by the neighborhood, the applicant did not meet with the Neighborhood Plan Contact Team to discuss this project. This is very unfortunate, as we believe there is a solution here that provides the desired density and better aligns with our neighborhood plan.

Thank you for your consideration.

Respectfully,

Chestnut Neighborhood Plan Contact Team

Great. We don't necessarily have concerns about the project. The site plan actually proposes reducing impervious cover from about 97% to about 72%. The city has also recommended the site connect access to the alley but not required it.

Thanks that was helpful.

Are there any remaining concerns that the city has about the proposed plan?

It seems like there could be a impermeable coverage issue as well as no entry/exit facing the alley.

\*\*\* External Email - Exercise Caution \*\*\*

Hi Cindy,

I am an interested party for the proposed development at 1400 Cedar Ave. I have a couple questions:

- Will there be sidewalks surrounding the property on both Cedar Ave and 14th street?
- Will there be a minimum of 2 on-site parking spaces per unit? If not, is it allowed by the city to have less?
- Is the height of any of the proposed units above city allowances?
- How long is the proposed construction timeline?

Thanks,

Ian Zurzolo

If the Planning Commission does not approve the waiver, the applicant will not be able to build within 25 feet of the north and west property lines. If they intend to continue with the same development, they'd just need to reorient it so it doesn't go into the setbacks.

Thanks for the clarification, Zack. Please see attached letter from the contact team.

As an aside, it would help if developers met with contact teams early in the process. As it builds mistrust that is hard to undo. There is also a lot of bad information out there, since neighbors don't understand codes and ordinances. Maybe the city can encourage developers to do so?

Thanks again,  
David

No problem, David. Height is measured differently for different types of roofs. Since these are gabled, it's measured from the average of the highest and lowest points of the roof or the highest and lowest points of the dormer, whichever is higher. The part of code that outlines how height is measured is 25-2-SubF - Article 3.4.1. So even though the highest point of the roof may be higher than the regulation height, it can still comply as long as the average is below the regulation height. Let me know if you have any more questions.

Hi there, David:

Staff is recommending this compatibility waiver to be approved because the site plan is proposing a "missing middle" housing product that contributes to the housing diversity the City needs and the implications of the waiver are reasonable. In addition, this site plan is in compliance with all other compatibility regulations and zoning regulations.

You are correct that this waiver is only for compatibility setbacks. The proposed development complies with the compatibility height regulations - this is shown in the background materials. I do realize that it's fairly nitty-gritty so let me know if you'd like to have a call to discuss it in more detail.

Zack - Looking at this closer, the waiver looks to be just for the compatibility setback, but this project is also violating the allowable compatibility height of 2 stories/30 feet high within 50 feet of triggering property as well as the 3 stories/40 feet within 100 feet of triggering property. How is this being addressed?

Dear Chair Shaw and Vice Chair Hempel,

The Chestnut Neighborhood Plan Contact Team respectfully requests that this item be postponed until April to allow the Contact Team to weigh in on this.

We reached out the applicant months ago to ask about this project and he has ignored repeated requests to meet with us. Further, we just found out about the compatibility waiver request last week and have not been able to organize a quorum in time to discuss before your meeting tonight. With another month, we feel we could weigh in on this issue properly.

Thank you for your consideration,

David Carroll

Chair, Chesnut Neighborhood Plan Contact Team
