Hello,

I would like to speak against the demolition of 1514 Newton. I live next door ( 15 feet from our bedroom) and am very worried about the demolition as my wife is sick with major cancer and undergoing chemo at the moment. I realize I missed the noon deadline to speak remotely but I hope you can make an exception as she is immuno compromised and I am not going in public at the moment. There are several other reasons I oppose this demo and I would like the opportunity to share them with the commission. Thank you for any help you can offer.
