WHY

Meet Camila...she represents the past and future of Latinos

The house she holds out to us is a symbol of the contributions of Latinos to this country ---we build homes, universities, communities, we are the builders of the future – we are the teachers, nurses, doctors, ingenieros, constructores, economistas, matematicos.

Camila

She is our reminder of the work ahead of us
She is our hope
She is our vision

She is our builder

We hold ourselves accountable to her....and ask you to join us

Together, we will work, lead, walk 1000 miles to our last breath for her wellbeing – this nation depends on her power and her wellbeing....SHE IS the future of our nation – SHE IS the future of this community.
