- Texas Industrial Energy Consumers (“TIEC”) 2-2
- TIEC 2-3
- NXP Semiconductors (“NXP”) 1-4
- Paul Robbins 1-6

Pursuant to the 2022 Austin Energy Base Rate Review Procedural Guidelines § C(2)(a), no confidential materials should be involved in any filings. Austin Energy relied on information in compiling its Rate Filing Package that includes competitive matters under Texas Government Code Section 552.133 and/or critical infrastructure matters under Texas Government Code Section 418.18 and cannot be provided to the public. Further, pursuant to the 2022 Austin Energy Base Rate Review Procedural Guidelines § C(2)(b), no personally identifiable information, including but not limited to social security numbers, driver’s license numbers, account numbers, account usage data, or any other data that might compromise a person’s privacy, should be included in any filings. The City of Austin Law Department has reviewed the RFIs listed above and determined that responsive Austin Energy information is considered either confidential competitive information, confidential critical infrastructure information, or confidential customer information which Austin Energy cannot legally disclose.
