### **Additional Backup Information:**

These contracts provided automotive, truck, and off-the-road tires and tubes for the City's fleet of vehicles. These contracts supplemented Fleet Mobility Service's tire service operations and increased responsiveness to various City departments.

The department erroneously overspent by \$206,000 due to the shortage of tire products and an unanticipated need for additional tires to support Austin Resource Recovery, the Austin Fire Department, and Public Works.

A replacement contract was authorized on March 24, 2022.

### **Strategic Outcome(s):**

Mobility.
