

May 16, 2022

To Austin Energy Rate Case Staff:

The Austin Regional Manufacturers Association (ARMA) would like to file as a participant and intervener in the 2022 Austin Energy rate case.

Our representative will be:

Ed Latson  
Executive Director of ARMA  
[ed@arma-tx.org](mailto:ed@arma-tx.org)  
512.925.9968

As a 501(c)6 non-profit association working to improve the regional manufacturing community, we are dedicated to strengthening our members through advocacy, workforce development, and networking. ARMA represents the majority of the manufacturers in the Austin region. Most of these manufacturers are customers of Austin Energy. To see a complete list of our members, please visit our website at <http://arma-tx.org/membership/directory> or see the attached list.

Given that a significant portion of its members are Austin Energy customers, the Austin Regional Manufacturers Association is entitled to be an intervenor in the rate review process. ARMA's primary questions are:

1. Does the proposed tariff package disproportionately affect the base rates of small-to-large-scale commercial and industrial customers?
2. Is Austin Energy's rate proposal based on cost-of-service, and does it appropriately minimize subsidization of customers across different classes and usage characteristics?

If there is any other person or office who I should send a copy of this notice to, please advise before the deadline.

Sincerely,

Liz Gori  
Office Manager
