

ZONING CHANGE REVIEW SHEET

CASE: C14-2022-0087 (8701 and 8627 N MoPac) DISTRICT: 10

ADDRESS: 8701 and 8627 N Mopac Expressway Service Road North Bound

ZONING FROM: LO and LR

TO: CS

SITE AREA: 8.36 acres

PROPERTY OWNER: 8701 MoPac Atrium LLC and US REIF Euris Austin LLC

AGENT: Drenner Group, PC (Amanda Swor)

CASE MANAGER: Sherri Sirwaitis (512-974-3057, sherri.sirwaitis@austintexas.gov)

STAFF RECOMMENDATION:

Staff recommends CS, General Commercial Services District, zoning.

PLANNING COMMISSION ACTION / RECOMMENDATION:

August 23, 2022: Postponed to September 13, 2022 at the staff's request (12-0, S. Praxis-absent).

September 13, 2022: Approved staff's recommendation of CS zoning by consent (8-0, J. Mushtaler- arrived late, G. Anderson, Y. Flores and J. Shieh-absent); C. Hempel-1st, J. Thompson-2nd.

CITY COUNCIL ACTION:

October 13, 2022

ORDINANCE NUMBER:

ISSUES:

During the Burnet Road, Anderson Lane and the North Shoal Creek Area neighborhood planning process, the long-range planning staff did not add the –NP combining district to the end of the zoning string for the properties in the planning area. Therefore, the rezoning request does not require the “NP” annotation.

CASE MANAGER COMMENTS:

The property in question is developed with office buildings (The Atrium Office Centre and Chancellor Center). There is an industrial use/emulsion plant (Ergon Asphalt & Emulsions, Inc.) and a landscaping supply use (Legacy Turf and Greens) to the north. The lots to the south are developed with office buildings. To the east, there is a railway and office and industrial uses. To the west is the North Mopac Expressway. The applicant is requesting CS, General Commercial Services District, zoning to bring the exiting office structures into compliance with site development regulations in the Land Development Code (*Please see Applicant’s Request Letter-Exhibit C*).

The staff recommends CS zoning for this property because it meets the intent of the ‘CS’ district as it fronts onto the frontage road to a major arterial roadway, North Mopac Expressway (Loop 1). The proposed zoning would be consistent with existing zoning patterns in this area because there is commercial (CS) zoning to the north, office and commercial (LO, LR, GR) zoning to the south and west and office and industrial uses (zoned LI) to the east of this site. The CS zoning would allow for a fair and reasonable use of the site because it would make it possible for the applicant to bring the existing office complex into compliance. In addition, the proposed zoning would permit additional services to be developed in this area along a Level 4 roadway. The property is located within the North Burnet/Gateway Station Regional Center as designated by the Imagine Austin Comprehensive Plan.

The applicant agrees with the staff ‘s recommendation.

BASIS OF RECOMMENDATION:

1. The proposed zoning should be consistent with the purpose statement of the district sought.

General Commercial Services district is intended predominately for commercial and industrial activities of a service nature having operating characteristics or traffic service requirements generally incompatible with residential environments.

Neighborhood Plan district denotes a tract located within the boundaries of an adopted Neighborhood Plan.

The property under consideration is accessible from major traffic ways as it fronts onto the feeder street North Mopac Expressway.

2. *The proposed zoning should promote consistency and orderly planning.*

The proposed CS zoning would be compatible with existing zoning patterns in this area because there is CS zoning to the north, LO and LR zoning to the south, LI zoning to the east and a major arterial roadway/highway to the west of this site.

The proposed CS zoning is consistent with the Commerce character district designation adopted for this area in the North Shoal Creek Neighborhood Plan.

3. *The proposed zoning should allow for a reasonable use of the property.*

The General Commercial Services zoning district would allow for a fair and reasonable use of the site because it would provide the applicant with additional permitted uses to allow for the expansion of office and commercial services on a site that fronts onto a major arterial Level 4 roadway/highway.

EXISTING ZONING AND LAND USES:

	ZONING	LAND USES
<i>Site</i>	LO, LR	Office (The Atrium Office Centre, Chancellor Center)
<i>North</i>	CS-NP	Industrial (Ergon Asphalt & Emulsions, Inc.)
<i>South</i>	LO, LR	Office (Mopac Centre), Automotive Services (NTB)
<i>East</i>	LI	Railway (Union Pacific Railroad), Office/Warehouse, Office (TDCJ Government Building), Industrial (All-Tex, Facets of Austin)
<i>West</i>	ROW, GR	MoPac Expressway, Office (Hyridge Place), Multifamily (Wood Harbour)

NEIGHBORHOOD PLANNING AREA: Burnet Road, Anderson Lane and the North Shoal Creek Neighborhood Planning Area

	Workforce Development, the Economy and Education: Expands the economic base by creating permanent jobs, especially an industry that is currently not represented in particular area or that promotes a new technology.
	Workforce Development, the Economy and Education: Promotes educational opportunities or workforce development training.
4	Total Number of "Yes's" from Up Top and Under Bonus Features

Applicable Small Area Plan Policies:

Land Use Policies for Mopac Frontage Road (p. 32)

MF P1 Encourage a balance of offices and services, discourage residential.

MF P2 Allow building heights of four to six-stories and vehicular-oriented site design.

MF P3 Integrate beautification of landscape areas and plant trees to provide shade along walk and bike paths.

COMMERCE DISTRICT FEATURES (p. 50) The following features were identified as characteristics that should be typical to the Commerce District: • Auto-oriented, region-serving commercial with frontage road access • Building heights up to six stories where not adjacent to Residential Core • Heights should step down to be compatible with adjacent residences • Placement of windows should respect the privacy of neighboring residences • Landscaping and fences to buffer adjacent residences • Adequate parking, visible from street • Multi-lane drive-thru facilities

Environmental

The site is not located over the Edwards Aquifer Recharge Zone. The site is located in the Shoal Creek Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.

Zoning district impervious cover limits apply in the Urban Watershed classification.

According to floodplain maps there is no floodplain within or adjacent to the project

location.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

At this time, site specific information is unavailable regarding vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

This site is required to provide on-site water quality controls (or payment in lieu of) for all development and/or redevelopment when 8,000 sq. ft. cumulative is exceeded, and on site control for the two-year storm.

At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

Fire

No comments.

Parks and Recreation

There are currently no parkland requirements for uses other than residential and hotel. Given that the application is for existing professional office, there would not be parkland dedication requirements or parkland impacts unless redeveloped with a new site plan or subdivision.

Site Plan

General

A site plan will be required for any new development other than single-family, two-family or duplex residential.

Any new development is subject to the design standards in Subchapter E of the Land Development Code. Additional comments will be made when the site plan is submitted.

Any new development which is located 540 ft. or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations. Along the western property line, the height of a structure more than 300 feet but not more than 540 feet from SF-3 property is limited to 60 feet plus one foot for each four feet of distance in excess of 300 feet from the SF-3 property.

Existing Conditions

This tract is already developed and the proposed zoning change is within the footprint of an existing development.

Neighborhood Planning Area

This site is located in the North Shoal Creek Neighborhood Planning Area. Please see the City's [Neighborhood Plans and Resources webpage](#) for a copy of the recommended design guidelines.

Scenic Roadway Sign District Regulations

FYI: Site is required to comply with Scenic Roadway sign regulations in 25-10-124.

Transportation

There is a proposed Urban Trail adjacent to this site, along the Union Pacific Railroad." The easement required is a minimum of 20 ft as this allows for a 12 ft trail (minimum trail width per the urban trails plan) and room for maintenance activity. This is the same for Tier I and Tier II trails.

Assessment of required transportation mitigation, including the potential dedication of right of way and easements and participation in roadway and other multi-modal improvements, will occur at the time of site plan application. A traffic impact analysis shall be required at the time of site plan if triggered per LDC 25-6-113.

Water Utility

The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the land use. The water and wastewater utility plan must be reviewed and approved by Austin Water for compliance with City criteria and suitability for operation and maintenance.

Based on current public infrastructure configurations, it appears that service extension requests (SER) will be required to provide service to this lot. For more information pertaining to the Service Extension Request process and submittal requirements contact the Austin Water SER team at ser@austintexas.gov.

The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

Re: 8701 and 8627 N MoPac – Zoning application package for the approximately 8.36-acre property located at 8701 and 8627 N MoPac Expressway Service Road NB in Austin, Travis County, Texas (the “Property”)

Dear Ms. Truelove:

As representatives of the owner of the Property, we respectfully submit the enclosed zoning application package. The project is titled 8701 and 8627 N MoPac and is approximately 8.36 acres of land, located on the east side of the northbound MoPac Service Road NB between Steck Avenue and Research Boulevard. The Property is in the full purpose jurisdiction of the City of Austin. This application accompanies a restrictive covenant termination application titled the same, 8701 and 8627 N MoPac which is approximately 8.54 acres.

The Property is currently zoned LO-NP (Limited Office – Neighborhood Plan) and LR-NP (Neighborhood Commercial – Neighborhood Plan). The requested rezoning is from LO-NP and LR-NP to a CS-NP (General Commercial Services – Neighborhood Plan). Currently, the Property is developed with professional office use. The purpose of the rezoning is to bring the building into conformance with site development regulations.

The Property is within the North Shoal Creek Neighborhood Planning Area, adopted August 23, 2018. The North Shoal Creek Neighborhood Plan was adopted with a future land use map designation of Commerce, which is consistent with the zoning request. Attached is a memo from Maureen Meredith on May 9, 2022, confirming that a plan amendment application is not required. A Commerce designation allows for NO, LO, LR, GO, GR, CS, CS-1, CH, W/LO, P, AG, PUD, and PDA zoning districts; accordingly, our proposed CS-NP zoning aligns with this future land use map designation.

The Traffic Impact Analysis (“TIA”) is not required, per the attached TIA determination waiver dated April 28, 2022, and executed by Justin Good.
