Hi Cindy, how are you? Are you going to comment at the BOA meeting? I'm not going to be here (I thought this thing was finished already!). We're going out of town. I've been going in person but haven't done the online meeting. If you are commenting, would mind reading my note for the adjustment board. Feel free to forward it to the adjustors if necessary. Thanks KV.
Here it is:

I'm here to discuss the developers' request for hardship in comparison to the lot next door. The developer sited the lot next door as the reason for the hardship, and I'd like to tell you about those lots. The property next door has a reasonable sized home and minimal impervious cover and has preserved the heritage oak on the property. The lot next door also has undisturbed non impervious cover to absorb runoff into lake Austin. I don't think there is sufficient hardship for the developers request to increase the impervious cover to the extent they're asking based on the comparison of the lot next door. I'm not against the developer from building on his property, I think the variance should be in line with what is reasonable within the code and based on comparison to other lots. Thanks.

FYI I have been in touch with Elaine to make sure my own objections and photos were included for the upcoming meeting scheduled for this coming Monday @ 5:30. She wrote back and offered this link which shows the owner's complete request along with out objections. I was shocked to see a tree guy opting to get rid of the oaks...at least that is how I read it! See below first page of tree report and the following pages can be found in the second link below.

Here is the link to the entire schedule: https://www.austintexas.gov/cityclerk/boards_commissions/meetings/15_1.htm

And this part concerns the lots at 2715/17 Long Bow: <https://www.austintexas.gov/edims/document.cfm?id=384843>

The report is found on pages F-14 through F-31

Hi there Elaine. I am writing to ask about the upcoming meeting mid-March. The issues regarding 2715/2717 Long Bow Trail Austin TX 78734 got postponed. Couple of things. Should we resend further comments to the board? And, also, after listening to the property owner's statements to the board about home sizes here in Apache Shores and also regarding the oaks on his two lots, I uploaded some photographs to share in albums on Google. I'm hoping to be able to send those links to you and the board so that they can have a realistic view of the neighborhood and actual home sizes. Also, in a separate album, I photographed at least 20 oaks and they are healthy trees, not dead as was claimed by the owner. I even photographed the tops leafing green for spring.

Thank you so much. I look forward to hearing back from you. Have a nice day.
