Additional Backup Information:

On January 19, 2022, the contractor provided emergency repairs for a water leak on the only potable water supply line at the Decker Power Plant. This line provides a crucial water supply for Decker Power Plant's power, control room operations, and general potable water needs.

Due to high energy demand, it was imperative to get repairs completed as quickly as possible to minimize operational and financial impacts.

Strategic Outcome(s):

Health and Safety.
