### **Council Committee, Boards and Commission Action:**

August 10, 2022 - Recommended by the Water and Wastewater Commission on a 7-0 vote with two absences and two vacancies.

### **Additional Backup Information:**

Austin Water is currently rolling out a citywide smart water meter program called [My ATX Water <https://www.austintexas.gov/departments/my-atx-water>](https://www.austintexas.gov/departments/my-atx-water). This program is modernizing Austin Water's water metering system by replacing more than 250,000 analog water meters with digitally read water meters connected to a wireless network by 2025.

---

Of the nearly 250,000 analog water meters scheduled for replacement, approximately 450 large diameter meters are incompatible and need replacement to complete the My ATX Water project deployment. This contract will ensure the large diameter meters meet the same installation timeframe by exchanging up to 40 meters per month.

Large diameter meter replacements often require heavy equipment, right-of-way and street closure permits, confined space entry requirements, and extensive commercial property coordination, requiring a dedicated resource.

**Strategic Outcome(s):**

Health and Environment.
