2WR'S REQUEST TO PARTICIPATE

2WR requests to participate in the above-referenced 2022 AE base rate review, stating as follows:

I.

2WR

2WR are two women AE residential ratepayers. They are Holly Cooper, whose service connection is located within the City of Austin, and Vicki Dennis, whose service connection is located outside the City of Austin. Under AE's proposed base rate recommendations, both ratepayers will be harmed should the proposed recommendations be approved. 2WR ask that all communications be through their authorized representative:

II.

List of Issues

Based on initial review of AE's rate-filing package, 2WR has identified issues to be resolved in this proceeding. As the record develops and more information becomes available, 2WR reserves the right to address additional issues that may arise or become clearer. The list is as follows:

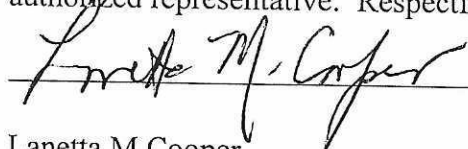

1. Whether the rate-setting process established for this proceeding is fair, equitable, transparent, and leads to a thorough review of rates?
2. Whether AE's ratemaking process addressed City of Austin Resolution No. 20140612-057 and ensured the proposed base rates and rate designs are not recovering the costs of growth?
3. Whether AE's proposed residential customer charge is over-stated and whether it includes recovery of costs that do not vary by customer?

4. Whether the affordability index should be updated in this rate case, and frequently thereafter?
5. Whether AE has accounted for all revenues relied upon to recover its base rate costs incurred to serve ratepayers, including CAP revenues used to fund the CAP customer electric rate discounts and the waiver of customer charges?
6. Whether AE has considered and discussed the effects, if any, of AE customers participating in the solar program on its billing frequency distributions and in its billing revenues in its rate-filing package?

III.

Relief Requested

2WR requests they be granted the right to participate in this proceeding through their authorized representative. Respectfully Submitted,
